

DEEOIC Discontinuing Coverage for HCPCS Code A9901

Effective October 1, 2025, the Division of Energy Employees Occupational Illness Compensation (DEEOIC) will discontinue coverage for HCPCS Code A9901. The Office of Workers' Compensation Programs' (OWCP) Fee Schedule rates for Durable Medical Equipment (DME) are all inclusive and include the cost of taxes, shipping, delivery, installation, and setup. As such, A9901 will no longer be covered as a separately billable code. Authorization requests received prior to October 1, 2025, will be reviewed and processed as appropriate.

The Department of Labor regularly revises the OWCP Fee Schedule to reflect economic adjustments, including increases and decreases, as deemed necessary for fees associated with certain HCPCS/Current Procedural Terminology (CPT) codes. These adjustments are made in response to shifts in medical inflation rates, industry trends, and other pertinent factors.

For additional questions or concerns related to the OWCP fee schedule, email OWCP-Public@dol.gov.
