What are the Minimum Age Standards for Non-Agricultural Employment?

Once you reach 18 years of age, you are no longer subject to the federal youth employment provisions. Youths age 16 and 17 can work for unlimited hours in an occupation other than those declared hazardous by the Secretary of Labor. If you are 14 or 15 years old, you can work outside school hours in a variety of non-manufacturing and non-hazardous jobs for limited periods of time and under specified conditions. Any work not specifically permitted is prohibited. If you are under 14 years old, you cannot work in non-agricultural occupations covered by the FLSA. You can only do work exempt from the FLSA (such as delivering newspapers and acting). Children of any age are generally permitted to work for businesses entirely owned by their parents, except those under age 16 cannot be employed in mining or manufacturing and no one under 18 can be employed in any occupation the Secretary of Labor has declared to be hazardous.

Minors Under 18 are Prohibited From Working in the Following Occupations Declared Hazardous by the Secretary of Labor:

- Work in most jobs where explosives are manufactured or stored.
- Driving a motor vehicle or work as an outside helper on motor vehicles. Seventeen-year-olds can drive under strictly limited conditions.
- Most jobs in coal mining.
- Occupations in forest fire fighting, forest fire prevention, timber tract, forestry service, and occupations in logging and sawmilling.
- Operating most power-driven woodworking machines.
- Occupations where minors are exposed to radioactive materials.
- Operating, riding on, and assisting in operating most power-driven hoisting apparatus.
- Operating certain power-driven metal-working machines.
- Mining at metal mines, quarries, aggregate mines, etc.
- Operating power-driven meat processing machines, such as meat slicers, as well as cleaning the equipment. Also working most jobs in meat and poultry slaughtering and packing plants.
- Operating power-driven bakery machines.
- Operating all balers, compactors, and power-driven paper-products machines. Youths age 16 and 17 can load, but not operate or unload, certain scrap paper balers and paper box compactors under very specific guidelines.
- Manufacturing brick, tile, and related products.
- Operating power-driven circular saws, band saws, guillotine shears, chain saws, reciprocating saws, wood chippers, and abrasive cutting discs.
- Wrecking, demolition, and ship-breaking work.
- Roofing operations and work performed on or about a roof.
- Trenching and excavation operations.

The regulations provide a limited exemption from hazardous occupations 5, 8, 10, 12, 14, 16 and 17 for apprentices and student-learners who are at least 16 years of age and enrolled in approved programs.
**Youth Employment Guide for Agricultural Work**

The Fair Labor Standards Act (FLSA) of 1938 sets standards for youth employment.

**What are the minimum age standards for agricultural employment?**

**Youths age 16 and above** can work in any farm job at any time.

**Youths age 14 and 15** can work outside school hours in jobs not declared hazardous by the Secretary of Labor.

**Youths age 12 and 13** can work outside of school hours in non-hazardous jobs on farms that also employ their parent(s) or with written parental consent.

**Youths under 12** can work outside of school hours in non-hazardous jobs with parental consent, but **only** on farms where none of the employees are subject to the minimum wage requirements of the FLSA.

**Youths of any age** can work at any time in any job on a farm owned or operated by their parents.

**If you are under 16 you cannot work in the following occupations declared hazardous by the Secretary of Labor:**

1. Operating a tractor of over 20 PTO horsepower, or connecting or disconnecting its implements.
2. Operating or working with a corn picker, cotton picker, grain combine, hay mower, forage harvester, hay baler, potato digger, mobile pea viner, feed grinder, crop dryer, forage blower, auger conveyor, unloading mechanism of a nongravity-type self-unloading wagon or trailer, power post-hole digger, power post driver, or nonwalking-type rotary tiller.
3. Operating or working with a trencher or earthmoving equipment, fork lift, potato combine, or power-driven circular, band or chain saw.
4. Working in a yard, pen, or stall occupied by a bull, boar, or stud horse maintained for breeding purposes; a sow with suckling pigs; or a cow with a newborn calf (with umbilical cord present).
5. Felling, buckling, skidding, loading, or unloading timber with a butt diameter or more than 6 inches.
6. Working from a ladder or scaffold at a height of over 20 feet.
7. Driving a bus, truck, or automobile to transport passengers, or riding on a tractor as a passenger or helper.
8. Working inside a fruit, forage, or grain storage designed to retain an oxygen-deficient or toxic atmosphere; an upright silo within two weeks after silage has been added or when a top unloading device is in operating position; a manure pit; or a horizontal silo while operating a tractor for packing purposes.
9. Handling or applying toxic agricultural chemical identified by the words “danger,” “poison,” or “warning” or with a skull and crossbones on the label.
10. Handling or using explosives.
11. Transporting, transferring, or applying anhydrous ammonia.

The hazardous occupations prohibition does not apply to youths employed on farms owned or operated by their parents.

14-and 15-year-old student learners enrolled in vocational agricultural programs are exempt from certain hazardous occupations when certain requirements are met. Minors 14 and 15 who hold certificates of completion of training under a 4-H or vocational agriculture training program can work outside school hours on certain equipment for which they have been trained.

**Enforcement and Penalties**

Investigators of the Wage and Hour Division located across the U.S. enforce the youth employment provisions of the FLSA. As the Secretary of Labor’s representatives, they have the authority to conduct investigations and gather data on wages, hours, and other employment conditions or practices in order to assess compliance with all the provisions of the FLSA. An employer that violates the youth employment provisions may be subject to civil money penalties.
