WHEREAS, the Employer and Union have entered into an Agreement for Heavy Construction Work dated the 1st day of July, 1969 (hereinafter referred to as "Agreement"); and

WHEREAS, the Employer and Union have conducted extensive and exhaustive collective bargaining negotiations; and

WHEREAS, the Employer and the Union on February 20, 1918 entered into an Agreement setting forth the conditions of employment, rates of pay, and hours to be observed between the parties; and

WHEREAS, said Agreement has continued uninterrupted, subject to amendatory changes from time to time with respect to rates of pay and hours of employment; and

WHEREAS, the parties now desire to again supplement and amend the Agreement of February 20, 1918 with respect, among other things, to rates of pay and hours of employment for the period commencing July 1, 1999 and terminating June 30, 2002.

NOW, THEREFORE, in consideration of the foregoing, it is mutually agreed as follows:

ARTICLE I

Jurisdiction and Territory Covered

This Agreement covers work performed by the Employer in jurisdiction of the Union on Heavy Construction Work. Said jurisdiction includes the five boroughs of New York City, Nassau, Suffolk, Westchester and the southern section of Rockland County.

If the Employer engages in any class of work not embodied in Heavy Construction Work, as hereinafter defined in Article III, both parties shall comply with all of the Union conditions then existing in that class of work.

ARTICLE II

Recognition and Union Security

1. The Employer recognizes the Union as the sole and exclusive bargaining representative for all lathers in its employ, including foremen, journeymen, apprentices and trainees.

2. All Employees covered by this Agreement who are not members in good standing of the Union shall be required to become and remain members in good standing of the Union, as a condition of continued employment, on or after the seventh day of such Employee on any job site, or on or after the seventh day following the effective date of this Agreement, whichever is later. All Employees who are members of the Union shall be required to remain members in good standing as a condition of continued employment. If the Union elects not to accept any individual into membership in the Union and elects not to require the payment by such individual of the union's uniform initiation fee and periodic dues, such individual shall be required to pay to the union the uniform and periodic service fees representing the individual's share of the cost of the Union's operation of its Hiring Hall. If any individual fails to comply with the union security requirements of this article, the Employer shall discharge such individual after the Union advises the Employer of such failure by formal written notification.

ARTICLE III

(1) Wages: The following increase in wage rates or fringe benefits will be effective for foremen and journeymen on the following dates with the understanding that the Union shall have the right to allocate to fringe benefit contributions any portion of the amount set forth below on the dates set forth below. Any amounts so allocated by the Union to fringe benefit contributions shall not be considered to be wage increases due to Employees and shall not be considered to be a reduction in wages. Provided, however, that the right of allocation shall be that of the Union, and any determination by the Union that an amount shall be allocated to fringe benefit contributions shall not constitute said amount as any wage increase. The amount so allocated shall not be considered wages and shall not be considered as part of the income of Employees. The Union shall also have the right to determine that any portion of said wage increase might be used to increase the amount of dues checkoff:

Effective July 1, 1999 \$1.80 per hour + \$0.10 Apprentice Training

Effective July 1, 2000 \$2.50 per hour + \$0.10 Apprentice Training

Effective July 1, 1999, the Employer shall contribute ten cents (\$0.10) per hour worked or paid for to the Heavy Construction Industry Fund.

The wage rate for Apprentices and Trainees during their first year of training shall be set at the rate of \$19.12. Apprentices and Trainees in their second year of training shall be set at 50% of the hourly rate of pay of journeymen lathers inclusive of Vacation, Annuity, Dues & PAC. Apprentices and Trainees in their third year of training shall be set at the rate of 60% of

XI.	Union Security Fund	\$ 0.05
XII.	PAC	\$ 0.02
XIII.	Iron Workers Political Education Fund	\$ 0.03

This Agreement is based on the principle that the Employer is entitled to seven hours actual work for seven hours pay. Any unreasonable failure to work these hours gives the Employer the right to pay only for the hours actually worked.

(2) A foreman shall man every job. It is agreed that a single Journeyman lather can be employed on preliminary work, in which case he shall be paid foreman's wages, which shall be two dollars (\$2.00) per hour above the Journeyman's rate. Foreman shall receive two dollars (\$2.00) per hour above the Journeyman's rate. In the event of overtime, said foreman's pay shall be prorated. In order for the foreman

to receive the straight payroll week's salary, he must be employed for three consecutive payroll weeks before qualifying for the straight payroll weeks salary, but he shall be paid holidays and for inclement days. Such preliminary employment, however, shall not restrict the Employer's right to bring in another foreman at a later date.

If said Employer requests that his employees work on Saturday, Sunday or a holiday and due to inclement conditions they are unable to work, the Foreman shall be paid 7 hours for said day at the appropriate overtime rate.

The Union shall have the right to designate a Shop Steward on each job.

(3) The Employer shall have the right to pay Employees by check, provided that checks shall be delivered to Employees not later than three (3) days after the end of the work week, as defined hereafter, and provided further that the Employer has complied with the bonding provisions of this agreement. If an Employer does not provide check-cashing facilities for Lathers, the Employer shall reimburse Lathers up to \$8.00 per check when the Lather provides proof of incurring this expense for the cashing of the check.

If an Employer issues a check to an Employee and the check is returned for insufficient funds or negligence on the part of the Employer, exclusive of bank error, a penalty of fourteen (14) hours shall be imposed.

If for any reason the Employer terminates the services of any Employee working under this Agreement, the accrued wages including benefits of that Employee shall be paid to him before the end of the workday. Otherwise, waiting time shall be charged for accrued wages. If any Employee shall, of his own volition, leave the service of his Employer, then his Employer may retain his wages and stamps until the next regular pay day.

Unless delay is caused by conditions beyond the control of the Employer, if men are not paid as specified above, they shall be paid waiting time until paid not to exceed fourteen (14) hours. The Employer agrees that lay-off checks shall be on the job-site before the end of the

working day. Otherwise, waiting time shall apply.

(4) The workweek shall begin at 8:00 A.M. on Monday and end at 7:59 A.M. on the following Monday. If an Employer elects to pay employees by check, Employees must receive such checks on the Wednesday following the close of the workweek.

An Employer is not permitted to change the workweek or its method of payment of wages to Employees once such method is adopted, unless approval for such change is secured in writing from the Union.

(5) The Employer agrees that all fringe benefits, including but not limited to, contributions to the Metal Lathers Local 46 Trust Fund, Metal Lathers Local 46 Pension Fund and others, shall be paid on pay day at the job site by check payable to the Metal Lathers Fund, and such payment must be accompanied by the reporting forms required to be filed by the Employer. The present system for Employer contributions to the Vacation and Annuity Funds shall remain in effect.

(6) The Employer shall be required to mark plainly all pay envelopes with the Employee's name and number, the number of hours he has worked, his social security number, all deductions made from his wages for social security, taxes, or any other legitimate or proper purpose, and the net amount of the Employee's pay. The Employer shall be required to post in the shanty on the job site the insurance company or other carrier, which is responsible for its workmen's compensation coverage. The Employer shall not make any deductions from the wages of Employees for or on account of New York State Disability Insurance. If it is not paid by the Trust Fund, the Employer shall be permitted to make appropriate and legal deductions.

(7) Commencing July 1, 1999, all Employers covered by this Agreement shall voluntarily contribute ten cents (\$0.10 cents) for each hour worked by or paid to Lathers to the Heavy Construction Industry Fund. All Employer contributions to the Heavy Construction Industry Fund shall be remitted to the office of the Metal

Lathers Local 46 Trust Fund, which shall provide the Employer with payroll reporting forms for such purpose. The office of the Fund shall deliver all such contributions to the Heavy Construction Industry Fund after verifying that the Employer has correctly computed the amount of each such contribution.

The Heavy Construction Industry Fund shall reimburse the Metal Lathers Local 46 Trust Fund for all expenses incurred in receiving, recording, auditing, etc. in connection with receipt and transmittal of these contributions.

DRUG TESTING

The Employer and Union agree that when required by a contract of any City, State, Federal and/or quasi-public agency or public utility to test the Employees covered by this Agreement for drugs and/or alcohol abuse, they shall comply.

NON-DISCRIMINATION

The parties to this agreement agree that neither they, nor any of the representatives of any of them, shall discriminate in any manner, against any worker, foreman or other individual by reason of race, color, creed, religion, national origin, age, sex, union membership or non-membership, marital status, citizenship status, disability or sexual orientation.

ARTICLE VI

Overtime Rates

Time and one half shall be paid for all work performed on Saturday and for all work performed in excess of seven (7) hours on a week day, except when work is being performed under Article IV, Section (4). Double time shall be paid for all work performed on Sunday and all legal holidays.

In the event that a man shall be transferred from his regular job at 3:30 P.M. to another of the Employer's job sites, to which he reports as soon as is reasonably possible and proceeds to work, he shall be deemed to have been continuously employed during that time and shall receive the overtime rate therefor.

ARTICLE VII

Legal Holidays

The term "Legal Holidays" or days observed as such by the Nation or State of New York, or by proclamation, where used in this Agreement shall mean:

New Year's Day	Labor Day
Washington's Birthday	Columbus Day
Good Friday	Election Day (in Presidential year only)
Memorial Day	Thanksgiving Day
Fourth of July	Christmas Day

Work on Christmas Eve and New Year's Eve will terminate at 12:00 Noon, but the men will be paid for the full day. If the men are required to work after 12:00 Noon, they will be paid at double time for hours thereafter worked. If Employees do not show for work they will not receive any pay for the said day. If an Employee reports to work on Christmas Eve or New Year's Eve and cannot start for any reason, including inclement weather, he shall receive three (3) hours pay at the straight time rate. If Christmas or New Year's Day falls on a Sunday or Monday, men will work on Friday until Noon and receive a full day's pay.

ARTICLE VIII

Manning of Jobs

Whenever the Employer notifies the Union that employment vacancies exist and requests the Union to furnish workmen, the Union agrees that within forty-eight (48) hours from said request such workmen shall be furnished in the manner set forth:

(1) The Union shall establish and maintain an open employment list for the employment of competent workmen in accordance with the Rules and Procedures For Operation of Hiring Hall dated August 17, 1971, and presently in effect, and all referrals shall be made pursuant to said Rules and Procedures.

(2) The Employer shall retain the absolute and unconditional right with just cause to reject any workmen referred by the Union. The Employer shall have the absolute right to lay off any employee from any job either because of a lack of work or because of the Employer's determination that the Employee does not have the ability to perform the required tasks. The Employer's judgment as to an Employee's ability to perform a particular job shall not be subject to any dispute by the Union.

(3) The cost and expense of establishing and maintaining the open list and of the referrals therefrom shall be borne by all of the registrants thereon. (5) The Hiring Hall shall be the exclusive source of workmen and no hiring shall be done at the job site.

The use of safety equipment by the Employee is mandatory and the failure to use such equipment and appliances shall be grounds for immediate dismissal.

The Employer shall notify the Union when a job is started. Every job shall be manned by a foreman. It is agreed that a single journeyman lather can be employed for preliminary work, in which case he shall be paid foremen's wages. Such preliminary employment however does not establish foremanship nor shall it restrict the Employer's right to appoint as foreman any lathers subsequently employed.

The cutting of all reinforcing steel rods 5/8" or over in thickness, may be done at the mill if desired by the Employer not including the final or flush cut on G lock or similar systems.

The cutting of all reinforcing steel rods under 5/8" in thickness, only when same are 8 feet or over in length, may be done at the mill, if desired by the Employer.

When desired by the Employer, with written permission of the Union, the cutting of reinforcing steel rods may be done in a shop where lathers are employed for same, instead of on the job.

Employees shall provide themselves with a suitable kit of tools necessary for the proper carrying out of the work.

However, the Employer shall provide gloves and aprons for Employees on bench or machine work, and the Employer shall supply hard hats, reels and belts. There shall be no restrictions on the use of any machinery, tools, appliances or methods.

Neither party during the life of this Agreement is to adopt any by-law or attempt to enforce any working rule or regulation which is contrary to any of the clauses in this Agreement.
