Statewide Outcomes

Programs Launched

34 programs

= 10 programs

Participants

21,732 participants

= 1,000 participants

Credentials Earned

5,632 credentials

= 1,000 credentials

The data presented reflects final grantee reporting as of September 30, 2018. See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor's TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

Examples from Montana

Industry Emphasis of Programs of Study

Manufacturing

Energy

Healthcare

To find free and open career and technical training resources produced by colleges using TAACCCT funds, visit <https://www.skillscommons.org/>.

Montana Example: The Strengthening Workforce Alignment in Montana's Manufacturing and Energy Industries (SWAMMEI) project shared [64 learning resources](#) on CNC machining, industrial maintenance, welding, developmental math, and other manufacturing topics.

"The collaboration of multiple agencies (Montana University System, Great Falls College MSU, Montana Department of Labor and Industries, Montana Department of Commerce, and the Governor's Office) through the TAACCCT grant created unplanned synergies that magnified the effects of these dollars for students and businesses. These synergies will sustain our collective work for Montana residents and employers."

*Dr. Susan Wolff, Dean and CEO
Great Falls College*

Led by Missoula College - University of Montana, Montana HealthCARE (Creating Access to Rural Education) has expanded the apprenticeship model to the healthcare industry—a first for the state. To date, 29 employers are sponsoring 84 apprenticeships in 14 different healthcare occupations, such as surgical technician and certified nurse aide; the vast majority of employer sponsors are rural, frontier facilities, while three serve Native American communities on reservations. The computerized tomography (CT) technician apprenticeship co-created by Missoula College and Clark Fork Valley Hospital, a rural critical access facility, is one of the few such apprenticeship programs in existence nationwide.
