

Using ECOMP

WHAT IS ECOMP? The Employees' Compensation Operations & Management Portal is a secure online website that provides Energy Program claimants and authorized representatives access to view case information, such as recent actions and compensation information.

Additional features in ECOMP allow specific groups to view and download most of their case file documents. These groups include:

1. Employee Claimants
2. Survivor Claimants (when there is only one survivor claimant in the case)
3. Authorized Representatives of the first two groups

WHO CAN USE ECOMP?
