**Subject:** Portsmouth Gaseous Diffusion Plant criminal corruption  
**Date:** Wednesday, October 19, 2016 12:53:02 AM

---

To whom it may concern,

but, this e-mail is particularly for Dr. Markowitz.

On the case concerning the Portsmouth Gaseous Diffusion Plant (PGDP):

Former security guard – now suffering the health consequences – of a corruptly ran facility, Jeff Walburn has testified in front of the United States Senate and now, 16 years later, still investigates the criminality of the plant with hard documents to prove his conviction against DOE and key figures of the plant. He has sent numerous e-mails to the DOJ, DOL, and numerous other agencies, groups and political figures, but no one is brave enough to use their role or power as an elected official or department member to bring justice to the perpetrators of the former Portsmouth Gaseous Diffusion Plant. Why is this? Why has the Energy Department and Labor Department been allowed for so long to get away with the mass murdering of countless individuals so managers can stuff their pockets for maintaining a "clean" facility?

Who is willing to stand up and speak up for the truth and demand that justice be brought to the individuals who have remained devoid of any proper investigating – the plant managers, department managers, project managers and subcontractors? When will you use your seat justly? Will you even speak of this publicly?

On behalf of the thousands and possibly millions of people effected by the malpractices at the Portsmouth Gaseous Diffusion Plant, we are hereby demanding a proper, thorough investigation into the high crimes at the former operational PGDP. You will be needing documents to prove the very high level of criminality committed by individuals. The documents will be provided when this is opened up as a formal case.

To hear our interview with Jeff Walburn and other investigators on this case, visit this link:

I very much appreciate your time and will very much appreciate your response,

With justice,
