Subject: WORKER ADVOCATE FEEDBACK AND COMMENTS! 4/19/17 6:24 PM CST!

Importance: High

DR. MARKOWITZ, KIRK, AND FAYE,

ASBESTOS THAT HAS NOT BEEN REMEDIATED IN THE WORK PLACE AT THE PGPD AND OTHER CLOSED DOE SITES AND IT DOES NOT STOP EFFECTING WORKERS AT THESE SITES UNTILL FULLY REMEDIATED. DOE BUZZ SMITH (FORMER PADUCAH CITY COMMISSIONER IS NOW CONTROLLING " THE SAFETY REPORTING SYSTEMS." CURRENT WORKERS WHO DEVELOP PLURUAL PLAQUES WILL NEVER RECEIVE A "SIGNIFICANT FACTOR" STATEMENT (AFTER LOCKHEED MARTIN BOUGHT QTC) BECAUSE THE DEEOICP DIRECTOR CONTROLS THEIR CONTRACT PROVISIONS. AT PGDP, LOCKHEED MARTIN/ QTC HAS A CONFLICT OF INTEREST HAS BEEN DIRECTED NOT TO PERFORM CMC REPORTS, WHEN THE SEM LISTS THE CHEMICAL EFFECTS AND THEY ARE ALSO LISTED IN THE CDC NIOSH POCKET GUIDE.

Kirk is correct!

DOE remediation contractors at the PGDP are still being exposed today in the same C-720 building where "Converters" were rebuilt. The entire building ventilation system (air conditioning and heat) are still contaminated and a new remediation employee is exposed since the building has not been cleaned up! DOE and their contractors always say there is nothing here to hurt you, but they won't perform "Wipe Samples" to confirm the presence of beryllium, transuranics, much less asbestos.

USING ANY "SIGNIFICANT" LANGUAGE ONLY MEANS DIRECTOR LEITON WILL CALL LOCKHEED MARTIN CMC'S TO SIMPLY SAY, "THE EMPLOYEE'S EXPOSURE IS NOT SIGNIFICANT." DOCTORS DO NOT WANT TO BE INVOLVED IN WRITING LETTERS

THEY ARE NOT QUALIFIED, ESPECIALLY SINCE THE STATUTES AND REGULATIONS CANNOT BE CIRCUMVENTED BY AN INTERNAL PROCEDURE OR CMC'S OPINION. ASK FOR ALL CMC OPINIONS REQUESTED BY DEEOICP FOR CLAIMS REPRESENTED BY COMMONWEALTH ENVIRONMENTAL SERVICES, LLC? THERE IS A 100% DENIAL OF "SIGNIFICANT" STANDARDS USED BY MS. LEITON. DOUBLE CHECK FOR YOURSELVES!

ANY EMPLOYEE THAT IS WORKING IN THE C-720 BUILDING **WILL BE EXPOSED TO CONTAMINATION SINCE THE PRESENCE OF CONTAMINATION HAS NOT BEEN MITIGATED.** WE HAVE SECRETARIES WITH CBD AND ASBESTOS LUNG DISEASES WHO WORKED WITHIN A FEW FEET OF THE MAINTENANCE WORKERS, ESPECIALLY IF YOU BREATHED IN THE C-720 BUILDING YOU ARE BEING EXPOSED TO THE ABOVE!

GARY S. VANDER BOEGH

"AR" C-0001

PS HAD 4 FAB HEARINGS TODAY AND THE FAB HEARING OFFICERS ARE NOT AWARE OF PROCEDURES, BULLETINS, CIRCULARS BEING RESCINDED AS OF TODAY! "POLICIES" ARE NOT ALLOWED TO CIRCUMVENT STATUTES AND REGULATIONS. PEREZ V. MORTGAGE BANKERS ASSOCIATION AND BRINGHAM V OWCP! ENTERED INTO EVIDENCE FOR 4 PGDP CLAIMANTS TODAY!

DOES THE NIOSH 29 CFR, 1900 CDC HAZARDOUS CHEMICAL POCKET GUIDE APPLY TO NUCLEAR WORKERS AND IF NOT WHO AND WHY HAS THIS HAPPENED, ESPECIALLY SINCE 12,000 TO 15,000 PGDP CLAIMS WERE DENIED WITHOUT REFERENCING THIS ESSENTIAL SAFETY GUIDE?

THE PADUCAH RESOURCE CENTER JEAN GROSS AND LARRY PAYNE SHOULD KNOW VERY WELL IT DOES APPLY ESPECIALLY THEY ALSO WORKED FOR MARTIN MARIETTA AND LOCKHEED MARTIN AS I DID!!!!!!DOES THE BOARD KNOW IF GREG LEWIS WILL AGREE THAT OSHA APPLIES AT ALL DOE SITES?
