Part 2: Application Information

Title: FY 2020 SECTION 5311, 5311 (b)(3)

FAIN	Application Status	Application Type	Date Created	Last Updated Date	From TEAM?
NJ-2022-015-00	Final Concurrence / Reservation	Grant	6/30/2022	6/30/2022	No

Application Executive Summary

NJ TRANSIT is requesting \$4,587,171.00 for rural programs which includes \$4,455,014.00 for FY 2020 Section 5311 Non-urbanized Area Formula Program, and \$132,157.00 for FY 2020 5311(b)(3) Rural Transit Assistance Program (RTAP). This grant will be matched with \$1,002,379 local funds bringing the grant total to \$5,589,550. These funds will be used to support the purchase of 26 accessible vehicle for eleven (11) rural subrecipients.

Also included are funds in the amount of \$148,230 for Force Account Rolling Stock Inspections at the assembly plant and final buy-off, \$445,500 for State Administration, and \$132,157 RTAP funding for training.

Vehicles purchases will help support eleven (11) sub-recipients operations in rural areas of New Jersey. All sub-recipients included in this grant have met all the federal requirements (Category A).

After FTA approves this grant application, NJ TRANSIT will fund the purchase of accessible vehicles to be used in the subrecipients services as outlined in this application.

Sub-recipients receiving expansion vehicles can house and maintain the new vehicles. Housing the vehicles does not mean the vehicle is inside a garage. In most cases, the vehicle is stored on county/ municipality property in an outside lot adjacent to a maintenance facility.

NJ TRANSIT will purchase the vehicles for the sub-recipients. NJ TRANSIT will conduct pre-award and post-delivery audits.

Titles to the vehicles will be in the name of the sub-recipient, with NJ TRANSIT listed as the first lien holder and physically holding the title. When the federal interest has expired, the liens will be released, and titles will be turned over to the subrecipient. In accordance with FTA regulations, NJ TRANSIT will release the lien on the title when a vehicle meets its defined useful life and is therefore no longer an asset with federal interest.

SATISFACTORY CONTINUING CONTROL

NJ TRANSIT will maintain the required satisfactory continuing control over the Vehicle awards through project administration, regular on-site vehicle inspections, and program audits. NJ TRANSIT will also maintain an inventory of all federally funded vehicles and ensure that all requirements are identified in the sub-recipients contract. When the federal interest has expired on vehicles, the lien will be released, and the title will be turned over to the sub-recipients.

RTAP Program will fund the design and implementation of training and technical assistance projects to meet the specific needs of sub-recipients in rural areas of the State.

State Administration for NJ TRANSIT staff to oversee day-to-day management of activities including but not limited to federal oversight and compliance, FTA and NTD reporting requirements, grant application

and agreement development, finance reimbursements, grant closeouts, on-site reviews and provide technical assistance to the sub-recipients as needed.

COORDINATION

All counties have developed and submitted Public Transit Human Services Transportation Coordination Plans and these projects are derived from those locally developed plans. NJ TRANSIT has notified Section 5311 subrecipients that their rural service should be included in the appropriate county Public Transit - Human Services Transportation Coordination Planning Process.

STATE MANAGEMENT PLAN

The State Management Plan (SMP) was updated in January 2021. The SMP is attached in TrAMS.

PUBLIC NOTICE

These earmarks were published in NJ TRANSIT's Federal Program Public Notice, which was published in June 2022

STIP

The project is included in the FY2022-2025 Statewide Transportation Improvement Program (STIP). The Federal Transit Administration and the Federal Highway Administration approved the STIP on November 22, 2021. The STIP ID for the Section 5311 Program is T151, Page III 40.

PRE-AWARD AUTHORITY

NJ TRANSIT will invoke pre-award authority for this grant on January 1, 2022.

The period of performance for this grant is from the date of award through December 31, 2026.

This grant does not receive funds for research and/or development.

Purpose of the Award: Funds will support the purchase of up to 26 accessible vehicles for eleven (11) rural sub-recipients.

Activities to be Performed: NJ TRANSIT will purchase the vehicles for the 11 rural sub-recipients in New Jersey. Vehicles awarded under this grant will be used by sub-recipients for demand response and deviated fixed-route services.

Expected Outcomes: To bridge the gap for New Jersey residents in rural areas with limited fixed-route transportation.

Intended Beneficiaries: Funds will support residents of New Jersey traveling to and from rural areas.

Subrecipient Activities: 1. Atlantic County
201 Shore Road., 2nd Floor (Rear Bldg)
Northfield, NJ 08225-2319

Expansion

Two (2) extended cutaway buses for demand response transportation in the non-urbanized portion of Atlantic County.

Total Amount: \$397,358

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description

Class II(c) consists of projects that do not have a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. FTA requires a sufficient project description to support a CE determination. The project may require additional documentation to comply with other environmental laws.

Categorical Exclusion Description

Type 07: Acquisition, installation, rehabilitation, replacement, and maintenance of vehicles or equipment, within or accommodated by existing facilities, that does not result in a change in functional use of the facilities, such as: equipment to be located within existing facilities and with no substantial off-site impacts; and vehicles, including buses, rail cars, trolley cars, ferry boats and people movers that can be accommodated by existing facilities or by new facilities that qualify for a categorical exclusion.

Driver training supplies - manuals, film videos, promotional items, safety awards. Conference room space for training. Continuation of training scholarships for local transit managers to attend workshops and seminars. Technical training at nationally renowned organizations and institutes such as the Federal Transit Administration, the National Transit Institute, the Transportation Research Board, and the Community Transit Association of America (15-20 scholarships). Scholarships will be limited to staff members of small transit operations which possess limited funding for training. We also ensure workshops/ and training courses are available for small transit managers to develop management skills. In-state training classes for topics such as but not limited to rural operators, contracting for services, transit marketing, quality control techniques, dispatching and telephone technique workshops, etc. Training Consultants - Hiring consultants for technical and management workshop presentations. Development of technical training material as a result of in-state workshops. Includes distributing statewide information on training and regulation updates via both e-mail and NJ TRANSIT's S-RIDES website. Provide technical support to statewide organizations (Council on Special Transportation). Providing Sponsorship of state Paratransit Rodeo and scholarships to Winners to participants in national Paratransit Rodeo. Includes managing scholarships for local and out-of-state training.

Will 3rd Party contractors be used to fulfill this activity line item?

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description

Class II(c) consists of projects that do not have a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. FTA requires a sufficient project description to support a CE determination. The project may require additional documentation to comply with other environmental laws.

Categorical Exclusion Description

Type 04: Planning and administrative activities which do not involve or lead directly to construction, such as: training, technical assistance and research; promulgation of rules, regulations, directives, or program guidance; approval of project concepts; engineering; and operating assistance to transit authorities to continue existing service or increase service to meet routine demand.
