Credentials Earned 

 = 1,000 credentials

The data presented reflects final grantee reporting as of September 30, 2018. See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor’s TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

South Carolina Example: The Accessible Support Services and Instruction for Sustainable Transition to Work (ASSIST) consortium shared [learning resources](#) on electrical circuits, machine tools, Geographic Information Systems (GIS), along with resources on developmental English and Mathematics.

Piedmont Technical College (PTC), a member of the Accessible Support Services and Instruction for Sustainable Transition to Work (ASSIST) consortium, is collaborating with 37 local advanced manufacturing employers to redesign curricula and establish new certificate programs in 10 community colleges statewide. The project’s employer partners are helping create the PTC Center for Advanced Manufacturing. Sixteen partnering companies plus local organizations each donated from \$5,000 to over \$100,000 toward the center’s development, resulting in \$1.4 million in leveraged resources.

“Through grant funding, the colleges purchased significantly upgraded training equipment and new technologies. The updated equipment ensured that training programs were relevant to employers’ needs for current skills, and improved the immediate employment opportunities for graduates who were trained on the equipment.”
