**Notice of Endangered Status for the
Bert Bell/Pete Rozelle NFL Player Retirement Plan
(the "Pension Plan")**

This is to inform you that on May 19, 2016, the actuary for the Pension Plan certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the Pension Plan is in endangered status for the Plan Year beginning April 1, 2016 (the "2016 Plan Year").

We are required by federal law to send you this notice. No action is required on your part. Please note that in the 2014 Plan Year, NFL Clubs contributed \$305.5 million to the Pension Plan, and in the 2015 Plan Year, the Clubs contributed \$266.0 million to the Pension Plan. The Pension Plan is projected to be fully funded by March 31, 2021, the end of the current collective bargaining agreement.

Endangered Status

The Pension Plan is considered to be in endangered status because the plan actuary determined that the Pension Plan's funded percentage is less than 80% for the 2016 Plan Year. Plans that are less than 80% funded are considered to be in endangered status under federal law and must provide this additional notice.

Funding Improvement Plan

Federal law requires plans in endangered status to adopt a funding improvement plan aimed at restoring the financial health of the plan. The Pension Plan's board of trustees (the "Retirement Board") adopted a funding improvement plan on February 23, 2011, and most recently updated it on May 19, 2016. The Pension Plan is making the scheduled progress in meeting the requirements of the funding improvement plan.
