Hi Vicky,
Good news and good news. Your transfer was approved, it had to go all the way up to Larry Ellison's office. The other good news is that they approved it at the Software Engineer IC3 level, which is grade E-08, one grade above your current level of E-07. No increase in pay, but as an E-08, you are no longer at the pay ceiling you were at an E-07.

Congratulations!
