

U. S. DEPARTMENT OF LABOR

Employees' Compensation Appeals Board

In the Matter of ANGELA D. RASHEED and DEPARTMENT OF VETERANS AFFAIRS,
VHSRA, North Little Rock, Ark.

*Docket No. 97-458; Submitted on the Record;
Issued October 5, 1998*

DECISION and ORDER

Before GEORGE E. RIVERS, DAVID S. GERSON,
BRADLEY T. KNOTT

The issues are: (1) whether appellant has any continuing disability causally related to her accepted employment-related conditions of right lateral epicondylitis and right shoulder subacromial bursitis; and (2) whether appellant has established that she developed right carpal tunnel syndrome, causally related to factors of her federal employment.

The Board has given careful consideration to the issues involved, the contentions of appellant on appeal, and the entire case record. The Board finds that the August 5, 1996 decision of the Office of Workers' Compensation Programs' hearing representative is in accordance with the facts and the law in this case and hereby adopts the findings and conclusions of the hearing representative.

Accordingly, the decision of the Office of Workers' Compensation Programs dated August 5, 1996 is hereby affirmed.
