

U.S. Department of Labor
Fiscal Year 2017
Service Contract Inventory
Plan for Analysis

**Department of Labor
Fiscal Year 2017 Service Contract Inventory
Plan for Analysis**

As the Department of Labor (DOL) gets ready to perform its Fiscal Year (FY) 2017 contract inventory and analysis, it will incorporate lessons learned from the FY 2016 inventory and apply them to the upcoming inventory.

DOL will develop a basic inventory in accordance with OMB guidance using Federal Procurement Data System Next Generation (FPDS-NG) data to address requirements consistent with the Consolidated Appropriations Act and collect additional data through interviews in order to gather supplemental contract data in response to the criteria required by Section 743.

Special Interest Functions

The Product Service Codes (PSCs) selected focused on Special Interest Functions in two areas:

1. Office of Management and Budget (OMB) Special Interest Functions – based on PSCs designated by OMB’s Office of Federal Procurement Policy (OFPP) as being of high risk; and
2. DOL Special Interest Categories – DOL identified specific PSCs with high dollar/high risk awards.

DOL will take the following steps in the process of its analysis:

- Consolidate interview results.
- Crosswalk interview data with contractor inventory data.
- Develop a selection criteria to identify contracts for in-depth review. Based on the criteria identified within the Consolidated Appropriations Act, DOL will prioritize its selection of contracts for further review in the following order:
 - Potential for inherently governmental performance by contractors;
 - Contracts providing services classified as special interest functions; and
 - Contracts that do not include special interest functions, but were awarded on a non-competitive basis, considered high risk/high spending or meet any one of the remaining designated criteria.
