

The overpayment in this case occurred because appellant continued to receive compensation after April 1, 2010, when an Ohio Municipal Court entered a guilty verdict with respect to false information provided on compensation EN1032 forms. The conviction for fraud was previously of record and the overpayment was based on 5 U.S.C. § 8148(a), as discussed in the prior Board decision. It is important to note that the overpayment period did not begin until the guilty verdict was entered. The guilty verdict itself relates to actions prior to April 1, 2010. The fault issue regarding receipt of compensation from April 1 to August 28, 2010 is a separate issue. As to compensation from April 1 to August 28, 2010, if there was an incorrect statement or a failure to provide material information, OWCP must explain what incorrect statement was made or information omitted, and explain why appellant knew or should have known the information was incorrect or material. If appellant is found to have accepted payments covering the period April 1 to August 28, 2010 that she knew or should have known were incorrect, OWCP should explain what specific evidence established appellant knew or should have known the payments were incorrect.

Since OWCP failed to make proper findings as directed by the Board, the case will be remanded to OWCP. On return of the case record it should make specific findings as to fault and waiver. After such further development as OWCP deems necessary, it should issue an appropriate decision.

IT IS HEREBY ORDERED THAT the decision of the Office of Workers' Compensation Programs dated September 20, 2012 is set aside and the case remanded for further action consistent with this order of the Board.
