An important reminder to all: Submit only when your entire organization has completed their recommendations, because when you submit, you are submitting for your entire organization.

If you submit before everyone has completed their work, you must manually change the access level for every affected manager. There is no way to do this automatically.

Today we will be reviewing general program information and the functionality of Workforce Compensation that you may need as a manager, along with tips for working with Workforce Comp and tools and resources available to answer your questions during the compensation process.

What is Workforce Compensation?

- Workforce Compensation (WC) is an Oracle Self Service Application for managing compensation processes, allowing you to:
 - Model and distribute budgets to subordinate managers
 - Make, Review and Submit Recommendations for employees
 - Download to an Excel spreadsheet to work offline
 - Rate employees (Compensation Rating only, not Talent Performance Rating)
 - View historical compensation information

Note: **Firefox** is the preferred browser for Workforce Compensation

Number: 1 Author: Presenter Subject: Presentation Notes Date: 4/27/2019 9:40:38 PM

Workforce Compensation is an Oracle Self-Service Application for managing compensation processes.

The tool allows you to determine how to pass down budgets to your subordinates and includes features to model, distribute and publish budgets to your organization.

Using Workforce Compensation, you will make recommendations, review your subordinate managers' recommendations, and submit recommendations for your entire organization to your manager for approval.

The tool also gives you the capability to download your worksheet to an Excel spreadsheet, in case you'd like to work offline.

You can use the tool to Rate your employees. However, please note that this is a Compensation rating only for this program. It is NOT the official Talent Performance Review Rating.

Finally, you can also view historical compensation information for individual employees in the tool.

When working with Workforce Comp, remember that Firefox is the preferred browser.

Annual Bonus Program

General Information

- **Timelines**

- Each LOB may establish their own internal timeline for the process. Check with your manager on the specifics for your organization.

- **Budgets**

- Budgets are set at the top executive level for each organization. Each LOB head may determine the method of allocating budgets within their organization.
- Modeling is a feature is available to assist in pushing down budgets based on specific criteria.

Timelines

Your organization will have an internal timeline for the process to allow for review and approval before final submission. Please check with your manager on the specifics for your organization.

Budgets

Budgets are published to the top executive level of the organization and each LOB leader is then able to determine the method of cascading budgets in their organization.

Workforce Compensation has a modeling feature to assist managers in pushing down budgets, which we will review later in the presentation.

Annual Bonus Program

General Information

- Eligibility

- Review the eligibility document posted on the Workforce Compensation website
- Be sure the employee population for your organization is correctly reflected on your Workforce Compensation Worksheet
 - Not all employees are eligible for all of the corporate programs

- Communication

- **Do not** communicate recommendations until you receive notification from Corporate Compensation that final approval has been obtained
- Always check Workforce Compensation **before** you communicate to ensure that the final recommendations have not changed

Number: 1 Author: Presenter Subject: Presentation Notes Date: 4/27/2019 9:40:38 PM

Please review this year's process eligibility document, posted on the Workforce Compensation website. The link is included at the end of this presentation in the Tools and Resources section. Be sure your eligible employee population is correctly reflected on your Workforce Comp Worksheet. Remember that not all employees are eligible for all of the compensation programs - bonus, equity and focal all have different eligibility criteria.

Recommendations should not be communicated until final approval has been received. This notification will come from Corporate Compensation through your manager or HR manager. Also, adjustments can sometimes happen during the approval process, so always check Workforce Comp before communicating a recommendation.

Budget Allocation

Now let's begin with budget allocation.

Budget Allocation

- On the plan landing page, select [REDACTED]
- Next, select the [REDACTED] to update.
- The **first** time the budget is selected, you must choose a [REDACTED]. Your selection will affect the [REDACTED].
 1. All subordinate managers will be set to [REDACTED]
 2. Direct report managers will have [REDACTED] and will be able to choose how to [REDACTED] within their own organization. This is the most frequently used option.
 3. All subordinate managers will be set to [REDACTED] and **only you** will be able to change [REDACTED]

– Selecting [REDACTED] allows you to adjust [REDACTED]

To distribute your budget, on the [REDACTED] page, select [REDACTED] from the [REDACTED] section. Next, select the [REDACTED]

The first time you select a [REDACTED] you will be asked to choose a [REDACTED]. This step is very important - it will determine the [REDACTED] of your subordinate managers.

The [REDACTED] options are:

All your subordinate managers will be set to [REDACTED] but they will still be able to make recommendations on their Compensation Worksheet.

[REDACTED] (this is the most frequently used option)

Select this option to pass down budgets to your direct report managers. They will have [REDACTED] access and will be able to choose how to distribute budgets within their own organization. You can adjust the settings for specific direct report managers within the Budget Worksheet.

[REDACTED]

Use this option if you will be passing down budgets to all subordinate managers yourself. All subordinate managers will have [REDACTED] Allowed access and only you will be able to change budget amounts. You can adjust the settings for specific subordinate managers within the Budget Worksheet.

Budget Allocation

- Enter budgets in the [REDACTED] column
 - The [REDACTED] row is **your budget**, for recommendations to your direct reports
- You must [REDACTED] budgets in order for your subordinate managers to see them
 - Click the [REDACTED] arrow next to the [REDACTED] icon and select an option
 - If [REDACTED] budgets to only a few managers, highlight [REDACTED] and use [REDACTED]

Number: 1 Author: Presenter Subject: Presentation Notes Date: 4/27/2019 9:40:40 PM

The budget can be distributed to subordinate managers by [redacted] column, as indicated by the red box. The [redacted] row is the budget you are keeping for yourself, to give recommendations to your direct reports.

You must [redacted] budgets in order for subordinate managers to see them on their worksheet, and to further distribute to their own organizations. To [redacted] your budget, click the [redacted] next to [redacted] and select [redacted] as indicated by the green box. You can choose to [redacted] by using the [redacted] and [redacted] keys to select multiple managers before [redacted]

Workforce Compensation Budget Models

Budget Models

- Models make it easy to see how different allocation methods and criteria affect your budget
- Different models can be created, previewed and applied **before** publishing the budget
- Who might create Models –
 - Managers who intend to pass down budgets to subordinate managers
 - Managers who intend to make the allocations themselves, but hold the entire budget

CAUTION:

- Models should **never** be applied **after** the budget has been published
- Applying a model will **overwrite** any previously entered recommendation amounts

Models make it easy to see how different allocation methods and criteria affect your budget distribution.

Different models can be created, previewed and applied. Your modeling should be completed before you publish a budget.

Remember, models should never be applied after the budget has been published; more importantly, applying a model will overwrite any previously entered recommendation amounts.

Tips and Resources

In this last section, we will share some helpful tips when using the Workforce Compensation tool and resources to help answer your questions.

Workforce Comp Tips

Browsers

- Firefox is the preferred browser
 - Download the latest browser version from MyDesktop
- Other browsers can be used, but there are known issues
 - Chrome
 - Internet Explorer

Number: 1 Author: Presenter Subject: Presentation Notes Date: 4/27/2019 9:40:46 PM

As mentioned earlier, Firefox is the preferred browser. Be sure to use the latest version of Firefox, which can be downloaded from MyDesktop.

If Firefox is not available, other browsers such as Chrome and IE can be used, but there are known issues, such as using Chrome on top of Windows 10.

Workforce Comp Tips

Personalize Layout

- **Personalize Layout**

- Make changes to your default layout, in terms of the Team filter, Frozen columns, Open/Close sections, etc.
- Click [REDACTED] to keep this layout for the next time you access your Worksheet.
- Use the [REDACTED] button to default to the original Administrator layout.

Managers can now personalize their layout of the Compensation Worksheet.

You can save this layout for the next time you access your Worksheet or you can Restore the default layout on this screen.

Workforce Comp Tips

Save Icon

- **Save Icon**

- Move fields around on the Worksheet
 - Highlight and drag-and-drop individual columns, or
 - Click **View > Columns > Manage Columns** to hide, unhide and re-arrange all columns
- Click the **Save** icon, to keep this view for the next time you access your Worksheet.

You may have to use the scroll arrow to see the Manage Columns option

Number: 1 Author: Presenter Subject: Presentation Notes Date: 4/27/2019 9:40:47 PM

Managers can also add, remove and move fields around on the Worksheet and save your view for the next time you access your Worksheet. Either drag-and-drop columns or use the Manage Columns menu to add, remove and re-arrange the order of columns. Once done, click the Save icon, highlighted in yellow, to save your Worksheet view.

Workforce Comp Tips

Currency Switcher

- Budgets: Always in USD
- Planning: Local Currency vs. USD
 - Manually in the tool: Recommendations can be made in local currency or USD, depending on the Currency switcher, located in the upper right hand corner next to the Save and Close button. The **default is Local Currency.**

- **Manage in Spreadsheet** download and upload: Recommendations are **always in local currency.**

In Workforce Compensation, budgets are always shown in USD.

However, recommendations for employees can be made in local currency or USD, depending on the selection of the Currency Switcher, located in the upper right hand corner next to the Save button. The default is local currency. If a manager does not change this before entering recommendations, the amounts entered are in local currency.

If the Manage in Spreadsheet function is used to download and upload, recommendations are always in local currency.
