

TAA Termination Impacts: By the Numbers

Fact Sheet

The TAA Program was established in 1962, and since 1974 has served more than 5 million American workers. The program certifies **more than 100,000 eligible workers** annually. In FY 2022, there were 14,608 participants in the TAA Program and 7,045 participants are continuing to be served as of September 30th, 2022.

TAA Reversion 2021

TAA Reversion 2021 was effective July 1, 2021, through June 30, 2022. Under Reversion 2021, worker group eligibility, benefits, and services available to trade-affected workers were significantly limited due to the more restricted provisions.

- More than 40,000 services sector workers and those normally certified under determinations made by the International Trade Commission became ineligible.
- Approximately 8,000 workers annually did not have access to an average of \$13,000 in training benefits and an average of \$23,000 in income support payments; and more than 4,000 fewer workers could receive training.
- Approximately 23,000 production workers lost eligibility because reversion does not cover workers affected by shifts in production to countries without a Free Trade Agreement with the United States (e.g., China).

TAA Termination Provisions

TAA Termination provisions took effect on July 1, 2022. Under termination, DOL may not conduct new investigations or issue certifications of eligibility for new groups of workers.

In addition, benefits and services may not be provided to workers who were certified prior to July 1, 2022, but who were not separated before that date. As a result, thousands of such workers, are ineligible for TAA benefits or services. Some of the larger company impacts are listed below along with the approximate number of affected workers:

- Tennessee: Electrolux Employees - 1,925 workers
- Tennessee: CJ Automotive - 400 workers
- Ohio: Tenneco - 1,300 workers
- Illinois: Fiat Chrysler (FCA US) - 1,400 workers
- Florida: Stryker Employment Company - 500 workers
- Pennsylvania: Honeywell - 150 workers
- Indiana: Medtronic - 400 workers

Trade Adjustment Assistance for Workers (TAA) Program
Impacts of Program Termination

As of March 4, 2024, 621 petitions covering 94,726 workers are pending investigation – including 28 petitions that were still pending as of July 1, 2022. Table 1 below represents petitions either pending at termination or filed after termination. No further investigation on behalf of workers is permitted.¹

Table 1: TAA Petitions Pending at Termination or Received During Termination

TAA Termination in the News

Table 2 provides a list of articles related to the termination of the TAA for Workers Program.

Table 2: News Articles Related to TAA for Workers Program Termination

March 1, 2024	<u>The Need for TAA Continues: Import Restrictions on Polyester Fiber Possible from Section 201 Investigation</u>	Higher tariffs and other measures on imported fine denier polyester staple fiber could result from a safeguard investigation the International Trade Commission has been petitioned to initiate. The ITC now has 120 days to make a decision, 150 days if the investigation is deemed extraordinarily complicated. If the ITC's determination is affirmative, it will recommend relief to the president within 180 days after the petition is filed. Section 201 remedies may include tariff increases, quotas, tariff-rate quotas, trade adjustment assistance, or any combination thereof as well as any other action authorized under the law that is deemed likely to facilitate positive adjustment to import competition.
February 29, 2024	<u>Africa Needs a Transcontinental Trade Adjustment and Facilitation Fund</u>	Unfortunately, Africa's leaders have paid less attention to the reform of two equally important corollary measures to establish modern continent-wide institutions and administrative rules: (i) those that facilitate or otherwise enhance consistency of regulatory protocols governing cross-border commerce—an "African Transcontinental Trade Facilitation Fund" to enable uniformity and implementation of licensing protocols, and (ii) those that cushion the impacts from closure or relocation of African firms as well as the layoff, retraining or relocation of workers—an "African Transcontinental Trade Adjustment Assistance Fund."
February 13, 2024	<u>Ways & Means trade panel chair: GSP renewal making 'good progress'</u>	Lawmakers are making "good progress" toward a bipartisan reauthorization of the Generalized System of Preferences, House Ways & Means trade subcommittee Chair Adrian Smith (R-NE) said on Tuesday, suggesting GSP legislation could help "tee up" legislation to extend the African Growth and Opportunity Act as well. GSP expired in 2020; AGOA is set to expire in 2025.
February 5, 2024	<u>U.S. Chamber Comments on the Generalized System of Preferences (GSP) Reauthorization.</u>	Dear Chairmen Smith and Smith and Ranking Members Neal and Blumenauer: The U.S. Chamber of Commerce urges you to complete work and report legislation to reauthorize the Generalized System of Preferences (GSP), including provisions to ensure that this program is renewed on a fully retroactive basis. (<u>See full letter on link.</u>) <i>This Hill letter was sent to the Members of the House Committee on Ways and Means supporting the reauthorization of the Generalized System of Preferences (GSP).</i>

Trade Adjustment Assistance for Workers (TAA) Program
Impacts of Program Termination

February 1, 2024	<u>How to receive cash assistance in Maryland while enrolled in college</u>	Trade Adjustment Assistance Program: The Trade Adjustment Assistance Program, which falls under Section 236 of the Trade Act of 1974, provides support to individuals who have lost their jobs due to foreign competition. Individuals who qualify for this program may receive financial assistance to pursue education and training programs, including those offered by colleges and other institutions of higher education. Michael, a trade school student who is eligible for the Trade Adjustment Assistance Program. This program provided him with financial support while he pursued his education in a specialized trade. With the help of cash assistance, Michael was able to complete his training program and obtain certifications that significantly increased his employability. Today, Michael has a successful career in his chosen trade and is financially stable thanks to the support he received.
January 23, 2024	<u>Domestic Textile Industry Crashing Because of Trade Loophole</u>	Congress hasn't updated or allowed several key trade-related provisions to lapse, including the Generalized System of Preferences (GSP), which gives developing countries lower tariffs to spur investments; the Miscellaneous Tariff Bill (MTB), which allows duty-free entry when a key input is not made domestically; and Trade Adjustment Assistance (TAA), intended to benefit workers displaced by foreign trade (TAA expired at the end of 2022). De minimis reform could be bolted onto such reform in a broader trade bill that both sides would accept.
January 17, 2024	<u>Rep. LaHood introduces bill to update, enhance digital trade</u>	U.S. Rep. Darin LaHood (R-IL) introduced legislation this week that looks to modernize Generalized System of Preferences and enhance digital trade in the United States. The Digital Trade for Development Act would update the Generalized System of Preferences (GSP), promote economic growth around the world, and prevent the proliferation of restrictive digital trade policies. "Digital trade is an engine for economic success in the United States and around the world," LaHood said. "By modernizing the GSP, this bill can support open digital trade policies that expand economic growth in developing countries and advance American interests around the world.
January 10, 2024	<u>Labor's TAA program helps laid-off workers segue to employment opportunities</u>	IDAHO FALLS, Idaho (KIFI) - James Black experienced a job loss when his employer closed a large section of its manufacturing division in 2013. The jobs and a portion of the production of articles and supply of services shifted to a foreign country. Through the federally funded Trade Adjustment Assistance (TAA) program, Black and other affected coworkers have access to reemployment benefits. With the help of TAA staff at the Idaho Department of Labor, Black enrolled in the Information Technology Systems program at Idaho State University <u>seven years</u>

Trade Adjustment Assistance for Workers (TAA) Program
Impacts of Program Termination

		<p><u>after his layoff</u> to learn more about computers and increase his chances of employment in the industry. “I am very thankful for the opportunity the TAA program provided me to transition from my old industry into a new one,” Black said. “I couldn’t have made it without it.”</p> <p>Another worker in Idaho, Jesus Cabrera, was also eligible for reemployment assistance after he was laid off in 2019. Because of this, Cabrera chose to pursue a new career as an electrician. “I’m about to finish my four-year apprenticeship, and I signed up to take my journeyman-level training next month. Thanks to this opportunity, my wages have increased. I’m making more than I did two to three years ago,” Cabrera said.</p> <p>Like Black and Cabrera, there are many workers across the state <u>who may still be eligible for training benefits due to layoffs</u>. The training benefits help workers find a job at a skill level similar to or higher than their trade-affected employment. Employees who were laid off through no fault of their own between 2001 and June 30, 2022, and worked for a company that had an approved TAA petition, may be eligible for TAA training benefits.</p>
January 8, 2024	<u>Possible revival of the Generalized System of Preferences and its effect on the trade industry</u>	January 8, 2024 - In December, the U.S. House Ways and Means Committee Members, Blake Moore (R-UT) and Suzan DelBene (D-WA), introduced a bill that, if passed, will bring back one of the oldest U.S. trade preferences programs, the Generalized System of Preferences ("GSP"). Since its establishment in 1974, the GSP has provided duty-free treatment to developing countries' exports of certain products into the United States.
December 12, 2023	<u>Select Committee Adopts Proposal to Reset Economic Relationship with the People’s Republic Of China — NCTO’S Kim Glas Supports Report</u>	As workers grapple with the consequences of unfair trade, Congress must restore their access to <u>Trade Adjustment Assistance</u> so they can gain new skills and quickly reenter the workforce,” said United Steelworkers International President David McCall. “More than 84,000 workers are waiting for their TAA petitions to be heard since the program lapsed in 2022, and we also welcome its inclusion in this report.”
December 6, 2023	<u>Senators Baldwin and Cassidy Introduce Resilient Communities Act to Aid Communities Harmed By Unfair Trade</u>	On December 6, 2023, Senator Tammy Baldwin (D-WI) and Senator Bill Cassidy (R-LA) introduced a bill titled the Resilient Communities Act to support communities in the United States that have been negatively affected by unfair trade. This legislation would direct antidumping and countervailing duty revenue collected by U.S. Customs and Border Protection (“CBP”) to a Resilient Communities Fund kept by the U.S. Department of Commerce (“Commerce”). According to Senator Baldwin, the bill aims to “invest in the places that are

		<p>experiencing layoffs or closures because Chinese companies aren't playing by the rules." Both senators noted that Americans have lost millions of jobs to unfair trade over the past three decades. To combat this harm, Commerce could allocate funds to help U.S. producers to continue manufacturing and competing against unfair trade. A key characteristic of the Resilient Communities Fund is that it would be funded by tariff revenue collected by CBP, distinguishing it from a similar federal program – Trade Adjustment Assistance ("TAA") – that relied on regular Congressional reauthorization and refunding. Established in 1962, the TAA Program helped workers suffering from job losses or reduced wages as a result of import competition, and offered benefits such as job training, job search and relocation allowances, income support, and other reemployment services; it has served more than 5 million American workers since 1974.</p>
December 4, 2023	A Pro-Market and Pro-Social Economy	<p>While organized labor insisted on a reinvigorated Trade Adjustment Assistance program and increased investment in retraining as part of the North American Free Trade Agreement (NAFTA), much of this investment turned out to be poorly targeted, since the main culprit behind unemployment of manufacturing workers turned out to be automation, not trade. Mistakes, as they say, were made. As artificial intelligence bears down on jobs and skills, we should be careful not to make the same mistakes again when it comes to under-resourcing workers for the stresses, uncertainties, and strains of economic transitions.</p>
November 6, 2023	Columbus open house set for laid-off workers	<p>The Indiana Department of Workforce Development will conduct an open house in Columbus Nov. 16 for workers who have experienced a company layoff and may be eligible for free training and additional lifetime employment benefits even if they are currently working. The event will take place from 2 to 6 p.m. in the Xenia Miller Conference Room of The Commons, 300 W. Washington St., Columbus. Federal funds are available for qualifying workers through the Trade Adjustment Assistance (TAA) program. Benefits include training and job search assistance.</p>
October 31, 2023	Rep. Earl Blumenauer to retire after nearly three decades in Congress.	<p>Ranking Democrat on the House Ways and Means Subcommittee on Trade, Earl Francis Blumenauer on his retirement: "I have dedicated my career to creating livable communities where people are safe, healthy, and economically secure," Blumenauer, 75, said in a Facebook post announcing his upcoming retirement. "This mission has guided my involvement on a wide range of issues that have been very rewarding for me and productive for our</p>

		community. Now, it is time to refocus on a narrower set of priorities.”
September 15, 2023	Wage Insurance Study	The study finds that wage insurance is a highly cost-effective policy; the tax receipts on increased earnings and reduced UI payments fully offset the costs of the program. A 21.8% increase relative to the average 4-year cumulative earnings of \$83,850 among TAA wage insurance ineligible workers.
September 28, 2023	Trade Preference Program Revival: Congress Considers GSP, But Provides No Clear Path Forward	“Chairman Smith underscored the importance of preserving U.S. production through the exclusion of import-sensitive products within GSP but expressed interest in evaluating the effectiveness of the exclusion process. He criticized the Biden administration for not reducing tariffs to enhance access for U.S. agricultural producers and expressed interest in exploring new criteria for digital trade. Ranking Member Blumenauer (D-OR) specifically called for updates to labor, environmental, and human rights criteria within GSP, as well as addressing rules of origin. Blumenauer also emphasized the need to reauthorize the Trade Adjustment Assistance (TAA) program. ”
September 27, 2023	Remarks by Chair Jared Bernstein at the Economic Policy Institute Washington, D.C	“Policy-wise, such losses were justified by the thinking that as long as expanded trade creates enough income for the “winners” to compensate the “losers,” it’s worth pursuing. Pareto optimality is a powerful analytic tool, but in the real world, it’s insufficient to show that society can compensate workers hurt by trade competition. The dispositive question is will we do so. Is there a politics to facilitate such actions? In fact, the past political climate enabled the winners from trade to rig the game even further on their behalf, for example, through high-end tax cuts or cutting what little trade-adjustment assistance existed.”
September 25, 2023	Bloomington open house scheduled for workers who have experienced a layoff	“Federal funds are available for qualifying workers through the Trade Adjustment Assistance program . Benefits include training and job search assistance.”
September 19, 2023	The Key To Winning The Global AI Race	“More speculatively, if AI does perform surprisingly well, perhaps officials should begin laying the groundwork for the equivalent of a Trade Adjustment Assistance , a federal program that helps workers in professions most adversely impacted by AI adjust to new industries so that society doesn’t throw the baby out with the bathwater in a regulatory overcorrection.”
September 14, 2023	Cascade Tissues closes its St. Helens paper mill	“A worker who asked not to be named said employees were told the closure is related to an increase of paper imports from China. The union and company plan to file a petition for the federal Trade Adjustment Assistance

Impacts of Program Termination

		Program , which offers more generous benefits for workers whose job loss was related to foreign trade. The program is on an indefinite hold because Congress has not approved funding it past a June 30, 2022, end date.”
September 11, 2023	Congressman Kildee leads bipartisan effort to extend health coverage tax credit (HCTC) for Michigan retirees and workers “The Health Coverage Tax Credit lapsed on December 31, 2021, over a year and a half ago. This is the longest the HCTC has gone without being extended since it became law. As a result of Congress’s inaction, thousands of hard-working men and women face continued uncertainty about their health care. Extending the HCTC without delay will help give some security to these Americans as they make decisions about their health care,” the lawmakers wrote. “The HCTC helps Americans, and their families cover the cost of health insurance if they are retired and their pensions have been taken over by the Pension Benefit Guaranty Corporation (PBGC), or if their job was outsourced abroad and they qualify for Trade Adjustment Assistance (TAA) . Thousands of Delphi Salaried Retirees qualify for the HCTC, along with American workers who have lost their jobs due to bad trade deals.”
September 7, 2023	Tapping powerful labor market information for agility	...But fortunately, Mohawk Valley Community College (MVCC) , located within 50 miles of the plant, stepped in to help retrain roughly 150 employees to begin work within in a newly opened Wolfspeed Inc. semiconductor chip manufacturing plant along with several other employers. On average, the retrained employees earned 20% more at Wolfspeed than they made at Remington Arms, an average of \$22 per hour, a figure that has since risen to \$28 and \$30, Thomas says. The dislocated employees paid nothing as costs were picked up by federal Trade Adjustment Assistance Reauthorization Act of 2015 funding.
August 29, 2023	5 Facts on the Trade Adjustment Assistance Phaseout	Here are five things to know about the trade adjustment assistance phaseout.
August 24, 2023	Will AI Benefit or Harm Workers?	Recent breakthroughs in artificial intelligence (AI)—particularly generative AI products such as ChatGPT, which had 100 million monthly active users in just two months—have resurfaced headlines of robots taking jobs. ...Central to this is adopting a job guarantee to help ensure workers are able to find employment. In addition, helping displaced workers gain in-demand skills requires policymakers to invest in retraining programs that allow people to get paid during retraining, including adopting a similar—though more robust—model to the Department of Labor’s Trade Adjustment Assistance but with a focus on job loss due to technological disruption. In addition, improved retraining interventions must be targeted at highly trained occupations that may also be displaced.

Last Updated: 3/4/2024

Trade Adjustment Assistance for Workers (TAA) Program
Impacts of Program Termination

		This should be focused upon how to best leverage their skills in other related occupations that are less susceptible to AI displacement.
August 18, 2023	<u>As the coal industry shrinks, miners deserve a just transition – here's what it means</u>	There is no road map for transitioning communities away from coal, but there are lessons from history. For example, American workers faced losses from international competition when the U.S. joined liberalized trade agreements in the second half of the 20th century. In response, Congress passed legislation in 1974 that established the Trade Adjustment Assistance Program, which still operates today. It provides aid primarily to factory workers who can show that they have lost jobs or wages because of increased international competition.
August 14, 2023	<u>AI is going to eliminate way more jobs than anyone realizes</u>	The US once had a similar program, the Trade Adjustment Assistance program, which was established in 1974 and administered by the Department of Labor for workers affected by trade and production in other countries. "It was an entitlement program so that any worker who met certain conditions — that their job was displaced due to trade — had an entitlement to receive a package of income support and retraining support." An expansive and well-funded program geared toward the AI labor-market shift would help ease turbulence for workers by providing relocation grants and wage insurance to temporarily bridge the wage gap when workers find employment in lower-paying jobs.
August 4, 2023	<u>Owens-Brockway glass recycling plant down to skeleton crew</u>	Northwest Labor Press Owens-Brockway Glass Container Inc. (O-I) announced in June that it was laying off about 70% of the workforce at its Oregon plant. About 75 workers may have clocked in for the last time July 21 at Oregon's largest glass bottle recycling plant. Another half dozen will lose their jobs before the end of the year. The union has filed a petition for the federal Trade Adjustment Assistance Program offered through the Trade Act. That program offers generous benefits for workers whose jobs were negatively affected by foreign trade. However, it's unclear if and when the petition will be reviewed because Congress has not renewed the program past its June 30, 2022, end date.
July 5, 2023	<u>Free schooling available for some people who have been laid off</u>	Evansville IN 14 News and Weather Outreach: Workers who have been laid off may be eligible for free schooling. It's part of the Trade Adjustment Assistance Program put on by the Indiana Department of Workforce Development. Those eligible will receive training to earn a post-secondary degree as well as job search assistance, at no cost. Even if you have a job now, you could still be eligible.
June 23, 2023	<u>GSP, TAA, MTB Renewals Introduced</u>	House Ways and Means trade subcommittee Ranking Democrat Earl Blumenauer introduced a comprehensive legislative package to increase US competitiveness and

		support workers by reauthorizing the expired Generalized System of Preferences, Trade Adjustment Assistance, and the Miscellaneous Tariff Bill.
June 23, 2023	Blumenauer introduces bill to reauthorize TAA, GSP, MTB World Trade Online	House Democrats this week introduced legislation to reauthorize and update the Generalized System of Preferences and the Trade Adjustment Assistance program, as well as implement a new Miscellaneous Tariff Bill. The “American Worker and Trade Competitiveness Act,” introduced by Ways & Means trade subcommittee ranking member Earl Blumenauer (D-OR) and co-sponsored by 10 other Democrats on the Ways & Means Committee, would “increase U.S. competitiveness and support workers around the globe.” HR 4276 – reauthorization
June 15, 2023	Food Stamps for College Students: What you need to get SNAP in Texas?	Furthermore, being assigned to, placed in, or self-placed in a college or other higher education institution through various programs like SNAP Employment and Training (SNAP E&T), equivalent programs operated by state or local governments, the Workforce Innovation and Opportunity Act of 2014 (WIOA), or a Trade Adjustment Assistance Program under Section 236 of the Trade Act of 1974 can also qualify a student for SNAP.
June 7, 2023	____ Legislation Would Restore Health Coverage Tax Credit to Lower Health Care Costs for Michigan Workers and Retirees	____ Congressman Dan Kildee (MI-08) today introduced the <i>Bob von Schwedler Permanent Health Coverage Tax Credit Expansion Act</i> , new legislation to help Michigan workers and retirees—including Delphi Salaried Retirees and those hurt by bad trade deals—cover the cost of health care.
May 19, 2023	____ As Wallula plant idles, union says it’s offering support to workers.	____ Greg Pallesen, AWPPW general president, said AWPPW is exploring whether they’d be eligible for benefits under the Trade Adjustment Assistance Reauthorization Act of 2015, which established a program that provides aid to workers who lose their jobs or whose hours are reduced because of increased imports. However, Pallesen noted, even if the filing is approved, Congress hasn’t signed off on funding for new applications.
May 17, 2023	____ Tougher Trade Enforcement Should Include New Measures, Ways and Means Committee Hears	[At the hearing] there was slightly more attention given to two issues identified by Ranking Member Richard Neal, D-Mass., including potential budget cuts for the federal agencies that administer and enforce U.S. trade laws (which he said could be as large as 22 percent under current House Republican proposals) and reauthorizing and reforming the Trade Adjustment Assistance program for domestic workers.
March 31, 2023	____ If Congress wants more trade, there’s a bill to pay	The 2023 omnibus appropriations bill , which passed in December, included \$500 million in funding for the Trade Adjustment Assistance (TAA) program but apparently lacked the actual authorizing language.

Impacts of Program Termination

March 29, 2023	Congress appropriated \$500M for workers. Democrats can't agree on whether to spend it.	Congress appropriated nearly \$500 million last year to help American workers whose jobs have been sent overseas, but there is disagreement over how the money can be spent.
March 1, 2023	IAM Calls for Trade Adjustment Assistance Program Extension	International Aerospace and Machinists International President Robert Martinez Jr. sent a letter to U.S. Labor Secretary Marty Walsh urging the department to extend the Trade Adjustment Assistance (TAA) program and allow it to start receiving applications.
February 3, 2023	Will Changes in Congress Finally Bring Trade Legislation? Blog International Trade Law by Crowell & Moring LLP	Congress failed to pass much needed and anticipated trade legislation last session. Issues the new House and Senate must face include: the extension of the Trade Adjustment Assistance, the future of the Trade Promotion Authority, renewed Generalized System of Preferences, and a new Miscellaneous Tariff Bill.
January 5, 2023	Machinists Union's Advocacy Helps Protect Trade Adjustment Assistance Program	The Machinists Union applauds Congress and the Biden administration for the one-year extension of the Trade Adjustment Assistance (TAA) program, which provides crucial benefits to workers who lost their jobs as a result of outsourcing and unfair trade practices.
December 23, 2022	Wyden Statement on Extension of Trade Adjustment Assistance in Omnibus	Wyden announces the extension of TAA based on the enactment of \$494.4 million for TAA in the Omnibus.
December 2, 2022	A bipartisan trade proposal to support our economy	Op-Ed by Sens. Portman and Coons - A bipartisan trade proposal to support our economy.
November 15, 2022	Foreign Trade Competition Has Hurt Black and Disadvantaged Workers Most, Report Says	Trade Report says while trade competition has hurt black and disadvantaged workers most, the lapsed TAA would help offset this.
October 24, 2022	Congress Draws Their Lane Duck Red Lines	Democrats and Republicans are prepping for a trade standoff that could torpedo any hope of reviving tariff exemption programs before the end of the year.
September 7, 2022	US Department of Labor awards nearly \$20M in funding to support training, services, wage ... U.S. Department of Labor	Press release announcing TAA Funding
April 17, 2023	Providing more government assistance does not reduce voters' opposition to globalization	Both the EU and the United States have dedicated programs for providing compensation to workers made unemployed by globalization. But does this funding have any impact on voting behavior?
August 23, 2022	U.S. Commerce Department Announces \$13.5 Million to Support U.S. Manufacturers U.S. Economic Development Administration	Press release from Economic Development Administration (Dept. of Congress) announcing grants for Trade Adjustment Assistance Centers (TAACs) that help manufacturers affected by imports adjust to increasing global competition and to create jobs. The TAACs, which each serve multiple states, are located in California, Colorado, Georgia, Illinois, Massachusetts, Michigan,

August 11, 2022	Remarks by Ambassador Katherine Tai at the 2022 United Steelworkers Constitutional Convention US Trade Representative	Trade Ambassador, Katherine Tai states support for TAA for Workers Program
August 3, 2022	A 60-year-old program for workers hurt by globalization comes to a close	The Trade Adjustment Assistance program has been a safety net for workers hurt by trade competition since 1962. In July, 60 years after it was introduced, it stopped accepting new applications .
July 23, 2022	Thousands of workers have lost access to trade adjustment assistance weeks after Congress allowed it to expire —NBC News	Includes quotes from Rachel Lipson, the co-founder and director of the Project on Workforce at Harvard University, and Brent Parton, DOL Employment and Training Administration's Acting Assistant Secretary. Discusses impacts of TAA Program Termination.
July 20, 2022	—America's Safety Net for Workers Hurt by Globalization Is Falling Apart —New York Times, Anna Swartz (paywall)	"On July 1, the program stopped reviewing new applications and appeals from workers whose applications have been rejected, and it will gradually be phased out." "[The TAA Program's] disappearance may leave thousands of workers without critical support as they seek new jobs."
August 6, 2021	Making The Trade Adjustment Assistance Program Work for the New Economy	To do so, the Biden-Harris administration should push Congress to evolve the Trade Adjustment Assistance (TAA) program into the Trade and Technology Adjustment Assistance program (TTAA) to help workers displaced not just by trade but also by advancements in emerging technologies, such as AI and robotics.
April 30, 2018	There's already a US program that could help workers who lose their jobs to machines	Of all the economic anxieties facing workers today, there is something particularly disquieting about the potential of automation, artificial intelligence (AI), and other technologies to replace human jobs. Self-cleaning robots, cloud-based computing, kiosks at nearly every retail store: rapid technological advances such as these have already begun to upend entire industries, with millions of more jobs in their path.
