§2711 No lifetime or annual limits	Prohibits group health plans and health insurance issuers offering group or individual health insurance coverage from establishing lifetime limits and annual limits on the dollar value of benefits. <sup>2</sup> After the amendments made by the Affordable Care Act, there are two PHS Act sections 2709. The first section 2709 was PHS Act section 2713 before the amendments made by the Affordable Care Act and was redesignated PHS Act section 2733 by section 1001(3) of the Affordable Care Act and then, as PHS Act section 2733, was again redesignated by section 1562(c)(10) of the Affordable Care Act as PHS Act section 2709. The second section 2709 was added by section 10103 of the Affordable Care Act and relates to coverage for individuals participating in approved clinical trials. Grandfathered health plans are subject to the first PHS Act section 2709 because as PHS Act section 2713 it was part of the PHS Act before the enactment of the Affordable Care Act. However, grandfathered health plans are not subject to the second PHS Act section 2709.

<sup>3</sup> For a group health plan or group health insurance coverage that is a grandfathered health plan for plan years beginning before January 1, 2014, PHS Act section 2714 is applicable in the case of an adult child only if the adult child is not eligible for other employer-sponsored health plans coverage. The interim final regulations relating to PHS Act 2714, published in 75 FR 27122 (May 13, 2010), and these interim final regulations clarify that, in the case of an adult child who is eligible for coverage under the employer-sponsored plans of both parents, neither parent's plan may exclude the adult child from coverage based on the fact that the adult child is eligible to enroll in the other parent's employer-sponsored plan.
