Project Description

FY 2017-2018 TTFP funds in the amount of \$401,424.00 will be used for operating expenses, preventative maintenance on vehicles, and for the continuing purchase of replacing 2 vehicles that are over 300,000 miles.

The Tribe is using Federal funds at the 100:0 match ratio for the time period of 10/01/2017 to 06/30/2019.

Project Benefits

Our tribe is economically challenged with little commerce being conducted within the reservation. It is therefore necessary for our tribal members to travel significant distances to obtain or maintain employment. Many of our members do not have access to transportation at all or only to unreliable transportation, so there is a huge lack of transportation which represents a gaping need for transit services in this area.

Because of the isolated, rural nature of our communities, it is vital that our tribal members have access to the nearest cities for many services that are not available within our communities of Macy, Walthill, and Rosalie. Many of our tribal members lack the appropriate transportation or licensing to drive the distance to these services. The operation funding would expand our obvious need to provide this transit service to our members and the public. The operation assistance would expand our obvious need to provide this transit service to our members and the public. By adding two vans we would expect to only maintain, but to improve our ability to provide expanded services to our members and the public.

Although we have a medical facility on our reservation, many individuals who live in outlying rural areas need transportation to access these services. In addition, the services provided at our clinic are limited, and travel is necessary when referred out to Sioux City, or Omaha to receive expanded medical care. As stated previously, job opportunities are severely limited on the reservation so it is critical that our members have access to employment in other communities such as Sioux City and the surrounding area. There is no grocery store or other retail outlets within the reservation which can provide healthy alternatives for our members so it is vital to provide access to food stores and other retail outlets for necessities.

The educational opportunities on our reservation are limited to a community college with narrow degree options and only an associated level degree. This transit enables our tribal members to continue past that level of education or to pursue expanded degree areas not offered locally.
