Overview of PY 2018 Q4 WIOA Performance Records Public Use Data File

The Participant Individual Record Layout (PIRL) is the major reporting system that the Department of Labor (DOL) uses to obtain information about the individuals served, services provided, and outcomes attained under the Workforce Innovation and Opportunity Act (WIOA). WIOA replaced the Workforce Investment Act (WIA) on July 1, 2015 and reporting in the PIRL format began on July 1, 2016. Modifications to the PIRL were effective PY 2018 Q1.

Universe

The WIOA performance records data include only PIRL items applicable to persons served by WIOA Title I (Adult, Dislocated Worker, Youth, Dislocated Worker Grants), Title III (Wagner-Peyser), Veterans' Programs, and reportable individuals.

The data contains information on individuals who were served by these programs between January 1, 2017 and June 30, 2019 (those served in the last two quarters of PY 2016, all four quarters of PY 2017, and all four quarters of PY 2018). It contains everyone who began participation before July 1, 2019 and either exited on or after January 1, 2017 or had not exited as of March 31, 2019. It includes information on all reportable individuals and participants served by local funds, statewide funds, Dislocated Worker Grants (DWGs), Wagner-Peyser, or Veterans' Program funds. Individuals served only by rapid response have been excluded.

Information Provided

The WIOA Performance Records data are provided in six sections:

- A) Individual Information. This section provides basic information on participants, including date of birth, gender, race/ethnicity, disability status, and demographic characteristics. This information is gathered at program entry and is not updated subsequently. For example, highest educational level completed represents the education level at program entry. It is not updated if the person completes additional education during program participation.
- B) One Stop Center Program Participation. This section provides information on participation in WIOA programs and participation in partner programs.
- C) One Stop Services and Activities. This section provides information on the receipt of services, including basic career, individualized career, training, and supportive services. Services are counted if (1) they were funded by WIOA or Wagner-Peyser or (2) they were partially or completely funded by partner programs and were coordinated with the individual's WIOA/Wagner-Peyser activities, possibly through formal co-enrollment or by inclusion in the individual's WIOA/Wagner-Peyser service plan.
- D) Program Outcomes Information. This section provides information on the outcomes received by exiters. These outcomes typically represent achievements after exiting the programs. Many of these outcomes are based on data derived from UI wage records, which is the primary source of employment information. Due to the lags in availability of wage records, outcome data on the data file is missing for many exiters. These data will be collected in subsequent quarterly PIRL submissions
- E) New Data Elements Specific to Some Programs.
- F) Calculated Items. Items intended to make the data easier to use. These calculated items were not submitted by states; rather they were calculated based on the standard PIRL fields. They include calculations of the WIOA and WIA performance measures. WIA common measures (entered employment and retention and average earnings in 2nd and 3rd quarters) are included for comparison with previous WIASRD outcomes. These data

provide substantial information on exiters, their characteristics, the services they receive, and the outcomes they attain. These calculated items are listed in the record layout starting with item 3000.

Data Structure

There is generally one record for each person for a period of participation, regardless of the number of funding streams that served the individual.¹ Unique records are defined by three fields: the state, individual ID and the exit date. Records with overlapping periods of participation and records with periods of participation separated by less than 90 days are combined into a single record.

The data items available for an individual depend on the funding streams that provided services to the individual. The funding streams are:

- **Adult** local and statewide funds
- **Dislocated worker** local and statewide funds
- **Youth** local and statewide funds
- **National Dislocated Worker Grants**
- **Wagner-Peyser**
- **Veterans' Programs**
- **Reportable Individuals**

When items are not available for an individual, the data in the field is blank. **Blanks should not be treated as zero or 'no'.**

Because some items are available only for subsets of the data, the user should be aware of when the items being examined are available. If an individual was served by more than one funding stream, that person's data should include the data required for each of the serving funding streams. As a result, some items will be available in unexpected situations. For example, fields required only for adults and dislocated workers will be available for youth who also received adult services.

Data Cleaning

In developing the public use file, we conducted some limited data cleaning. Our approach to data cleaning was to make changes to the data only when there was a clear and obvious problem. Thus, the user of the data should not assume that the data have been completely cleaned. In particular, we:

- Set to blank some data items in states that appeared to be reporting incorrectly. Only obvious problems were treated this way. Other cases of incorrect reporting may still exist at the state or local level.

¹ There are exceptions that allow multiple records for a person, such as when the individual is served independently by two WIOA programs. However, these records have been combined in this data set.

- Set to blank those items that were not supposed to be reported for a given funding stream or service mix.
- Set to blank outcomes when it was too soon to report complete data on the submission date.
- Recoded a few items where it was possible to correct invalid coding used by states.
- Combined duplicate records. Records with overlapping periods of participation or with periods of participation separated by less than 90 days are considered duplicates.

Details on data cleaning are presented in Appendix B for Title I programs (adults, dislocated workers, youth, and DWG participants) and in Appendix C for Title III program (Wagner-Peyser and Veteran's program participants).

Confidentiality

The Public Use File has been modified to help assure participant confidentiality as follows:

- If a local area (PIRL 108-A WIB) had 50 or fewer exiters in a program year, those exiters were excluded from the file. This deletion did not apply to statewide programs.
- The ID (PIRL 100) was encrypted.
- The date of birth (PIRL 200) was set to blank and a calculated integer age was provided (PIRL 3042).
- The DWG grant numbers (PIRL 2003) were set to blank if there were fewer than 3 exiters in a program year for any DWG.
- The special project IDs (PIRL 105, 106, 107) were set to blank if there were fewer than 3 exiters in a program year for any project ID.
- Codes for employed in quarters after exit (PIRL 1600, 1602, 1604, 1606) and type of employment match in quarters after exit quarter (PIRL 1601, 1603, 1605, 1607) have been modified to avoid disclosing the data source.
- Occupation code of employment prior to participation (PIRL 403) and after exit quarter (PIRL 1610, 1612, 1613) have been truncated to 6-digits and modified to display at the minor group (3-digit) or major group (2-digit) level if there otherwise would be fewer than 3 participants in a local area or set to blank if there otherwise were fewer than 3 participants in the major group (2-digit) level in a local area. Trailing zeros have been added to display 6-digits.
- Industry code of employment in quarters prior to participation (PIRL 404, 405, 406) or after exit quarter (PIRL 1614, 1615, 1616, 1617) have been modified to display at the industry group (4-digit), sub sector (3-digit) or sector (2-digit) level if there otherwise would be fewer than 3 participants in a local area or set to blank if there otherwise were fewer than 3 participants in the sector (2-digit) level in a local area. Trailing zeros have been added to display 6-digits.
- Wages prior to participation (PIRL 1700, 1701, 1702) and after exit quarter (PIRL 1703, 1704, 1705, 1706) have been rounded to the nearest whole dollar and randomly altered so that adjusted, rather than actual wages, are displayed. These adjusted wages retain the same underlying statistical properties in the aggregate as the actual wages.
- Several fields have been set to blank as noted in the detailed record layout in Appendix A.
