The Honorable Lisa M. Gomez Assistant Secretary of Labor Employee Benefits Security Administration U. S. Department of Labor 200 Constitution Avenue, N.W. Washington, D.C. 20210

RE: RIN 1210-AC02

Dear Honorable Gomez,

I am writing this letter to express my concerns over the new U.S. Department of Labor (DOL) proposed fiduciary rule that will threaten me and my colleagues as financial professionals to serve the many lower and middle-income Main Street families who are currently able to access us for sound, unconflicted financial advice to advance their financial and retirement security.

This new rule proposes to revise the current fiduciary rule under the Employee Retirement Income Security Act (ERISA), governing the advice that financial advisors provide their clients. This proposed revision largely resurrects the failed 2016

DOL "fiduciary-only" rule that limited savers' choice of advisors and investments by imposing excessive amounts of costly red tape and duplicative administrative requirements on the investment transactions they make for their retirement.

Since the 2016 fiduciary rule was invalidated, regulators at the federal and state levels have adopted significant new regulations that directly address the conflicts of interest that DOL asserts it is seeking to address with its new proposed rule. The U.S. Securities and Exchange Commission (SEC) adopted Regulation Best Interest (Reg BI), which requires all broker-dealers and their registered representatives to always act in their client's best interest without putting their own interests first. In addition, more than forty states have now enacted an updated National Association of Insurance Commissioners (NAIC) model regulation that requires insurance producers to satisfy a best interest standard that aligns well with Reg BI. In addition, DOL adopted its own new rule in 2020 that complements the federal and state regulatory regime.

Adoption of this proposed rule is both dangerous and unnecessary. It is dangerous because it will leave millions of Main Street investors on their own in trying to achieve retirement security for themselves and their families. It is unnecessary because there are already federal and state regulatory structures to protect consumers, and DOL has provided no evidence that consumers are not being protected by the existing rules.

I ask that you please withdraw the proposed final regulation and proposed amendments to protect the interest of Main Street Americans.

Sincerely, Scott Sonnier Florida
