FROM: *Rachel P. Leiton*
Rachel P. Leiton
Director, DEEOIC

SUBJECT: Accountability Review Findings
Denver FAB
DEEOIC
Review Dates: July 9 - 13, 2012

This memorandum summarizes the findings of the Denver Final Adjudication Branch (FAD) Accountability Review (AR) conducted July 9 - 13, 2012. Attached are copies of the final reports, which include the Accountability Review Findings (AR-1), Overall Summary Report, Full Indicator Summary Scoresheet Report, Indicator Remarks by Case, and Case Comments. No Correction Action (AR-10) was necessary.

The findings from the AR show that the FAD far exceeded the acceptable rating of 85% in each of the relevant elements for which they were rated. In view of the minimal amount of deficiencies noted by the review team, the FAD Manager provided no comments to the findings. It was agreed that deficiencies would be described in greater detail in future Accountability Reviews.

In conclusion, I find that the FAD exceeded the acceptable rating in all categories, and I commend the FAD Manager and the staff for a job well done. I would also like to thank you and your team for the assistance provided in preparing for the review. If you have any questions or concerns regarding this memorandum or the attachments, please contact me at 202-693-0081.
