offset printer was searched as word(s) in all of the text fields. Results are sorted in relevancy ranked order.

Search results: 9 record(s) found in Agents table.  
- Acacia  
- Ferric chloride  
- Tetrafluoroboric acid  
- N-(2-Hydroxyethyl)ethylenediamine  
- Ammonium persulfate  
- Nickel and compounds  
- Bisphenol A diglycidyl ether  
- Colophony  
- Chromium and compounds

Search results: 1 record(s) found in Jobs table.  
- Printing Machine Operators

Search results: 2 record(s) found in Activities table.  
- Batik printing  
- Lithography printing

Search results: 7 record(s) found in Industries table.  
- Printed Circuit Assembly (Electronic Assembly) Manufacturing  
- Bare Printed Circuit Board Manufacturing  
- Other Electronic Component Manufacturing  
- Commercial Lithographic Printing  
- Electronic Connector Manufacturing  
- Graphic Design Services  
- PRINTING AND RELATED SUPPORT ACTIVITIES

Search results: 3 record(s) found in Job Tasks table.  
- Use chromates or dichromates in printing
- Use n-hexane as a solvent in glues, inks, coatings, or degreasers
- Use solvents in printing (platemaking or use solvent-based inks)

Search results: 1 record(s) found in Processes table.
