If we publish or present results of this study, we will not use individual names or other personally identifiable information. To help protect confidentiality, we will do the following. Your research records, will be stored in an encrypted format on a password-protected computer. Only the principal investigator of the study and her research assistants, graduate students at U.C. Berkeley, will have access to your study records. When the research is completed, your personally identifiable data such as your child's name, contact information, photograph, and house location, will be destroyed. Identifiers might be removed from the identifiable private information. After such removal, the information could be used for future research studies or distributed to other investigators for future research studies without additional informed consent from you or the legally authorized representative.</p> <p>&lt;Compensation&gt; In return for your time and effort, you will receive a 200NRS recharge card in total for the time and energy you contribute to participating in this round. Payment will be made at the end of the session. &lt;Rights&gt; Participation in research is completely voluntary. You have the right to decline to participate or to withdraw at any point in this study without penalty or loss of benefits to which you are otherwise entitled. You may skip any questions you do not wish to answer.</p> <p>&lt;Questions&gt; Refer to the contact card if you have any questions or concerns. &lt;ORAL CONSENT&gt; You will be given a copy of the contact information to keep in case you have any questions or concerns. By saying yes, you indicate that we have read you the information sheet and you have agreed to it. You also acknowledge that you are above the age of 16. Do you consent to participate?</p>

53	[Prepare Respondent for Questionnaire:] Thank you for agreeing to participate! Please note that you are receiving a phone card in this study because it demands your time and focus. This payment is not made by New Era but it is an honorarium from UC Berkeley. Other studies in the future conducted by New Era might not directly pay you like this study does, but may yield other indirect benefits for your community. In light of this information, we hope that you continue to support future New Era studies. Before we start, we recommend that you quickly finish what you were doing so that we can continue without interruption. Now we will begin. Please focus and give responses that you feel are true to you. There is no right or wrong response and it is important that you give an honest answer.

317	We are now going to discuss some questions regarding your world view. Note that there are no right or wrong answers, and we value your perspective. Some people say that women are often treated as inferior to men in Nepal, both within the home and by their community. Women are taught to defer to men. They are also taught to put their needs and wishes behind those of others at home and in the workplace, which reduces their self-worth and limits their ability to progress in life. Some people say this standard of behavior should change and women should have the same rights and opportunities as men. They say that women should belong in all places where decisions are being made, and that their involvement will benefit society. They say that girls should grow up being told that they are valuable and powerful and deserving of every chance and opportunity given to men. This is important for a society to advance.
