SUBJECT: Accountability Review Findings
Final Adjudication Branch, National Office
DEEOIC
Review Dates: August 3 - 7, 2015

This memorandum summarizes the findings of the Final Adjudication Branch National Office Accountability Review (AR) conducted August 3 - 7, 2015. Attached are copies of the final reports, which include the Accountability Review Findings (AR-1) for each category, Weighted AR-1 Overall Summary Report, Indicator Remarks by Case and Category, and Case Comments.

The categories reviewed included Category 1 - Response to Hearing Requests; Category 2 - Addressing Claimant Objections; Category 3 - FAB Decisions; and Category 4 - Reconsiderations. The findings for FAB National Office show that the office exceeded the acceptable rating of 85% in all categories. The ratings are: Category 1 - 93%, Category 2 - 88%, Category 3 - 94%, and Category 4 - 100%. Since the ratings are over the acceptable level of 85% in all categories, no corrective action report (AR-10) is required.

I commend you and the staff for a job well done. I would also like to thank you and your team for the assistance provided in preparing for the review. If you have any questions or concerns regarding this memorandum or the attachments, please contact me at 202-693-0081.
