

NATIONAL DISLOCATED WORKER GRANTS

EMPLOYMENT RECOVERY - EMERGENCY FUNDING FOR COVID-19 RESPONSE

Supporting California's COVID-19 Dislocated Workers

Statewide

Project Summary (Need)

The state will provide employment and training services to workers impacted by layoffs resulting from the coronavirus pandemic. Due to the unprecedented circumstances created by this global pandemic and the uncertain duration and overall impact of the virus and stay at home orders, the submission of this initial request is a first step towards minimizing the impact to California residents and local and state economies.

Employment Recovery Activities

The state in partnership with local workforce development areas across the state will seek to provide employment services, training, work-based learning, and support services to participants to help them go back to work. Projects will focus on placing participants into employment in sectors that have seen an increased demand for skilled workers due to COVID-19 including, but not limited to, healthcare and healthcare support occupations, advanced manufacturing of healthcare tools and supplies (N-95 masks, scrubs, gowns), manufacturing of basic human essentials and household items; food production, food delivery, and grocery; case management, social work, and childcare, and any other occupation with a meaningful connection to the COVID-19 national health emergency and resulting impacts.

Period of Performance 4/10/20 - 3/31/22 	Approved Amount \$11,655,000 
Planned Participants 7300 	Target Population Dislocated Workers
