

Missouri

Total Funding: \$65,091,371
TAACCCT Grants: 7

Colleges

- Cottey College
- Crowder College**
- East Central College
- Jefferson College
- Linn State Technical College
- Metropolitan Community College
- Mineral Area College
- Missouri State University-West Plains**
- Moberly Area Community College
- North Central Missouri College
- Ozarks Technical Community College**
- Ranken Technical College
- St. Charles Community College
- St. Louis Community College**
- State Fair Community College
- State Technical College of Missouri
- Three Rivers Community College**

Bolded colleges are grant leads

Statewide Outcomes

The U.S. Department of Labor’s TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

Examples from Missouri

Industry Emphasis of Programs of Study

Information Technology

Manufacturing

Healthcare

Agriculture

Transportation

Missouri Example: The Missouri Manufacturing Workforce Innovation Networks (MoManufacturingWINs) consortium uploaded [128 learning resources](#) and program support materials on advanced manufacturing.

Through its TAACCCT grants, Missouri’s community and technical colleges took a comprehensive systems approach in partnering with employers and the workforce system to create or transform more than 100 programs of study in advanced manufacturing, healthcare, and STEM fields, benefitting thousands of unemployed or underemployed Missourians. The independently-governed community colleges also have learned to collaborate on an entirely new scale. For example, all the state’s community colleges and Workforce Development Boards have established joint memoranda of understanding, and the colleges have contracted with the Boards to provide employment-related services, such as job placement.

St. Louis Community College, lead college for the Mississippi River Transportation, Distribution & Logistics Consortium, partnered with the Missouri Department of Transportation to train new hires using the department’s highway maintenance vehicles. The department has agreed to give hiring priority to participants and to interview all program completers.
