Examples of Counting Periods of Participation for Exit-Based Indicators of Performance

Counting Periods of Participation: Examples for Exit-Based Indicators of Performance

Example 1

An individual:

- 1) becomes a participant in August 2016; and
- 2) exits in October 2017.

In this example, the participant's enrollment in the program spans across two program years. However, the period of participation does not align with the program year.

Attachment 6

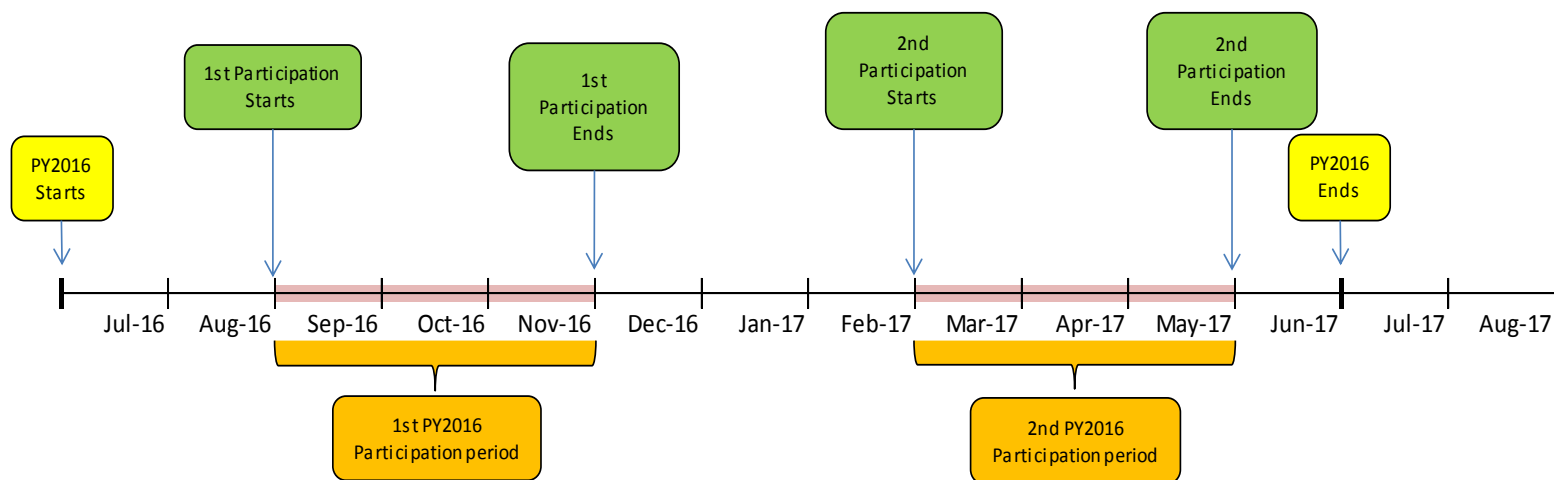

Examples of Counting Periods of Participation for Exit-based Indicators of Performance

Counting Periods of Participation: Examples for Exit-Based Indicators of Performance

Example 2

An individual:

- 1) becomes a participant in September 2016;
- 2) exits the program in November 2016;
- 3) re-enrolls and becomes a participant in March 2017; and
- 4) exits the program again in May 2017.

In this example, the participant has two periods of participation during a single program year. Because both exit dates occurred within the same program year (July 2016 – June 2017), the participant has two periods of participation for PY2016. Therefore, exit-based performance indicators should be collected and calculated based off **both** periods of participation; two separate outcomes will be based on the November 2016 exit and May 2017 exit, respectively.

Attachment 6 - REVISED

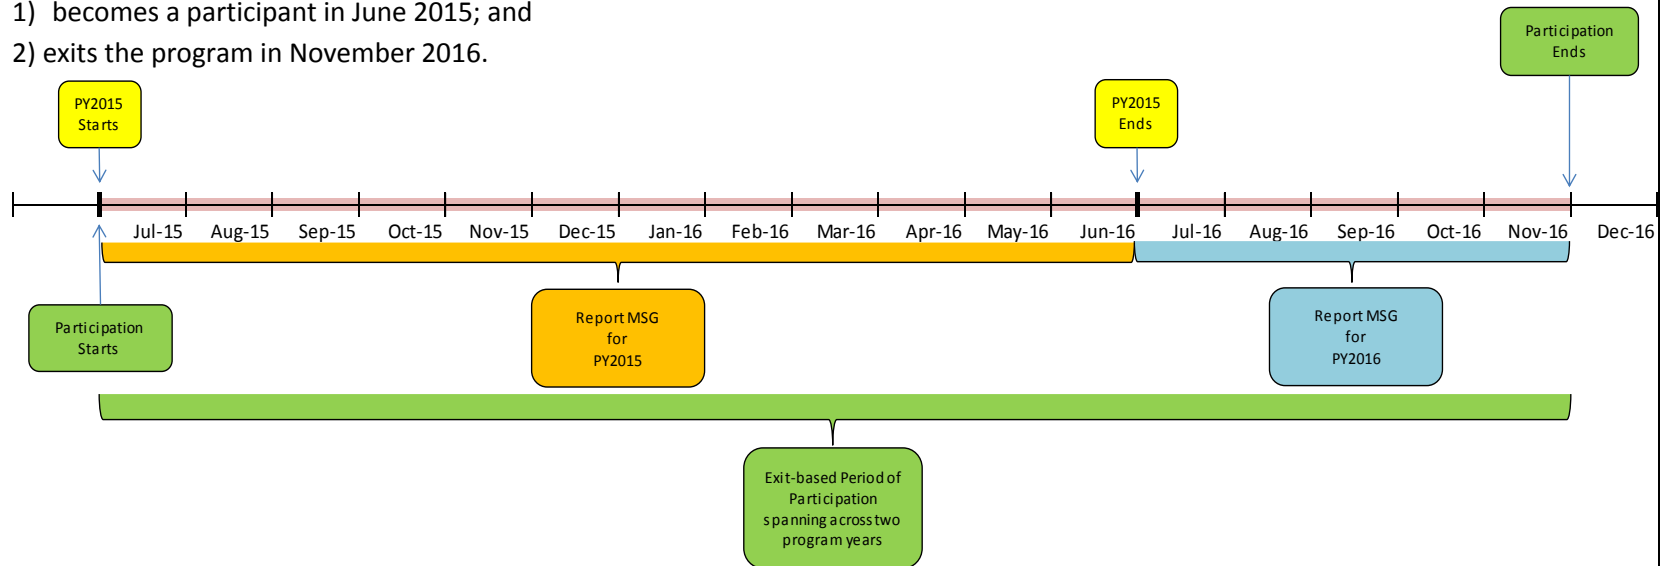

Example of Counting Periods of Participation for Exit-based Indicators of Performance

Counting Periods of Participation: Example for Exit-Based Indicators and the Measurable Skill Gains Indicator of Performance

Example 3 - REVISED

An individual:

- 1) becomes a participant in June 2015; and
- 2) exits the program in November 2016.

In this example, the participant has one period of participation which spans two program years (PY2015 and PY2016), and will be reported once for the purpose of exit-based indicators. Also, in this example, the participant must be reported twice (once in PY2015 and once in PY2016) because this indicator of performance must be reported at least once per program year for each participant and because the reporting is not triggered by exit. The individual is counted as a participant in both PY2015 and PY2016 because he/she continued to receive services after July 1, 2016. Exit-based performance indicators should be collected and calculated based off of the November 2016 exit date.
