Dear Employer:

Enclosed you will find citations for violations of the Occupational Safety and Health Act of 1970 (the Act) which may have accompanying proposed penalties. Also enclosed is a booklet entitled, "Employer Rights and Responsibilities Following an OSHA Inspection", (OSHA 3000-04R) revised 2018, which explains your rights and responsibilities under the Act. If you have any questions about the enclosed citations and penalties, I would welcome further discussions in person or by telephone. Please contact me at (904) 232-2895.

You will note on page 6 of the booklet that, for violations which you do not contest, you must (1) notify this office promptly by letter that you have taken appropriate corrective action within the time set forth on the citation; and (2) pay any penalties assessed. Please inform me of the abatement steps you have taken and of their dates together with adequate supporting documentation; e.g., drawings or photographs of corrected conditions, purchase/work orders related to abatement actions, air sampling results. This information will allow us to close the case.

As indicated on page 3 of the booklet, you may request an informal conference with me during the 15-working-day notice of contest period. During such an informal conference you may present any evidence or views which you believe would support an adjustment to the citation or the penalty.

If you are considering a request for an informal conference to discuss any issues related to this Citation and Notification of Penalty, you must take care to schedule it early enough to allow time to contest after the informal conference, should you decide to do so. Please keep in mind that a written letter of intent to contest must be submitted to the Area Director within 15 working days of your receipt of the citation. The running of this contest period is not interrupted by an informal conference.

If you decide to request an informal conference, please complete the attached notice at the bottom of this letter and post it next to the Citations as soon as the time, date and the place of the informal conference have been determined. Be sure to bring to the conference with you any and all supporting documentation of existing conditions as well as of any abatement steps taken thus far. If conditions warrant, we can enter into an informal settlement agreement which amicably resolves this matter without litigation or contest.

You should be aware that OSHA publishes information on its inspection and citation activity on the Internet under the provisions of Electronic Freedom of Information Act. The information related to these alleged violations will be posted when our system indicates that you have received this citation. You are encouraged to review the information concerning your establishment at www.osha.gov. If you have any dispute with the accuracy of the information displayed, please contact this office.

Sincerely,

David Tisdale

Citation 1 Item 1 Type of Violation: **Serious**

OSH ACT of 1970 Section (5)(a)(1): The employer did not furnish employment and a place of employment which were free from recognized hazards that were causing or likely to cause death or serious physical harm to employees in that employees are exposed to assaults by patients. Employees including Mental Health Associates, nurses, counselors, and physicians were exposed to the hazard of physical threats and assaults, such as being bitten, kicked, punched, scratched and sexually assaulted when interacting with patients when providing care, attempting to de-escalate patients, and engaging in daily activities. Assaults have resulted in injuries including scratches, contusions, abrasions, bites, concussions and fractures.

a. On or about November 12, 2022, and continuing thereafter, employees, including Mental Health Associates, nurses, counselors, and physicians were exposed to the hazard of physical threats and assaults, such as being bitten, kicked, punched, scratched, and sexually assaulted by patients when providing care, attempting to de-escalate patients, and engaging in daily activities.

Among other methods, feasible and acceptable means of abatement would be to:

1. Use properly trained security officers to respond to aggressive or violent patient behavior. Ensure security guards or officers follow written procedures. Alternatively, train existing staff to the level of security staff, ensuring every shift has these trained staff members available. Designated staff or security guards should be available to all units on all shifts, especially during times when there is reduced staffing, to rapidly respond and de-escalate a situation when patients are exhibiting disruptive, aggressive, and/or violent behavior, and be able to monitor live video surveillance of all the units.
2. Ensure doctors are readily available to authorize emergency treatment orders during the night shift when violent and aggressive patients are not responding to existing medical treatment.
3. Create a comprehensive workplace violence program, consolidating current policies to ensure clear policies and procedures on hazard/threat assessments, controls, prevention strategies, employee training and education, and incident reporting and investigation. Include employees from all shifts to participate in the development, implementation and maintenance of the program. Train all staff on the program policies and procedures.
4. Provide employees who will have direct interaction with patients, including but not limited to: Therapists, Nurses, and MHAs, with personal panic alarms, body alarms, or a reliable means of communication to immediately summon the response team to assist in patient care areas. Provide training on this equipment and ensure it is

inspected, tested, and maintained in working order at all times.

5. Make physical changes to the facility to reduce patient attacks. Review the physical environment of each wing to determine the presence of factors which may place an employee at an increased risk of being exposed to workplace violence. To include, but not limited to, seclusion room doors that patients were able to break open and elope, moveable furniture that can be used as weapons, and nurses' stations without plexiglass barriers that patients are able to access.

6. Evaluate the effectiveness of existing controls, such as, but not limited to plexi-glass barriers or windows, at least annually, and improve, expand, or update them as needed. Follow up to confirm the controls implemented are being used and maintained properly.

Pursuant to the Debt Collection Act of 1982 (Public Law 97-365) and regulations of the U.S. Department of Labor (29 CFR Part 20), the Occupational Safety and Health Administration is required to assess interest, delinquent charges, and administrative costs for the collection of delinquent penalty debts for violations of the Occupational Safety and Health Act.

Interest: Interest charges will be assessed at an annual rate determined by the Secretary of the Treasury on all penalty debt amounts not paid within one month (30 calendar days) of the date on which the debt amount becomes due and payable (penalty due date). The current interest rate is one percent (1%). Interest will accrue from the date on which the penalty amounts (as proposed or adjusted) become a final order of the Occupational Safety and Health Review Commission (that is, 15 working days from your receipt of the Citation and Notification of Penalty), unless you file a notice of contest. Interest charges will be waived if the full amount owed is paid within 30 calendar days of the final order.

Delinquent Charges: A debt is considered delinquent if it has not been paid within one month (30 calendar days) of the penalty due date or if a satisfactory payment arrangement has not been made. If the debt remains delinquent for more than 90 calendar days, a delinquent charge of six percent (6%) per annum will be assessed accruing from the date that the debt became delinquent.

Administrative Costs: Agencies of the Department of Labor are required to assess additional charges for the recovery of delinquent debts. These additional charges are administrative costs incurred by the Agency in its attempt to collect an unpaid debt. Administrative costs will be assessed for demand letters sent in an attempt to collect the unpaid debt.
