#### ADDITIONAL COMMENTS:

Iowa continues to analyze the Reportable Individual count, as it continues to be lower than expected. Identified reasons during this reporting period include: the COVID-19 pandemic, a system interface with UI being down for intermittent periods of time in PY20, and potential updates needing to be made to service reporting categories. As a response, the state continues to refine reporting categories and has worked on addressing a fix for the UI interface. AJCs were closed to transition to an emergency response to the pandemic starting mid-March 2020. Participants in this reporting cycle included those receiving services 7/01/2020-6/30/2021, coinciding with the pandemic response. Career planners shifted immediately to assisting with UI in an emergency response to help individuals with various pandemic unemployment activities. In addition, work search requirements were waived. As such, Iowa is beginning to see the pandemic impact outcomes this cycle with Empl 2nd quarter and Median Earnings 2nd quarter including individuals exiting program services 7/1/19-6/30/20. These two measures are beginning to reflect the effects of the pandemic in workforce delivery system. Empl 4th quarter, while reflecting program exiters in calendar year 2019 (1/1/2019-12/31/2019), also appear to have been impacted as career planners were challenged during the onset of the pandemic to maintain participant contact to ensure positive outcomes.

<sup>1</sup>Applies to Title I only.

<sup>2</sup>This indicator also includes those who entered into a training or education program for the Youth program.

<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

<sup>4</sup>Barriers to Employment are determined at the point of entry into the program.
