

# WOMEN IN APPRENTICESHIP AND NONTRADITIONAL OCCUPATIONS GRANT PROGRAM

Total Funding Available: \$3.4 MILLION

## Increase Women's Employment in Apprenticeship Programs and Nontraditional Occupations

### WHAT IT DOES

The Women in Apprenticeship and Nontraditional Occupations (WANTO) grant helps recruit, train, and retain more women in quality pre-apprenticeship and Registered Apprenticeship programs and encourages women to pursue nontraditional occupations.

Grantees may provide technical assistance in the form of developing pre-apprenticeship, youth apprenticeship, Registered Apprenticeship, or other nontraditional skills training programs designed to prepare women for careers in apprenticeable and nontraditional occupations. They may also provide technical assistance through ongoing orientations or other resources for employers, unions, and workers on creating a successful environment for women in apprenticeable and nontraditional occupations. Lastly, technical assistance may be provided by setting up support groups, facilitating networks, and/or providing supportive services for women in apprenticeable and nontraditional occupations to improve their retention.

Applicants with experience working with or as an equity intermediary are encouraged to apply, as well as applicants with a proposed focus on expanding outreach to historically underrepresented communities.

### THE GOALS OF THE GRANT PROGRAM ARE TO:

- 1) Provide technical assistance to employers and labor unions to encourage employment of women in both apprenticeable occupations and nontraditional occupations
- 2) Support women's participation and success in the full range of industries in which women are historically underrepresented or where women are disproportionately concentrated in the lower-wage occupations
- 3) Create career pathways for women into Registered Apprenticeship Programs, and in high-growth, high wage occupations generally
