Press Conference - March 19, 2019.pdf.pdf

Portsmouth Gaseous Diffusion Plant ❖ ❖
The Radiation Deception Exposé Press Conference ❖

❖
CAO Welcome Center❖
342 Second Street, Portsmouth, Ohio, 45662❖ ❖

❖
FREE ADMISSION❖ AUDIENCE WELCOME TO SPEAK❖ ❖

❖
The criticality at the disordered Portsmouth Gaseous Diffusion Plant has hit an all-time high. Lies, from the tongues of PORTS, USEC/Centrus, DOE and EPA, have plagued the community's lives for over half of a century. Lets break their veil of deception. Now is the time to organize for truth and justice. ❖

❖
New evidence uncovered shows that the entire plant was and is contaminated with transuranics and fission products including, plutonium, neptunium, americium, radium, protactinium, technetium, etc. All of these elements are unstable and decay radioactively into other elements. ❖

❖
With this new evidence, workers' cases should be reopened so the sick workers do not have to keep jumping through loopholes. ❖

Now, DOE, EPA and the plant want to disassemble the plant piece-by-piece and bury it in an on-site waste disposal facility, which is directly above the Ohio Valley region's largest fresh-water aquifer, the Teays River aquifer. This is a deliberate attempt to slowly mass-murder millions of loving individuals who call it home.❖

We can not allow this to occur. We have a petition calling on Anne White, Assistant Secretary of Energy, to halt this decision by DOE and EPA and to reopen the record of decision on the radioactive waste dump.❖

SPEAKERS❖

❖
Vina Colley❖

President, PRESS (Portsmouth/Pikeont Residents for Environmental Safety and Security)❖ Co-founder, NNWJ (National Nuclear Workers for Justice)❖

❖
Dr. David Manuta❖

Former Chief Scientist at Portsmouth Gaseous Diffusion Plant❖

❖
Gary Sexton❖

Former worker/advocate❖

March 19, 2019
5 p.m. - 7 p.m.❖

❖ ❖ ❖
SAMPLES TAKEN FROM X-705

❖
Am = Americium❖ Pu = Plutonium❖ Np = Neptunium❖ U = Uranium❖ Pa = Protactinium❖ Th = Thorium❖
Ac = Actinium❖ Ra = Radium
