Retirement Security Rule: Definition of an Investment Advice Fiduciary

Document: 1210-AC02 comment 00096 Griesemer 12192023

Submitter Information

Name: Robert Griesemer

General Comment

As a financial advisor I have worked diligently for my clients for over 40 years. During that time I have seen regulations come and go, many of which were necessary and some overly restrictive. I believe the proposed DOL rule is an example of over and duplicative rule making. I also believe the DOL is overstepping its bounds and should not be attempting to legislate where other agencies (SEC & FINRA) have authority. I urge you to vote against this unnecessary and over bearing proposal.

I'm writing to express my concerns with the Department of Labor's (DOL) Retirement Security rule proposal. I believe this proposal will harm millions of low- and middle-income households by limiting access to personalized financial guidance and advice.

As a financial professional, I'm already required to act in the best interests of my clients under the SEC's Regulation Best Interest (Reg BI) and, when considering annuities, applicable state laws that impose similar requirements. Together, these regulations ensure that my clients and I can focus on working together to build responsible savings and investments habits.

This proposal has the potential to upend our existing, comprehensive structure by limiting our ability to help our clients safeguard their savings in a manner of their choosing. In particular, the previous iteration of a substantially similar DOL rule resulted in a meaningful reduction in services offered to millions of low- and middle-income households. I am concerned that the resurrection of this rule is expected to exacerbate the racial wealth gap by roughly 20% due to a disproportionate impact on Black and Hispanic communities.

I hope the DOL will consider the harm the previous fiduciary rule had on communities, as well as the changes in securities regulations that came with the adoption of Reg BI and state insurance suitability rules and withdraw the Retirement Security rule proposal.
