What is total compensation?

Total compensation is a summation of base salary, performance-related bonuses, commissions, and other applicable incentives and benefits.

When determining the employee's total compensation package, the following factors may be taken into account:

- the job's salary range which is based on the external market value for the job,
- the employee's global career level,
- the salaries of other Oracle employees in the same job and location,
- the individual employee's performance.

In addition to cash compensation and other benefits, there are other 'intangible' benefits of working at Oracle such as your working environment and career opportunities.

Your eligibility to receive each component of total compensation will vary depending on the country in which you are employed and your function here at Oracle. Contact your manager for country specific component information.

When is compensation paid out?

MONTHLY	QUARTERLY	ANNUAL
Sales Commission	Consulting Bonus Sales Consulting Bonus Instructor Bonus	Corporate Bonus Equity Focal (Base) Salary

These are simply guidelines for when salary increases, bonuses, and/or equity may be reviewed, paid or granted. This is not a guarantee that an employee will be reviewed for or receive a raise, bonus, or equity grant. Such compensation or allocations are offered at the discretion of management.

Base Salary

Base salary is designed to compensate employees for performing their job duties and responsibilities, and to reward for individual performance. It provides employees with a rate of pay that is competitive with other companies in Oracle's industry for similar jobs.

Salary Increases

Oracle management reviews all eligible employees' salaries and assignment changes at one point in time. This process is called the salary review process or the focal review process. Employees are not guaranteed a salary increase. Salary increases are offered at the discretion of your manager.

How are Salary Increases Allocated?

Each Line of Business' (LOB) focal salary increase budget is distributed to the LOB Head via the Workforce Compensation web tool. The LOB Heads and Executive Management have complete discretion when further allocating budgets and awarding salary increases to individuals within their organization.

Who is Eligible for a Salary Increase?

To be eligible for consideration for a focal salary increase and/or assignment change, an employee must meet all of the requirements listed below:

Total Compensation

- Be a regular Oracle employee (excludes contractors and temporary employees in most countries)
- Have been hired and start at least 61 days before the performance period ends. Note: Eligibility may be pro-rated on a daily basis depending on the new hire start date.

To comply with local legislation, some countries require adjustments to these eligibility rules.

Eligibility for employees from recent mergers and acquisitions will be evaluated on a case-by-case basis, depending on the agreement between the two companies.

For a complete list of eligibility rules by country please consult your manager.

Global Corporate Bonus

The Global Performance Bonus Plan is an annual plan for the performance period: June 1st through May 31st.

Bonuses are discretionary; designed to reward employees for assisting the company in meeting key strategic company goals and objectives; including profitability. Bonuses are not entitlements.

This bonus plan is funded according to performance criteria determined by the Company with individual employee bonuses being ultimately awarded at the discretion of management. The Company regularly reviews the plan and, at its sole discretion, the Company may cease the plan or change the plan to ensure that the strategic direction of the Company is supported.

How is the Bonus Allocated?

Each LOB's pool is distributed to the Line of Business (LOB) Head via the Workforce Compensation web tool. The LOB Heads and Executive Management have complete discretion when further allocating budgets and awarding bonuses to individuals within their organization.

Who is Eligible?

To be eligible for consideration for a discretionary Global Performance Bonus, an employee must meet all of the requirements listed below:

- Be a regular Oracle employee (excludes contractors, temporary employees in most countries)
- Work in a position that is eligible for the Global Performance Bonus Plan and not eligible for any other variable plan. *Examples of other variable plans which are not eligible for the Global Performance Bonus Plan include: Executive, Sales (including Channel Reps and Managers and Business Development Reps and Managers on revenue plans), Sales Consulting, Consulting, Instructor, and Recruiting plans, as well as employees who are US Overtime eligible.*
- Have been hired and start on or before March 31st (i.e. 61 days before the performance period ends)
- Be eligible for at least 31 days during the performance period
- Be active or on an approved leave of absence the day the bonus is paid

Eligibility may be pro-rated on a daily basis due to the following:

- New hire
- Transfer into or out of a different variable plan
- Paid and unpaid leave of absence during the bonus period (does not include vacation or holiday time)
- Part-time (percentage based on time worked compared to country's full time hours)

To comply with local legislation, some countries require adjustments to these eligibility rules. For example, the corporate global bonus is not paid in every country, such as in Germany and Brazil. Consult your manager for more information.

Eligibility for employees from recent mergers and acquisitions will be evaluated on a case-by-case basis, depending on the agreement between the two companies.
