PREAMBLE

This Agreement is a Successive Principal Agreement to all other prior Agreements thereto by and between Safway Services, LLC, Brand Energy Services LLC, and Performance Contracting Inc. and the Pacific Northwest Regional Council of Carpenters.

This is a Collective Bargaining Agreement between Safway Services, LLC, Brand Energy Services LLC., and Performance Contracting Inc.(hereinafter referred to collectively as the “Employer”), and the Pacific Northwest Regional Council of Carpenters, (hereinafter referred to as the “Union”), and shall constitute an Agreement between the parties hereto for the work, conditions and wage rates provided for herein in the territory of Washington, Oregon, and Northern Idaho. This Agreement supersedes and replaces all previous contracts entered into between the Union and/or any of its affiliates (including local unions and Regional Councils) and the Employer.

PURPOSE OF AGREEMENT

SECTION 1. The Purpose of this Agreement is to promote harmony between the Union and the Employer through the settlement of labor disagreement by conference, to prevent strikes and lockouts and to stabilize wages and working conditions in scaffolding and shoring in the area affected.

SECTION 2. Bylaws of either party are not a part of this Agreement. It is agreed and understood between the parties hereto that this Agreement contains all the covenants, stipulations and provisions agreed upon by the parties. No agent of either party has the authority to make any promise, inducement or agreement contrary to the provisions herein.

ARTICLE 1

Scope

SECTION 1. This Agreement covers all handling, building, erection, modification, and dismantling of all types of scaffolding and shoring at Employer's customers' job sites, including "shrink wrapping" performed by employees of Employer, coming within the jurisdiction of the UBC. Scaffolding includes raised platforms and related structures for holding workers and/or materials. Shoring includes shoring, reshoring and other temporary structures used as a support for a concrete form. The Union agrees to honor work assignments within the jurisdiction of the UBC made by the Employer.

SECTION 2. This Agreement shall not apply to yard workers unless the work in the Employers yards is within the craft jurisdiction of the UBC. Nevertheless, the employer may at it's sole discretion, extend the scope of this agreement, on a case by case basis, to cover the work of Union members (be they Carpenter

Tenders, Apprentices, Journeymen or Foreman) performed in its yards, as long as the Employees possess the skills required to do the work safely. Employees may decline such work.

The term “yard” does not include yards or staging areas on the site of a project for a customer of the Employer or yards or staging areas dedicated exclusively, or nearly so, to the performance of a particular project if such yards or staging areas were established solely to support such project. This Agreement shall not be construed to cover any work by non-signatory parties who rent, lease, or purchase equipment from the Employer, or to in any way limit the Employer’s ability to engage in rental, leasing, or sale of equipment to any person or entity.

SECTION 3. Except as modified in this Agreement, the Employer agrees to recognize the jurisdictional claims of the UBC and agrees to comply with the contractual wages, fringe benefits, hours, and other working conditions established between the Union and the Employers or recognized employer agencies in the states of Washington, Oregon and Northern Idaho.

SECTION 4. All questions, complaints, or disputes dealing with craft jurisdiction shall be referred to the business representatives of the unions involved in the jurisdictional disputes and to the Employer’s authorized representative, who shall then meet at

a location acceptable to all parties. Jurisdictional disputes that cannot be resolved at the local level shall be referred to the International Unions involved for a determination. Pending such determination, the work will continue as assigned by the Employer. Any determination made pursuant to this provision shall be final and binding on the disputing unions and the involved Employer on the relevant project only. Such a determination shall not establish a precedent on other project sites. In resolving such disputes, it will be recognized that the Employer continues to determine crew sizes and retains all of its Management Rights.

SECTION 5. In the event the Employer enters into project labor agreements or site agreements subsequent to the date of execution of this Agreement, the provisions of which conflict with the terms of this Agreement, the terms of the applicable project labor agreement or site agreement shall take precedence over this Agreement.

ARTICLE 2

Scaffold Tender Classification

In order to provide for career opportunity and on-the-job training for persons within the overall craft working within the jurisdiction of this Agreement as defined in Article 1, it is agreed that the career Scaffold Tender classification is a part of this Agreement. All Scaffold Tenders must obtain and present a dispatch slip from

the Union per Article 5, Section 1. The number of Scaffold Tenders working on any jobsite, with the exception of the company stockyards, shall not exceed twice (2x) the number of apprentices employed at the jobsite and the number of apprentices shall not exceed the number of journeymen employed at the jobsite.

The wage rate for Scaffold Tender, shall be 55% of Commercial Journeyman Scaffold Erector scale. All benefit contributions required in this agreement shall apply to Scaffold Tenders with the exceptions that pension contributions will not be required for the first five hundred (500) hours in the bargaining unit.

Health and Welfare contributions shall not be required for the Scaffold Tender classification for the first 250 hours of employment in the bargaining unit.

- a. Scaffold Tenders may engage in, material warehousing, stockpiling, transportation of materials, jobsite stockpiling, material handling, installation of shrink wrap and cleanup.
- b. Scaffold Tenders scope of work shall be to assist apprentices and journeymen. No Scaffold Tender shall begin any program of apprenticeship and suffer a reduction in wage rate or benefits from what was being earned as a Scaffold Tender.
- c. Scaffold Tenders may not engage in any erection or dismantle of scaffold or shoring frames that

would require them to be elevated above ground level. They may however work in a “pass bay” and as such may be elevated when passing materials, but must not wear tools or participate in the actual erection and dismantle of frames, such as installation of rails, cross braces etc.

- d. If the Employer is signatory to an agreement with another craft union that claims jurisdiction over the Scaffold Tender classification scope of work, no Scaffold Tender shall be allowed to work on any project or jobsite where members of that craft union are employed by the employer. If employees who are classified as Scaffold Tenders do work on any project or jobsite as described in this section they must be paid at the appropriate journeyman scale for any work they do on the project or jobsite.

ARTICLE 3

Union Recognition and Security

SECTION 1. Based upon the Pacific Northwest Regional Council of Carpenters request for recognition as majority collective bargaining representative and its showing of proof, or offer to show proof, that a majority of the Contractor’s employees covered by the Labor Agreement support the Pacific Northwest Regional Council of Carpenters and have authorized the Pacific Northwest Regional Council of Carpenters

to serve as their collective bargaining representative, the Contractor recognizes the Pacific Northwest Regional Council of Carpenters under Section 9(a) of the National Labor Relations Act as the sole and exclusive bargaining representative of all employees within the craft and geographical scope to the Labor Agreement. The Contractor agrees not to make any claim questioning or challenging its recognition of the Union as the authorized majority representative of its employees.

SECTION 2. Employees employed in work covered by this Agreement shall maintain their membership with current month's dues paid to their home Local, as a condition of continued covered employment.

SECTION 3. Failure of any employee to pay or tender normal initiation fees or dues as required by this Agreement shall, upon the request of the Union in writing, result in the termination of such employee by the Employer.

SECTION 4. Employees employed on work covered by this Agreement shall become and remain a member of the Union as a condition of employment from the seventh (7th) but not later than the eighth (8th) day of employment, or the effective date of this Agreement, whichever is later.

SECTION 5. Sections 1, 2, 3, & 4 of this Article do not apply to work under this Agreement in states with

right to work laws, nor do any other provisions of this Agreement that are inconsistent with or in violation of such state's right to work laws or any other state or federal law.

ARTICLE 4

Employer Status

The Employer agrees that, in the event of its consolidation with, acquisition of, or joint venture with, another entity, in which the entity performs work within the geographic and jurisdiction scope of this Agreement, it shall secure the succeeding entity's compliance with this Agreement.

ARTICLE 5

Hiring Procedures

SECTION 1. The Employer may request Carpenters by name, without regard to their position on the Out-of-Work List. Dispatches will be given to Carpenters, Apprentices and Scaffold Tenders on the Out-of-Work List in numerical order except when called by name or called on an open-call basis for a specific skill, minority or female requirements. In those cases, the first person on the list who meets the requested criteria and is available will be dispatched.

SECTION 2. Dispatched employees reporting to the jobsite at the date, time and location specified by the

Employer must be put to work or paid the proper show-up time unless the Union is notified of cancellation prior to dispatch. Employers have no responsibility to new hires reporting after the time specified by the Employer, unless the Union has notified the Employer in advance of the delay in reporting and confirmed its acceptance of the delayed start. The Employer shall make every effort to give the Union twenty-four (24) hours notice when requesting an employee.

SECTION 3. When an employee is referred to the job by the Union, such referral shall be on a non-discriminatory basis, not affected by membership or non-membership, past or present union activities, or age, sex, race, creed, color or national origin.

ARTICLE 6

Meal Provisions and Rest Periods

SECTION 1. Employees shall not be required to work more than five (5) hours from the start of the shift without at least a one-half (½) hour meal break. This meal break shall not begin earlier than three (3) hours after the start of an eight (8) hour shift, or five (5) hours after the start of a ten (10) hour shift, and shall be unpaid. The Employer may instruct that employees work beyond the five (5) hours before taking their meal break, to perform work of an urgent nature and those employees are to be paid an amount equal to the applicable overtime wage (including fringes) and

are to be considered to be on overtime until they are allowed to eat their meal.

SECTION 2. Employees shall not be required to work more than five (5) hours after the end of their first meal break without being allowed another meal break, of at least one-half (½) hour. The Employer may instruct that employees work beyond the five (5) hour period before taking their second meal break, to perform work of an urgent nature and those employees are to be paid an amount equal to the applicable overtime wage (including fringes) and are to be considered to be on overtime until they are allowed to eat their meal.

SECTION 3. The meal breaks for individual employees may be staggered within the allowable time periods. Employees shall be allowed a safe, dry place in which to eat their meal.

SECTION 4. The first two (2) planned meal breaks per shift may be limited, by the Employer, to no more than one-half (½) hour. Any meal breaks in excess of two (2) per shift and any unplanned meal must be of sufficient length to permit employees to leave the site, acquire and eat their meals, and return, provided it is practical to do so. Such time is to be unpaid. When it is impractical for employees to leave the site and acquire the third meal, the Employer is to arrange for such meal to be brought in, at the Employer's expense.

SECTION 5. Employees shall be allowed a rest period of not less than 10 minutes, on the Employer's time, for each four (4) hours of working time. Rest periods shall be scheduled as near as possible to the midpoint of the work period. No employee shall be required to work more than three (3) hours without a rest period. The rest period may be taken at the work station when reasonable. Where the nature of the work allows employees to take intermittent rest periods equivalent to ten minutes for each 4 hours worked, scheduled rest periods are not required. A rest period means to stop work duties, exertions, or activities for personal rest and rejuvenation.

It will be the responsibility of each employee to take rest periods. If an employee does not take a rest period, then the employee must notify his/her supervisor and a rest period will be provided.

ARTICLE 7

Shifts, and Hours of Work

SECTION 1. Single Shift Operations:

- a. Eight (8) hours shall constitute a day's work and five (5) days shall constitute a week's work, Monday through Friday.
- b. A single shift operation shall be restricted to the hours between 5:00 a.m. and 5:00 p.m. and eight

(8) hours of continuous employment (except for meal period) shall constitute a day's work Monday through Friday of each week. In the event the project is down due to weather conditions, or other conditions beyond the control of the Employer, Monday through Friday, then Saturday may, at the option of the Employer, be worked as a voluntary makeup day at the straight time rate. Holidays are not considered to be beyond the control of the Employer.

- c. Four ten (10) hour shifts at the straight time rate may be established Monday through Thursday or Tuesday through Friday. In the event the project is down due to weather conditions, or other conditions, beyond the control of the Employer, then Friday (when working Monday through Thursday) or Saturday (when working Tuesday through Friday) may, at the option of the Employer, be worked as a voluntary makeup day. All hours in excess of ten (10) hours a day or forty (40) hours a week must be compensated at the overtime rate. Holidays are not considered to be beyond the control of the Employer.
- d. No employee shall be discharged, laid off, disciplined, replaced, or transferred for refusing to work a makeup day.
- e. In the event of a civil emergency such as, but not limited to, earthquakes, floods, or fires, starting

time of the shift may be made to fit the emergency and eight (8) hours in any twenty-four (24) hour period may be worked at straight time. The Union shall be notified as soon as possible that the Employer has utilized this provision.

- f. When due to conditions beyond the control of the Employer, or when contract specifications require that the work can only be performed outside the regular day shift, then a special shift or shifts may be worked at the straight time rate with notification to the Union. The starting time of work will be arranged to fit such conditions of work. When such shifts are in effect they shall not be considered “multiple shift” operations.
- g. When an employee is called out to work without at least eight (8) hours off since his/her previous shift, all such call out time shall be paid at the applicable overtime rate until he/she shall have eight (8) hours off. Should an employee return to the yard at the end of a partial shift and receive an additional assignment; his/her pay shall continue without interruption.

SECTION 2. Multiple Shift Operations:

Shifts may be established when considered necessary by the Employer. There shall be no split shifts. Shift hours and rates will be as follows:

- a. **Two Shift Operations:** On a consecutive shift operation, no shift penalty is involved for work performed on either of these two shifts if regular hours of work on each shift are eight (8) hours of continuous employment. If two four-ten (4-10) hour shifts are established, the regular hours of work on the first shift shall be ten hours of continuous employment, except for meal period at mid shift, at the straight time rate. The second shift shall be nine and one-half (9 ½) hours of continuous employment, except for meal period at mid shift, and shall be paid for ten (10) hours at the straight time hourly wage rate plus fringe benefits.

Multiple shift (a two or three shift) operation will not be construed on the entire project if at any time it is deemed advisable and necessary for the Employer to multiple shift a specific operation. Those groups of employees only who relieve first shift groups of employees and such first shift groups of employees who are relieved by groups of employees on a second shift, and on a three shift operation those groups of employees who relieve the groups of employees on a second shift, shall be construed as working multiple shifts. The intent of this clause shall be construed so as to recognize that a “reliever group” and a “relief group” do not necessarily mean “person for person” relief.

SECTION 3. Special Work: When an employee has completed his/her scheduled shift and is called out to perform special work, he/she shall receive premium

pay in accordance with the proper overtime rates. A minimum guarantee of two (2) hours pay at the applicable overtime is due for show up. A minimum of four (4) hours pay is due when put to work at the applicable overtime rate.

SECTION 4. Yard Work: Should Employer request any work by an apprentice or journey level employee to take place in Employer's yard, as opposed to job site work, such employee must be paid at least Senior Scaffold Tender wage plus fringe benefits. The employee may decline such work. The term "yard" does not include yards or staging areas on the site of project for a customer of Employer or yards or staging areas dedicated exclusively, or nearly so, to the performance of a particular project if such yards or staging areas were established solely to support such project.

SECTION 5. Holiday Week: In the event that a holiday is celebrated during the week (Monday through Friday), the remaining four days of the week may be worked as a four ten shift at the straight time rate on a voluntary basis with three (3) days notice to the Union.

The first two (2) hours of overtime after ten (10) straight time hours of work in a shift shall be paid at one and one half (1½) times the straight time rate of

pay. All additional overtime will be paid at two (2) times the straight time rate of pay.

Employees who cannot work a full shift because of weather conditions or other conditions beyond the control of the Employer shall be paid for actual hours worked.

ARTICLE 10

Travel Pay

SECTION 1. Company Vehicle Travel: Travel to and from the work site is not part of the regular workday for the purpose of determining overtime.
