The EEOICPA provides lump-sum compensation and medical benefits to current and former nuclear weapons workers whose illness is a result of working in the nuclear weapons industry. Survivors of qualified workers may also be entitled to benefits.

Covered illnesses include radiation-induced cancer, chronic beryllium disease, beryllium

sensitivity, chronic silicosis, or any illness due to exposure to toxic substances.

Representatives from the U.S. Department of Labor (DOL), U.S. Department of Energy and their Former Worker Program, the National Institute for Occupational Safety and Health (NIOSH), and the Office of the Ombudsman for DOL and NIOSH will be presenting on their roles in the

Program. The U.S. Department of Justice will also be in attendance.

Two separate presentations will be given. There will be a morning session for Claimants and Authorized Representatives, and a later session for Medical Providers. You will have a chance to ask questions of presenters during a Q&A session following the presentation.
