**A facilitated listening session to discuss the challenges for women veterans seeking employment.**

We look forward to hearing your ideas on how to tackle women veteran employment challenges.

We hope you will join us!

**Areas we may explore to help us better understand the challenges of women veterans while seeking employment and a path to economic security include:**

- What are the challenges facing women veterans while seeking employment?
- How do factors such as childcare, transportation, licensing/credentialing, MST, PTSD impact women veterans' path to economic security?
- Is there a real issue with women veterans not self-identifying as "veterans"? If so, what do we think the impact is?
- What are different communication methods the women veterans' community may respond to best to ensure access to resources and employment opportunities?

**Feel free to share this invitation with others who have ideas about how we can help our nation's women veterans.**
