**Project Report**

**A. Summary of Project**

*Please limit your response to 1000 characters or less.*

States must use this section to provide a detailed executive summary of the project/activity/solution (project). Each funded project will have its own separate quarterly progress report (ETA 9178-ARPA) through the quarter the project ends. States must use this section to provide a short summary of the project’s purpose. This summary should only change during the life of the grant if the state has received an approved modification. Modifications only apply to grants that require a full application.

**B. Timeline for Grant Activities and Milestones or Deliverables**

*Please limit your response to 1000 characters or less.*

States must use this section to provide the timelines for and the progress achieved in completing grant activities, key milestones, and deliverables for this quarter. A timeline must still be developed for all project activities. The timeline must provide a project flow that includes start and end dates, a schedule of activities, and projected outcomes. In order to reap the most benefit from the timeline, the timeline must be updated each quarter noting the actual date of completion as each activity is accomplished. Items to incorporate in the timeline include project goals, milestones, special events, important deadlines, and deliverables.

---

**C. Project Implementation and Funding Status**

---

*Please limit your response to 1000 characters or less.*

States must use this section to provide a description of the implementation of key activities and/or project status for the current quarter. Place an ‘X’ in one of the four checkboxes provided below to provide an assessment of implementation progress. The assessment must be supported by the status narrative noting if the project is on schedule, behind schedule, ahead of schedule, or complete this quarter. Once the project is marked as complete this quarter, the state is no longer required to submit an ETA 9178-ARPA report for the project.

In addition, please provide the funding status for this project for the end of the quarter, including the total project funding, total obligated, funding balance, and time remaining to expend funds/expenditure target.

**D. Project Challenges, Risk Mitigation Efforts/Modification Requests, and Technical Assistance Needs**

---

*Please limit your response to 1500 characters or less.*

States must use this section to summarize any significant challenges to project implementation encountered during the quarter and describe any risk mitigation efforts or actions taken to address the identified challenges. In addition, a status update must be provided on the resolution of challenges identified in previous quarters. This section should also include any questions you have for DOL and note any identified needs for technical assistance from DOL or others. The narrative must also indicate whether the grantee is requesting a modification to any project strategies and how the modification request changes the original project proposal. If a modification has been requested, the narrative must also indicate the status of the modification request. Modifications only apply to grants that require a full application. If states have nothing to report, that should be specified.

---

**E. Best Practices, Promising New Strategies and Success Stories**

---

*Please limit your response to 1000 characters or less.*

States must use this section to describe promising approaches, innovative processes, or grant success stories. States must also describe any lessons learned and how those lessons learned will be implemented. Throughout the implementation of the project, states may discover new strategies that emerge as a result of data-driven continuous improvement. As progress is made with a new and promising strategy, or as data is gathered to support it, states must document the progress and data each quarter. If states have nothing to report, that must be specified.
