2 CFR 200.456

Stipends as a Participant Support Cost
The Program Office received guidance from the Office of the Solicitor that grantees are allowed to use grant funds for stipends. At this time, there is no guidance regarding incentives. (See 2 CFR 200.75 on page 24 of the Funding Opportunity Announcement (FOA)). Generally, stipends may be used as an allowable payment for participation in activities such as occupational skills training or classroom activities, including work readiness or employability skills training. As discussed in the FOA, the grant applicant would have determined, at the time of their application, whether stipends would be covered in the “other” category of their proposed budget. Consult with your FPO as soon as possible to determine whether this is covered based on your budget.
Stipend Process

- Determine if you want to provide stipends as a supportive service.

- Review your institutions internal controls and policy and procedures for offering and providing stipends.

- Stipends need to be connected to participant engagement activities
  - As part of your policies and procedures you determine what that means for your program.
  - You determine how you are going to identify, track, and pay stipends. Records need to be kept.

- Stipends need to be consistently applied to all JCS participants
  - This is not a needs-based stipend unless you determine per your policies and procedures you are going to base it on need.
Next Steps

- Review your budget
- Update the budget narrative Other cost category to include the breakdown and supporting evidence for the use of stipends
- Set up a meeting with FPO to review your internal controls and policies and procedures
- Finalize the budget modification request
- Wait for approval of the modification request from Grant Officer (Prior Approval is needed)
Business Items
Immediate Communication Required per 2 CFR 200.329(e)

Do not wait to inform DOL if the following conditions become known:

(1) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the Federal award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation
   ★ For example: Any time the main point of contact for your grant changes and/or there are personnel vacancies.

(2) Favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.
Thank you!
