
**Notice of Critical Status
For
Plasterers and Cement Masons Local No. 94 Pension Plan**

This is to inform you that on July 29, 2019 the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the plan is in critical status for the plan year beginning May 1, 2019. Federal law requires that you receive this notice.

Critical Status

The Plan is considered to be in critical status because it has funding or liquidity problems, or both. More specifically, the plan has an accumulated funding deficiency for the current plan year.

Rehabilitation Plan

Federal law requires pension plans in critical status to adopt a rehabilitation plan aimed at restoring the financial health of the plan. The law permits pension plans to reduce, or even eliminate, benefits called “adjustable benefits” as part of a rehabilitation plan. On or about March 4, 2013, you were notified that, in connection with the rehabilitation plan, the plan was amended effective May 1, 2013 to reduce certain adjustable benefits. On or about August 25, 2010, you were notified that the plan is not permitted to pay lump sum benefits (or any other payment in excess of the monthly amount paid under a single life annuity) while it is in critical status. Any reduction of adjustable benefits may only apply to participants and beneficiaries whose benefit commencement date is on or after August 25, 2010.

Effective May 1, 2019, benefits were further reduced and a portion of the plan’s pension liability was partitioned pursuant to the Multiemployer Pension Reform Act of 2014 (MPRA). You were previously notified of the details of these benefit reductions in April of 2018 and provided the opportunity to vote on the proposed reductions. Following a vote in favor of the reductions, the United States Department of the Treasury approved the reductions and plan partition.

This is the ninth year the Plan has been in critical status. As of the 2019 Certification by the Plan actuary, the Plan is not projected to become insolvent because of the benefit suspensions and partition which took effect May 1, 2019. Absent the benefit suspensions and partition, the Plan would be projected to go insolvent.

Adjustable Benefits

The plan offers the following adjustable benefits which may be reduced or eliminated as part of any rehabilitation plan the pension plan may adopt:

- Early retirement benefit or retirement-type subsidy;
- Sixty-month and one hundred twenty-month payment guarantees; and
- Benefit payment options other than a qualified joint-and survivor annuity (QJSA).

Accrued Benefits

Under MPRA, suspension of accrued benefits can include reduction of the normal retirement age benefit for active employees and terminated employees who have not started their pension as well as a reduction in the benefit currently payable to retirees and beneficiaries. Any suspension of accrued benefits may not reduce the level of a participant's benefit to less than 110% of the PBGC benefit guarantee level nor may it reduce benefits for any participant on a disability pension or who is over the age of 80 (and any benefit suspension is phased in from age 75 to 80).

Employer Surcharge

The law requires that all contributing employers pay to the plan a surcharge to help correct the plan's financial situation. The amount of the surcharge is equal to a percentage of the amount an employer is otherwise required to contribute to the plan under the applicable collective bargaining agreement. With some exceptions, a 5% surcharge is applicable in the initial critical year and a 10% surcharge is applicable for each succeeding plan year thereafter in which the plan is in critical status. The surcharge generally ceases upon the adoption of a rehabilitation plan by the Trustees and its approval by the parties to the collective bargaining agreement.
