There are local funds serving as match in the grant which will also be moved between ALLs as necessary so as to ensure appropriate matching amounts for all ALLs.

This revision is moving funds associated with the Section 5311-STBG and 5339-Formula programs, and there are no changes for the 5339 Low or No Emissions Program funds as part of this revision. Quantities are not being adjusted as a part of this revision; rather, the funds are being moved to account for projects which came in under budget. This revision will not require an extension to the period of performance end date which is currently 3/31/2029 but will allow ODOT to spend down funds faster.
