

SECRETARY OF LABOR
WASHINGTON, D.C. 20210

April 24, 2025

Dear Governor Kay Ivey,

As President Trump laid out in his recent Presidential Memorandum “Preventing Illegal Aliens from Obtaining Social Security Act Benefits” and Executive Order 14218 “Ending Taxpayer Subsidization of Open Borders”, it is critical that we ensure American taxpayer dollars do not go towards encouraging or rewarding illegal immigration to the United States.

Our nation’s unemployment benefits exist solely for workers who are eligible to receive them. To qualify for unemployment, one must be able and available to work, actively seeking work, and be legally authorized to accept employment in the United States. Unemployment benefits are not a handout for those in our country illegally.

I understand that my colleague, Department of Homeland Security (DHS) Secretary Kristi Noem, wrote to you last week informing you that your state can now use the DHS immigration database, SAVE, at no cost. This important system helps verify the immigration status of benefit claimants and is a critical tool in the toolbox in ensuring that illegal immigrants do not access our nation’s unemployment benefits.

As a result of this change, I instructed the Employment and Training Administration (ETA) to send a letter to all State Unemployment Insurance Administrators urging them to immediately start using SAVE for every initial and continued claim filed by an individual who indicates that they are not a U.S. citizen. This letter also reminds states of their existing legal obligations regarding immigrant access to unemployment benefits and that noncompliance with these existing obligations will result in the loss of the state’s Title III UI administrative grant.

I am committed to ensuring that the U.S. Department of Labor enforces the law and will personally work to safeguard Americans’ hard-earned tax dollars. I look forward to working with you on this effort.

Sincerely,

A handwritten signature in black ink that reads "Lori Chavez-DeRemer". The signature is written in a cursive, flowing style.

This important system helps verify the immigration status of benefit claimants and is a critical tool in the toolbox in ensuring that illegal immigrants do not access our nation’s unemployment benefits.

As a result of this change, I instructed the Employment and Training Administration (ETA) to send a letter to all State Unemployment Insurance Administrators urging them to immediately start using SAVE for every initial and continued claim filed by an individual who indicates that they are not a U.S. citizen. This letter also reminds states of their existing legal obligations regarding immigrant access to unemployment benefits and that noncompliance with these existing obligations will result in the loss of the state’s Title III UI administrative grant.

I am committed to ensuring that the U.S. Department of Labor enforces the law and will personally work to safeguard Americans’ hard-earned tax dollars. I look forward to working with you on this effort.

Sincerely,

A handwritten signature in black ink that reads "Lori Chavez-DeRemer". The signature is written in a cursive, flowing style.

Dear Governor Andy Beshear,

As President Trump laid out in his recent Presidential Memorandum “Preventing Illegal Aliens from Obtaining Social Security Act Benefits” and Executive Order 14218 “Ending Taxpayer Subsidization of Open Borders”, it is critical that we ensure American taxpayer dollars do not go towards encouraging or rewarding illegal immigration to the United States.

Our nation’s unemployment benefits exist solely for workers who are eligible to receive them. To qualify for unemployment, one must be able and available to work, actively seeking work, and be legally authorized to accept employment in the United States. Unemployment benefits are not a handout for those in our country illegally.

I understand that my colleague, Department of Homeland Security (DHS) Secretary Kristi Noem, wrote to you last week informing you that your state can now use the DHS immigration database, SAVE, at no cost. This important system helps verify the immigration status of benefit claimants and is a critical tool in the toolbox in ensuring that illegal immigrants do not access our nation’s unemployment benefits.

As a result of this change, I instructed the Employment and Training Administration (ETA) to send a letter to all State Unemployment Insurance Administrators urging them to immediately start using SAVE for every initial and continued claim filed by an individual who indicates that they are not a U.S. citizen. This letter also reminds states of their existing legal obligations regarding immigrant access to unemployment benefits and that noncompliance with these existing obligations will result in the loss of the state’s Title III UI administrative grant.

Dear Governor Arnold Palacios,

As President Trump laid out in his recent Presidential Memorandum “Preventing Illegal Aliens from Obtaining Social Security Act Benefits” and Executive Order 14218 “Ending Taxpayer Subsidization of Open Borders”, it is critical that we ensure American taxpayer dollars do not go towards encouraging or rewarding illegal immigration to the United States.

Our nation’s unemployment benefits exist solely for workers who are eligible to receive them. To qualify for unemployment, one must be able and available to work, actively seeking work, and be legally authorized to accept employment in the United States. Unemployment benefits are not a handout for those in our country illegally.

I understand that my colleague, Department of Homeland Security (DHS) Secretary Kristi Noem, wrote to you last week informing you that your state can now use the DHS immigration database, SAVE, at no cost. This important system helps verify the immigration status of benefit claimants and is a critical tool in the toolbox in ensuring that illegal immigrants do not access our nation’s unemployment benefits.

As a result of this change, I instructed the Employment and Training Administration (ETA) to send a letter to all State Unemployment Insurance Administrators urging them to immediately start using SAVE for every initial and continued claim filed by an individual who indicates that they are not a U.S. citizen. This letter also reminds states of their existing legal obligations regarding immigrant access to unemployment benefits and that noncompliance with these existing obligations will result in the loss of the state’s Title III UI administrative grant.

I am committed to ensuring that the U.S. Department of Labor enforces the law and will personally work to safeguard Americans’ hard-earned tax dollars. I look forward to working with you on this effort.

Sincerely,

A handwritten signature in black ink that reads "Lori Chavez-DeRemer". The signature is written in a cursive, flowing style.

This important system helps verify the immigration status of benefit claimants and is a critical tool in the toolbox in ensuring that illegal immigrants do not access our nation’s unemployment benefits.

As a result of this change, I instructed the Employment and Training Administration (ETA) to send a letter to all State Unemployment Insurance Administrators urging them to immediately start using SAVE for every initial and continued claim filed by an individual who indicates that they are not a U.S. citizen. This letter also reminds states of their existing legal obligations regarding immigrant access to unemployment benefits and that noncompliance with these existing obligations will result in the loss of the state’s Title III UI administrative grant.

I am committed to ensuring that the U.S. Department of Labor enforces the law and will personally work to safeguard Americans’ hard-earned tax dollars. I look forward to working with you on this effort.

Sincerely,

A handwritten signature in black ink that reads "Lori Chavez-DeRemer". The signature is written in a cursive, flowing style.
