

ATTACHMENT 3

Grants-Based Performance Measure Weighting Tool (Desk Aid)

This tool calculates the **Weighted** Veterans' Entered Employment Rate (EER) with only three entries.

The DVOP - VETS 200 A Report is the source of the data items to be entered and matched.

(Note: Data filled in is for illustration purposes only)

First Data Entry Step

Enter the Total Veterans & Eligible Persons Entered Employment Following Staff Assisted Services (EEFSAS) Numerator. This appears in the VETS 200 A Report in Column C, Row 17.

1,025

Second Data Entry Step

Enter the Total Veterans & Eligible Persons EEFSAS Denominator. This appears in the VETS 200 A Report in Column C, Row 18.

1,450

First Calculation Step

This is the **Calculated Total Veterans & Eligible Persons EEFSAS Rate** (*rounded to the nearest percentage*) and should **match** Column C, Row 19 of the VETS 200 A Report : (EEFSAS Numerator / EEFSAS Denominator).

71%

Third Data Entry Step

Enter the Entered Employment Following Intensive Services Numerator. This appears in the VETS 200 A Report in Column C, Row 20.

210

Second Calculation Step

This is the **Calculated Veterans' Receiving Intensive Services Weighting Factor** (*inflates by 25% and rounds to the nearest whole number*): (Entered Employment Following Intensive Services Numerator) X 0.25 =

53

Third Calculation Step

This is the **Calculated Weighted Veterans' Numerator**: (Veterans Receiving Intensive Services Numerator + Calculated Veterans Receiving Intensive Services Weighting Factor)

1,078

Final Calculation Step

This is the **Calculated Weighted Veterans' Entered Employment Rate**: (Calculated Weighted Veterans' Numerator / Total Veterans & Eligible Persons EEFSAS Denominator *rounded to nearest percentage* .)

74%
