

Position Criteria

(Senior development positions may include unique requirements; therefore template metrics are general guidelines, not hard rules.)

FACTOR	IC3	IC4	IC5	ARCHITECT – IC6
Summary Of Experience	<p>BS or MS degree in CS or equivalent experience relevant to functional area.</p> <p>Typically has 3-4 or more years of related experience.</p>	<p>BS or MS degree in CS or equivalent experience relevant to functional area.</p> <p>Typically has 5-7 or more years of related experience. Candidates with less than five years experience must be star caliber and require review by Senior Mgt. staff.</p>	<p>BS or MS degree in CS or equivalent experience relevant to functional area.</p> <p>Typically has ten or more years of related experience. Candidates with eight or more years will be considered only if they are star caliber.</p>	<p>Typically has fifteen or more years of related experience.</p>
Scope Of Position	<p>Can code with minimal direction. Normally receives no instructions on routine tasks, with limited supervision on new tasks.</p>	<p>Has full responsibility for the architecture of a significant, self-contained portion of a product or a small product.</p> <p>Has demonstrated technical leadership for his/her area. This is usually done by being a project lead for a small project team of two to three developers.</p>	<p>Has full responsibility for the architecture of a medium-sized product or a substantial layer or subsystem within a large product</p>	
Technical Ability	<p>Works on projects of moderate conceptual complexity.</p> <p>Starting to demonstrate ability to write spec's and designs. Specifies, designs and develops software according to provided requirements, with sole responsibility for the design.</p>	<p>Works on projects of moderate to high conceptual complexity.</p> <p>Demonstrated ability to write high quality functional spec AND design documents for a major area. Provide url's for these documents.</p>	<p>Recognized expert in area within division and/or Oracle.</p> <p>Works on extremely complex problems. Has deep understanding of how his/her area interacts with all related areas.</p> <p>Models best engineering practices. This includes clarity and completeness of spec's and designs, code cleanliness and quality, thoroughness of testing, attention to documentation, and response to bugs and regressions.</p>

Exhibit P-293

		Is highly encouraged to maintain an architecture and detailed design document for his/her area. Provide url for this document.	
External Visibility	Must have good visibility so can be effectively ranked; giving a seminar is good way to do this and is advised.	Represents group within Oracle.	
Teamwork and Internal Influence		Exhibits effective teamwork with senior developers and senior management within Product Development and across Oracle.	
		Is the technical “go-to person” (consultant) for his/her area within the group and across Product Development.	
Achievements	Demonstrated ability to take feature/design through software lifecycle to release of robust, high quality, production code.	Strongly influences the technical decisions of ten or more developers. Under broad direction, defines requirements for new projects and specifies, designs and develops software to those requirements.	Recognized expert in field inside and outside Oracle
		Has delivered several high-quality, large-scale projects to market that have been successfully used by production customers for several years.	
		Has delivered innovative and creative solutions to complex problems.	
Recommendations	Comments supporting above criteria for promotion from outside immediate group from senior level developers and	Works effectively with others in managing extremely complex projects Comments supporting above criteria for promotion from outside of immediate group from senior management and architect-level developers.	Approval from the architects club
