2. Affirmative Action at Oracle

2.1 Introduction

Introduction to Affirmative Action

- ✓ Mandated for all companies that do business with the Federal Government
- ✓ Have facilities with more than 50 employees
- ✓ Not meeting compliance may lead to loss of government contracts and revenue

Notes:

Affirmative action is mandated for all companies that choose to do business with the Federal Government and that have facilities with more than 50 employees.

Oracle's first contract was a government contract with the CIA. Today much of Oracle's business continues to be from government contracts. Not meeting OFCCP compliance may lead to loss of government contracts and a loss of revenue to Oracle.

2.2 Why Affirmative Action

Why Affirmative Action?

Copyright © 2015, Oracle Corporation and/or its affiliates. All rights reserved. Oracle and/or its affiliates may have one or more patents in the United States and other countries.

Notes:

Born of the Civil Rights movement four decades ago, Affirmative Action calls for minorities, women, individuals with disabilities, and protected veterans to be given access and consideration in all areas of employment decisions and with subcontracting opportunities. These groups are sometimes referred to as “protected classes” within Affirmative Action Plans.

Affirmative Action does not provide for quotas, preference, or reverse discrimination. The intent of Affirmative Action is to address the government’s desire to increase employment opportunities and representation of these groups, promoting Equal Opportunity.

Notes:

As a federal contractor, Oracle has an obligation to ensure that its employment practices are compliant with government regulations and guidelines for federal contractors.

These regulations include

- Executive Order 11246
- Section 503 of the Rehabilitation Act of 1973
- The Vietnam Era Veteran’s Readjustment Assistance Act of 1974 (VEVRAA)

Activity: Click each guideline for a brief review.

Executive Order 11246 prohibits federal contractors and subcontractors and federally-assisted construction contractors and subcontractors that generally

have contracts that exceed \$10,000 from discriminating in employment decisions on the basis of race, color, religion, sex, or national origin. It also requires covered contractors to take affirmative action to ensure that equal opportunity is provided in all aspects of their employment, and take affirmative steps to increase the pool of qualified applicants.

To return to the main screen, press X.

Section 503 of the Rehabilitation Act of 1973 prohibits discrimination and requires employers with federal contracts or subcontracts that exceed \$10,000 to take affirmative action to hire, retain, and promote qualified individuals with disabilities.

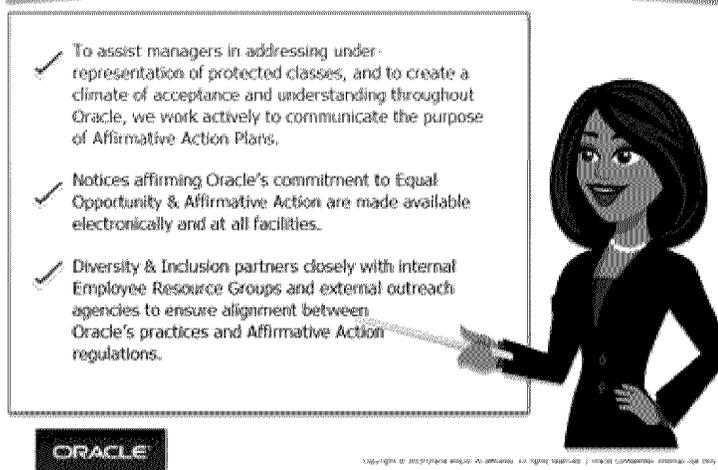

To return to the main screen, press X.

The Vietnam Era Veterans' Readjustment Assistance Act of 1974 requires covered federal government contractors and subcontractors to take affirmative action to employ and advance in employment specified categories of veterans protected by the Act and prohibits discrimination against such veterans. In addition, VEVRAA requires contractors and subcontractors to list their employment openings with the appropriate employment service delivery system, and that covered veterans receive priority in referral to such openings. Further, VEVRAA requires federal contractors and subcontractors to compile and submit annually a report on the number of current employees who are covered veterans. The affirmative action and mandatory job-listing provisions of VEVRAA are enforced by the Employment Standards Administration's Office of Federal Contract Compliance Programs (OFCCP) within the U.S. Department of Labor (DOL). DOL's Veterans' Employment and Training Service (VETS) administers the veterans' employment reporting requirement.

2.4 Affirmative Action at Oracle

Affirmative Action at Oracle

Notes:

Oracle maintains Affirmative Action Plans (AAP) for U.S. sites with 50 or more employees and provides the necessary support to implement them effectively.

- To assist managers in addressing under-representation of protected classes, and to create a climate of acceptance and understanding throughout Oracle, we work actively to communicate the purpose of Affirmative Action Plans.
- Notices affirming Oracle's commitment to Equal Opportunity and Affirmative Action are made available electronically and physically at all of the Oracle facilities.
- Lastly, Oracle's Diversity and Inclusion department partners closely with internal Employee Resource Groups and external outreach agencies to ensure alignment between Oracle's practices and Affirmative Action regulations.

2.5 Affirmative Action at Oracle

Affirmative Action at Oracle

- ✓ Oracle makes a good faith effort to increase the number of qualified applicants from protected classes in our employment application pool.
- ✓ These protected classes include women, African Americans, Latinos, Asians, American Indians, individuals with disabilities, and protected veterans.
- ✓ Oracle supports diverse events including conferences, career fairs, community outreach, and employee development opportunities in efforts to increase diversity representation in the talent pool.

Notes:

Oracle makes a good-faith effort to increase the number of qualified applicants from protected classes in our employment application pool.

These protected classes include women, African Americans, Latinos, Asians, American Indians, individuals with disabilities, and Protected Veterans.

Oracle supports diverse events including conferences, career fairs, community outreach, and employee development opportunities in efforts to increase diversity representation in the applicant pool.

Together, Oracle will have the ability to maintain a positive compliance standing with the Office of Federal Contract Compliance (OFCCP).

Notes:

The OFCCP made amendments to Section 503 and VEVRAA. This chart illustrates the major provisions of 503 and VEVRAA effective as of March 24, 2014. The purpose of the amendments is to improve employment opportunities for veterans and individuals with a disability. By setting measurable goals, these new requirements impact a great deal of HR/Manager/Recruiting activities.

It is important that key decision makers be aware of these provisions so that Oracle is able to maintain a positive compliance standing by addressing and maintaining documentation of good faith efforts in the achievement of Oracle's Affirmative Action goals.

Take a moment to review this table. Hover your mouse over each row to highlight the amendments.

2.8 OFCCP Compliance Reviews

OFCCP Compliance Reviews

Notes:

The OFCCP takes several steps in order to better understand Oracle’s organization, practices, and policies.

- An OFCCP Audit or Compliance Review begins when a **compliance review notification** letter is received by an Oracle facility.
- Upon receipt, Oracle submits to the OFCCP a copy of its current **Affirmative Action Plan** for the selected location, as well as data on hires, promotions, termination, and employee compensation.

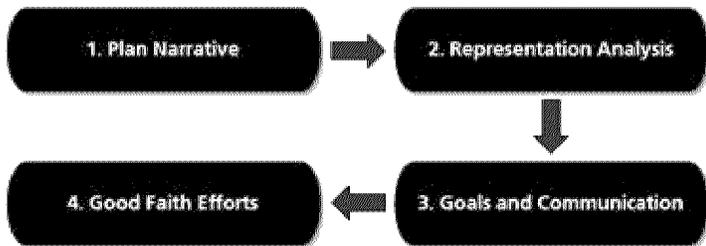

Copyright 2015, Oracle Corporation. | For Oracle Internal Use Only.

- The OFCCP will conduct its analysis of Oracle's AAP off-site. This is known as the **Desk Review**. The compliance officer may close the compliance review at the conclusion of the desk review unless indicators of discrimination/violation are found.
- OFCCP may also continue a review with additional **requests for information**. This can be done off-site or by coming on-site to an Oracle location.
- During the **on-site review**, the OFCCP may conduct employee interviews, take a facilities tour, and collect additional support documentation. The off-site or on-site compliance review will continue until a **closure letter** is issued by the OFCCP.

- If **technical violations** are found during the review, the closure letter will indicate those findings and the OFCCP will grant the company an opportunity to remedy those violations.
- If patterns of **discrimination** are found, the OFCCP will require remedial action and, in some cases, may take actions that could lead to the cancellation of contracts, denial of new contracts, or contractor debarment.

2.9 4 Major Components of Affirmative Action Plans

Notes:

There are 4 major components to an Affirmative Action Plan. They include the Plan Narrative, the Representation Analysis Reports, Goals and Goals Communication, and Good Faith Efforts.

Click each button to learn more.

1. Plan Narrative

The Plan Narrative describes how Oracle will implement its Affirmative Action Plan, names an executive sponsor, and addresses other concerns such as veteran and disability outreach.

To return to the main screen, press X.

2. Representation Analysis

The job group and workforce analysis quantifies employee representation

within job categories such as professional, technical, sales, and administrative. Next, the Summary Analysis includes an estimate of the external and internal availability of protected classes in each job group and compares Oracle's representation against census availability within the local community and recruiting area. Through our Affirmative Action programs, we try to create programs that will help reflect the representation of protected classes at Oracle, consistent with their availability in the approximate skilled workforce. To return to the main screen, press X.

3. Goals and Communication

The Placement Goals and Goal Attainment report summarizes current year goals and the progress made toward the goals. Oracle Diversity and Inclusion communicates these goals on an annual basis to U.S. and U.S. Territory Managers, Managers not in the U.S. with direct reports in the U.S., and HR Personnel. Oracle's narrative AAP is available upon request.

To return to the main screen, press X.

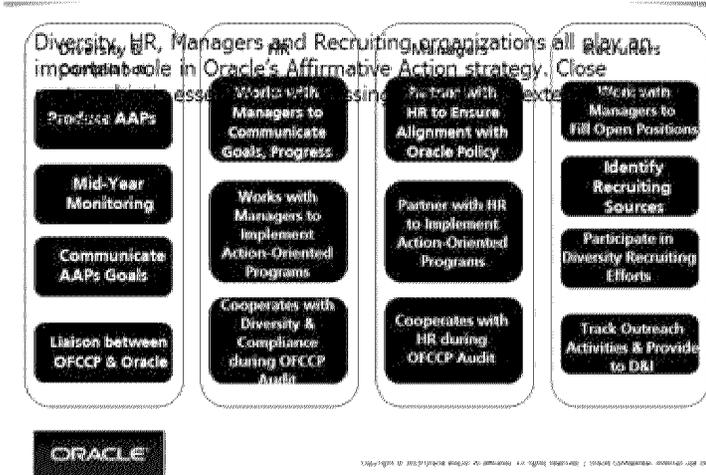

4. Good Faith Efforts

OFCCP can request reports of Oracle's good faith efforts to support the current Affirmative Action program. Good faith activities demonstrate to the OFCCP that we are taking specific action to address areas of concern and our commitment to Equal Opportunity and Affirmative Action. Good faith efforts include training, recruiting, and advancement activities targeting minorities, women, protected veterans and individuals with disabilities. The OFCCP will not only assess the statistical pieces of the Affirmative Action Plan; they will thoroughly examine all components of the Affirmative Action Plan.

To return to the main screen, press X.

2.10 Affirmative Action Strategy

Affirmative Action Strategy

Notes:

Diversity, HR, Managers and Recruiting organizations all play an important role in Oracle's Affirmative Action strategy. Close partnership is essential in addressing difficult and extensive OFCCP requests.

Oracle Diversity and Compliance produces Oracle's Affirmative Action Plans each year in January and communicates the plans to managers. Periodically, usually at mid-year, we monitor our progress. In addition, Diversity and Compliance works to promote inclusion by sponsoring training, diversity recruiting events, mentoring initiatives, and affinity groups within Oracle. Most importantly, Oracle's compliance group works as a liaison between Oracle and the OFCCP.

Oracle Human Resources works with appropriate managers to communicate organizational Affirmative Action goals and progress, and to implement

action-oriented programs within each organization. The compliance group works with HR to collect documentation or records the OFCCP may request during the compliance audit. Close cooperation is critical since tight deadlines are imposed by OFCCP during reviews.

Oracle managers work closely with Human Resources to ensure that employment practices align to Oracle policy and vision. Managers typically work with HR to implement programs and support actions to address areas of under-representation. Just like with HR, managers may be required to provide documentation related to employment decisions. It is important that managers cooperate as needed since tight OFCCP deadlines are attached to each request.

Oracle Recruiters work directly with hiring managers to fill open positions and identify effective diversity recruiting sources. Recruiters actively participate in diversity recruiting efforts to broaden the candidate pool and ensure Oracle managers have access and opportunity to hire the best. Recruiters track good faith efforts and provide to the Diversity group for inclusion in Oracle's Affirmative Action Plan. It is important that recruiters cooperate as needed since tight OFCCP deadlines are attached to each request.
