**Department of Labor  
Fiscal Year 2023 Service Contract Inventory  
Plan for Analysis**

As the Department of Labor (DOL) prepares to perform its Fiscal Year (FY) 2023 service contract inventory (SCI) plan for analysis, DOL will incorporate lessons learned from the FY 2022 inventory and apply those lessons to the upcoming inventory.

DOL will develop a basic inventory in accordance with the Office of Management and Budget (OMB) guidance using Federal Procurement Data System-Next Generation (FPDS-NG) data to address requirements consistent with the Consolidated Appropriations Act. DOL will also collect data through interviews to gather supplemental contract data in response to the criteria required by Section 743.

  - Contracts providing services classified as special interest functions; and
  - Contracts that do not include special interest functions but were awarded on a non-competitive basis that are considered high risk/high spending.
