Introduction

The general fund appropriation for Advances to the Unemployment Trust Fund (Advances) makes funds available for interest-bearing, repayable advances (loans) to two accounts in the Unemployment Trust Fund (UTF): (1) the Extended Unemployment Compensation Account (EUCA), which pays the Federal share of extended unemployment benefits; and (2) the Federal Unemployment Account (FUA), which makes funds available to states to pay unemployment benefits. In addition, this appropriation makes funds available for interest-bearing, repayable advances to the Black Lung Disability Trust Fund (BLDTF) whenever its balances prove insufficient to make payments. These repayable advances show as borrowing authority within the UTF or the BLDTF, and they do not appear as budget authority or outlays in the Advances account.

This appropriation also makes funds available for nonrepayable advances to the Federal Employees Compensation Account (FEC Account) in the UTF to pay the costs of compensation for former Federal employees and ex-servicemembers; and to the Federal Unemployment Benefits and Allowances (FUBA) account to pay the costs of benefits and services under the Trade Adjustment Assistance (TAA) program. This appropriation also provides for nonrepayable advances to a revolving fund, which provides interest-bearing, repayable advances to the Employment Security Administration Account (ESAA) in the UTF. These nonrepayable advances show as budget authority and outlays in the Advances account.

To address the potential need for significant and unpredictable advances to various accounts, the appropriations language for the Advances account appropriates such sums as needed for advances to all potential recipient accounts.
