## ARTICLE XIX

### SUBSTANCE ABUSE POLICY

The Employer and the Union hereby adopt the St. Louis Construction Industry Alcohol and Substance Abuse Policy Statement, which is laid out in full below:

#### St. Louis Construction Industry Alcohol and Substance Abuse Policy Statement

##### Introduction

The Building and Construction Trades Unions and the contractors that are signatory to these local bargaining agreements are concerned about the health, safety, satisfactory job performance and well-being of employees. The use and abuse of chemical substances can seriously affect the health of employees, threaten their own safety and that of others, and seriously impair job performance.

It is the intent of the parties to provide a safe place to work by deterring the misuse/abuse of substances that create a threat to the safety and health of employees and others.

##### Policy and prohibitions:

1. The term "illegal drugs," for purposes of this agreement, includes unprescribed marijuana, cocaine, opiates, amphetamines, phencyclidines and all other controlled substances within the meaning of 21 U.S.C. section 802, and also includes any such substances legally obtained by prescription but used other than as prescribed.

2. An employee's use, possession or sale of any quantity of illegal drugs within the work place, or any employee's being under the influence of illegal drugs during hours of employment, shall be grounds for discharge from employment.
3. If there is evidence of the illegal use, sale of drugs, or possession of illegal drugs at the work place, the proper law authorities may be notified without liability of any kind.
4. The parties recognize that alcohol abuse differs from abuse of illegal drugs in that alcohol may be legally obtained and used, and each employee has the right to decide whether or not to drink on his own time so long as job safety and job performance are not impaired. However, improper use of alcohol affecting job safety or efficiency is unacceptable.
5. An employee's consumption of alcohol in any quantity at the work place or during work hours, or in an employer's vehicle at any time, or an employee's presence in the work place or a driver of an employer's vehicle while under the influence of alcohol, shall be grounds for discharge from employment.
6. The employer may require employees to submit to testing for alcohol or illegal drugs to the extent and in the manner required by applicable law or by a project owner. In addition, the employer may require an employee to submit to a drug and alcohol screen test when the employee has been involved in a job-related accident or injury, or when there is reasonable cause to believe that the employee has used or is under the influence of such substances in violation of the policies set forth herein. Employers may require pre-hire drug and alcohol testing of job applicants at the employer's discretion. Employees or applicants required to submit to testing shall provide blood or urine samples as requested and shall sign a written consent in a form approved by the employer and the union.
7. Positive test results indicating the presence of any illegal drugs at the levels set forth in the latest department of health and human services (DHHS) guidelines published in the federal register, or of blood alcohol of 0.04% or more by weight, shall be grounds for discharge from employment or refusal of employment.
8. The employer will bear all costs of drug and alcohol testing of employees required by the employer hereunder. Employees shall have the right to request reanalysis of the test specimen if positive by a NIDA approved laboratory of his choosing; however, employees will bear all costs of employee initiated re-analysis that confirms positive test results. If such re-analysis is conducted within 24 hours of notification of a positive test result of the employer-funded test, and the re-analysis confirms a negative rather than a positive test result, the employer will bear the cost of such drug test re-analysis. For pre-employment testing, the employer shall pay applicant two (2) hours wages at the applicable rates, provided the applicant receives a negative test result.

9. Each employer has the right to establish directives and procedures to implement the policies set forth herein. All drug testing will be performed by a national institute on drug abuse (NIDA) certified laboratory with test results interpreted by a medical review officer (MRO).
10. Employees who test positive shall contact their union for rehabilitation, and the employee will be eligible for employment by the employer after successful completion of a rehabilitation program'.

In the event that any provision of this Agreement is held invalid, or enforcement of or compliance with any provision is restrained, the Union and the Employer shall enter into immediate collective bargaining negotiations for the purpose of arriving at a mutually satisfactory replacement, incorporating the substance of such provision to the extent allowable under the law, to be in effect during the period of invalidity or restraint.
