

**REO****Reentry Employment Opportunities**

## Growth Opportunities Program

### OVERVIEW

The Employment and Training Administration (ETA) Growth Opportunities (GO) grant initiative supports the placement of youth (15-18) and young adults (18-24) with school expulsion or justice system contact into paid work experiences aligned with their career and educational goals. It also provides funding for services such as mentorship, legal assistance, and transportation that support participants' participation and success. The goals of the grant include:

- ✓ Help youth avoid violence and build conflict resolution skills.
- ✓ Introduce and prepare youth for the world of work.
- ✓ Help youth identify career interests and attain skills and good work habits.
- ✓ Provide income to youth to start them on the path of earning living wages.

### BACKGROUND INFORMATION

The GO program contributes to the comprehensive strategy to combat gun violence and other violent crime, in part, with preventative measures proven to reduce violent crime. The program is administered by the Reentry Employment Opportunities (REO) unit of ETA and is authorized under WIOA's demonstration grant authority in Section 169(b). Grant awards prioritize projects serving high-crime, high-poverty areas, as well as communities that have disproportionate rates of expulsions and suspensions.

### PROGRAM IMPACT

The GO program has awarded 59 grants, with an anticipated 13,289 individuals to be served. The grants will operate for 42 months, including 3 to 6 months provided for a planning period. Each young adult will receive at least 200 paid hours of work experience, as well as conflict resolution and leadership training.

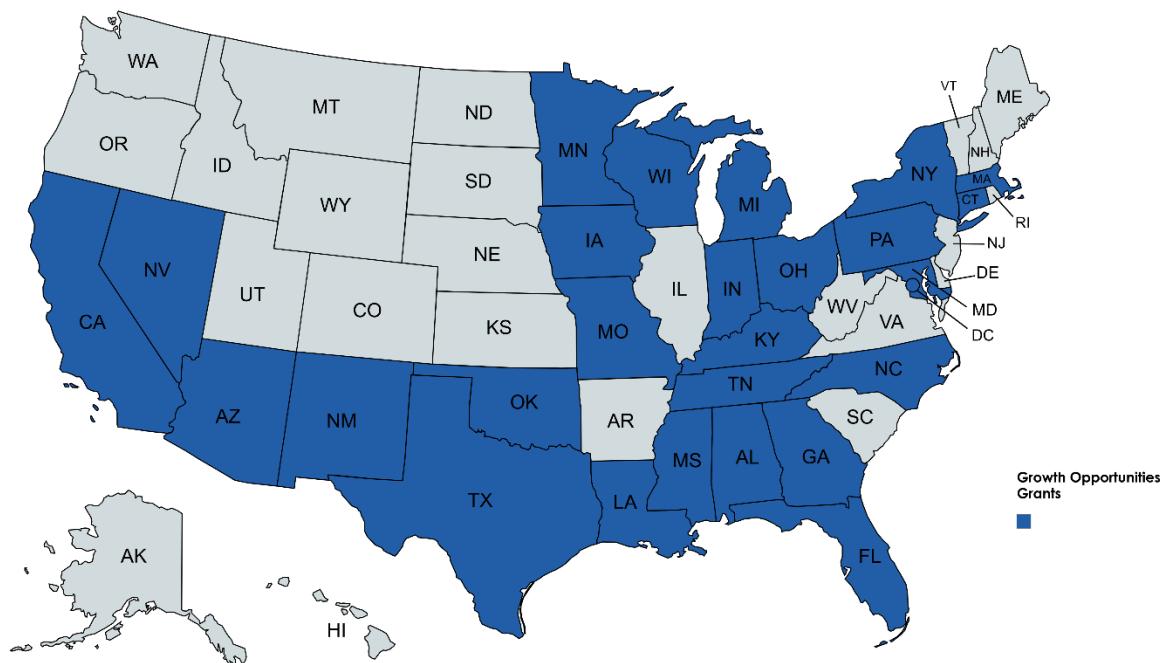

### PROGRAM STRUCTURE

Justice-involved youth and young adults will be prepared for and introduced to the world of work through placement into paid work experiences. In addition, the program encompasses occupational education and training in in-demand industries, leadership development,

mentorship, and post-program placement into employment and/or education. These grants focus on youth and young adults most impacted by and associated with community violence, particularly in areas of concentrated crime and poverty.

GO grantees must have a violence prevention partner with significant experience in outreach to individuals with a high risk of committing violence (and/or becoming a victim) to interrupt the cycle of violence. Grantees must also have a regional or local justice system partner that collaborates with the violence prevention partner.
