**To:** DOL Energy Advisory Board Information  
**Subject:** Job titles at EEOICPA facilities

Hi,

I just finished reviewing data from the Department of Energy's (DOE) Comprehensive Epidemiologic Data Resource (CEDR). I've put together a report, *Job Title Data in Comprehensive Epidemiologic Data Resource (CEDR) which need to be included in the Site Exposure Matrix (SEM)*, that is available at [https://www.coldwarpatriots.org/wp-content/uploads/2017/03/Site-Exposure-Matrix\\_Job-Title-Data-In-CEDR\\_03012017.pdf](https://www.coldwarpatriots.org/wp-content/uploads/2017/03/Site-Exposure-Matrix_Job-Title-Data-In-CEDR_03012017.pdf). The report has information in it that I think will be of interest to the ABTSWH SEM subcommittee.

The CEDR database contains data from DOE studies on nuclear weapons workers. Some of the information is job titles of nuclear weapons workers at various DOE facilities. I contacted Paragon Tech., the company that DOL contracts with to manage the SEM and was told that they have not reviewed the information in CEDR. So I reviewed it and put together the above report. When I reviewed the information I found that many job titles are listed in CEDR that are not listed in the SEM.

I hope the board will find it useful. Feel free to contact me if you have any questions.
