Introduction

This report is prepared in accordance with Title 38, United States Code, Sections 4107(c), 4212(c), 4215(d), and 2021(d). The report describes the programs and compliance activities of the Department of Labor's (DOL) Veterans' Employment and Training Service (VETS).

PROGRAM YEAR AND FISCAL YEAR

Some of the workforce activities described in this report are provided on a Program Year (PY) basis to align with the DOL Employment and Training Administration's (ETA) program reporting, while others operate on a Fiscal Year (FY) basis. Because only one quarter of PY 2013 occurred during FY 2013, the performance measure data reported for 2013 are data for PY 2012, which ended June 30, 2013. Information from the prior PY and FY has been included in this report to facilitate comparisons of results.

VETS' MISSION STATEMENT

To serve America's veterans and separating service members by preparing them for meaningful careers, providing employment resources and expertise, and protecting their employment rights.

Executive Summary

In Fiscal Year 2013, VETS continued to administer programs to meet the employment and training needs of veterans and eligible spouses, especially those with significant barriers to employment, and to connect employers across the country with work-ready veterans.

The **Jobs for Veterans State Grants (JVSG)** program provides funding to states for Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representative (LVER) staff. DVOP specialists provide intensive services to veterans, which include a comprehensive and specialized assessment of skill levels and job training needs, the development of an individual development plan, group individual career counseling and planning, and short-term skills development (including interview and communication skills). LVER staff promote the hiring of veterans in communities through outreach activities that build relationships with local employers.

The **Homeless Veterans' Reintegration Program (HVRP)** continues to address the most vulnerable veteran population by reintegrating homeless veterans into society and the workforce. As in the past, for a relatively small investment in FY 2013, the HVRP successfully helped place thousands of previously homeless veterans on a path to self-sufficiency.

The **Transition Assistance Program (TAP) DOL Employment Workshop** provides critical assistance to transitioning service members and their spouses by giving them the tools necessary for a successful transition from military to civilian life. The VOW to Hire Heroes (VOW) Act (Title II of P.L. 112-56 enacted in November 2011) mandated that nearly all transitioning service members participate in the Employment Workshop.

In addition, VETS receives and investigates claims arising under the **Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA)**, 38 U.S.C. 4301-4335. The

Act prohibits discrimination in employment based on prior service in the uniformed services, an individual's current service in the uniformed services, or intent to join the uniformed services. USERRA also provides reemployment rights with the pre-service employer following qualifying service in the uniformed services. USERRA also prohibits discrimination against individuals who attempt to enforce their rights under USERRA and prohibits retaliation against those who testify in any proceeding under the Act. VETS provides its USERRA Annual Report to Congress each year, which includes more detailed information regarding program and enforcement outcomes.

Under the **Veterans' Employment Opportunities Act** (VEOA), 5 U.S.C. 3330a-3330c, VETS is responsible for investigating claims alleging a Federal agency's failure to apply Veterans' Preference in hiring or during a reduction-in-force, and claims from veterans alleging a lack of access to a Federal agency's covered employment opportunities.

VETS is also responsible for collecting annual reports from Federal contractors. The VETS-100 report applies to government contracts entered into prior to December 1, 2003, with a value of \$25,000 or greater. The VETS-100A applies to government contracts entered into on or after December 1, 2003, with a value of \$100,000 or greater. The reports include the total number of a contractor's employees who belong to the categories of veterans protected under the Vietnam Era Veterans' Reemployment Assistance Act of 1974 (VEVRAA), 38 U.S.C. 4212(d), and the total number of those employees who were hired during the period covered by the report.

VETS routinely collaborates with other component agencies within DOL, as well as other Federal agencies, to carry out its programmatic and enforcement activities on behalf of the Nation's service members.

I. THE WORKFORCE INVESTMENT SYSTEM

VETS coordinates with DOL's Employment and Training Administration (ETA) to contribute to the national workforce investment system – a system that supports economic growth and provides workers and employers with critical resources and supports to maximize employment opportunities. Each year, more than 18 million Americans, including nearly 1.4 million veterans, receive employment assistance through the workforce investment system. This assistance may include job search services, career planning and counseling, or job training.

Primarily, the workforce investment system offers assistance through the nation-wide network of American Job Centers, which includes DOL programs as well as other state, local and Federal partners. Below are the programs administered by DOL:

VETS-Administered Programs

- Jobs for Veterans State Grants (JVSG) Program (discussed further on page 7)

ETA-Administered Programs

- Workforce Investment Act (WIA) Adult, Dislocated Worker and Youth Programs¹;
- Wagner-Peyser Act Employment Service Programs²;
- Trade Adjustment Assistance Programs under the Trade Act of 1974³;
- National Emergency Grants (NEG)⁴;
- Senior Community Service Employment Program⁵;
- Indian & Native American Program⁶;
- Migrant & Seasonal Farm Worker Program⁷;
- Projects authorized under WIA §171, including grants to smaller or grassroots entities such as faith-based and community organizations, and grants under the Reintegration of Ex-Offenders Program;⁸ and,
- National Registered Apprenticeship System.

As these programs are administered by VETS' workforce partner, ETA, they will be discussed in further detail on page 23 of this report.

¹ Workforce Investment Act of 1998, 29 U.S.C. 2801, *et seq.*

² Wagner-Peyser Act of 1933, 29 U.S.C. 49, *et seq.*

³ Trade Act of 1974, 19 U.S.C. 2101-2321 and 2395.

⁴ Workforce Investment Act of 1998, 29 U.S.C. 2918.

⁵ Title V of the Older Americans Act of 1965, as amended, 42 U.S.C. 3056, *et seq.*

⁶ Workforce Investment Act of 1998, 29 U.S.C. 2911

⁷ Workforce Investment Act of 1998, 29 U.S.C. 2912.

⁸ Workforce Investment Act of 1998, 29 U.S.C. 2916.

Priority of Service for Veterans in the Workforce Investment System

Section 2 of the Jobs for Veterans Act (JVA) of 2002, as codified in 38 U.S.C. 4215, established “Priority of Service” for veterans, which allows veterans and their eligible spouses to receive priority access to workforce training programs directly funded, in whole or in part, by DOL. Priority of Service applies both to program participation and to priority access to the full range of services offered by each DOL-funded program. To obtain Priority of Service, a veteran or eligible spouse must meet the statutory definition of a “covered person”⁹, as well as other statutory requirements that pertain to the program for which services are sought.

The Department is committed to Priority of Service for veterans. Priority of Service will continue to play a critical role in assisting military personnel separating from active duty to transition into the civilian workforce.

The Vow to Hire Heroes Act amended 38 U.S.C. 4215 to require that this report include an evaluation on whether eligible veterans receive Priority of Service and are fully served when accessing Departmental programs. Under 38 U.S.C. 4215(d), this evaluation must include: 1) an analysis of Priority of Service implementation at the local level; 2) an analysis of whether the representation of veterans in DOL programs is proportional to the representation of veterans in the labor market; and 3) performance measures developed by the Secretary to ensure that Priority of Service is being fully implemented.

In FY 2014, the Department’s Chief Evaluation Office will procure a contract to analyze American Job Center (AJC) participant data, to include the timeliness of services to veterans and nonveterans. In addition to gaining a better understanding of AJC customer demographics, services, and outcomes, VETS and ETA will use this analysis to inform the development of a priority of service metric.

II. Performance Management

VETS programs address the Department’s Strategic Objective: *Advance employment opportunities for U.S. Workers in 21st century demand sectors and occupations using proven training models and through increased employer engagement and partnerships.* As is more fully

⁹ The term “covered person” under 38 U.S.C. § 4215 means any of the following individuals:

- A veteran,
- The spouse of any of the following:
 - i. Any veteran who died of a service-connected disability.
 - ii. Any member of the Armed Forces serving on active duty who, at the time of application for assistance under this section, is listed, pursuant to section 556 of title 37 and regulations issued thereunder, by the Secretary concerned in one or more of the following categories and has been so listed for a total of more than 90 days: missing in action, captured in line of duty by a hostile force, or forcibly detained or interned in line of duty by a foreign government or power.
 - iii. Any veteran who has a total disability resulting from a service-connected disability.
 - iv. Any veteran who died while a disability so evaluated was in existence.

developed below, VETS programs have materially contributed to this objective, yielding favorable results for service members who are transitioning to the civilian workforce.

COMMON MEASURES USED TO EVALUATE PERFORMANCE

In PY 2012, VETS continued to rely upon a set of “Common Measures,” which allows for a comparison of outcomes across programs, to assess the performance of the American Job Center system in providing employment and training services to veterans. VETS uses three Common Measures to evaluate the efficacy of its grant programs’ services to veterans, and to compare them to similar programs administered by ETA, which serves the entire American workforce:

- **Entered Employment Rate (EER)**, which is the percentage of participants served who are employed in the first quarter after exit from the program. *This measure answers the question, “How many unemployed people went to work after receiving services?”*
- **Employment Retention Rate (ERR)**, which is the percentage of program participants who entered employment and who are still employed in the second and third quarters following their exit from the program. *This measure answers the question, “How many of those employed after receiving services remained at work for at least six months after receiving services?”*
- **Average Earnings (AE) for six months**, which is calculated based on the average of wages paid to program participants who entered employment and who are still employed in the second and third quarters following the quarter in which they exited the program. *This measure answers the question, “What are the average six month earnings of individuals who are employed for at least six months after receiving services?”*

DOL measures outcomes for all participants in programs of the workforce investment system. For its part, VETS measures outcomes for Common Measures in its formula grants and competitive grants programs, all of which are discussed in more detail in the next eight pages of this report.

Jobs for Veterans State Grants (JVSG)

VETS offers employment and training services at approximately 1,490 American Job Centers and other locations, through the JVSG program. This grant program assists veterans with significant barriers to employment and other eligible individuals, to facilitate their transition to civilian employment.

Through the JVSG program, VETS provides funds to states to support two types of staff positions: Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representative (LVER) staff, both of which are described in detail below. VETS requires each state to provide both a five-year plan and an annual update to the plan, which outlines that necessary staff are employed to carry out the provisions of the JVSG program. In the event that states fail to meet the staffing levels outlined in the plan, VETS may arrange for corrective action. This plan includes methods for reaching the veteran population, services to veterans, and cooperative arrangements between states and private industry, educational institutions, trade associations, and labor unions to improve services and outcomes.

DISABLED VETERANS' OUTREACH PROGRAM

The primary duty of DVOP specialists is to provide intensive services to veterans with significant barriers to employment, or other populations designated by the Secretary. Intensive services are designed to mitigate an individual's barriers to employment through comprehensive and specialized assessments of skill levels and needs, the development of an individual employment plan, group and individual career counseling and planning, and short-term instruction to augment skills development (such as interview and communication skills). DVOP specialists may be located at American Job Centers, or co-located with other service providers, such as the Department of Veterans Affairs (VA).

LOCAL VETERANS' EMPLOYMENT REPRESENTATIVE

LVER staff conduct job development activities to facilitate veterans' transition into civilian employment. This includes outreach to and engagement of business and community leaders, to identify job prospects for veterans and promote veteran hiring. LVER staff coordinate with DVOP specialists and other American Job Center staff to seamlessly transition veteran clients into appropriate employment in the local community.

JVSG REFOCUSING INITIATIVE

Throughout FY 2013, VETS and ETA developed a joint refocusing strategy that provided clarifying guidance to state workforce agencies (SWAs) on the roles and responsibilities of the Wagner-Peyser (WP), Workforce Investment Act (WIA), and JVSG programs.

This guidance consists of three main pillars:

- Ensuring veteran participants are referred to the appropriate program (WP/WIA, JVSG);
- Ensuring DVOP specialists and LVER staff are focused on performing their statutorily-mandated responsibilities; and,
- Increasing the rate of intensive services to JVSG eligible participants.

DOL released JVSG refocusing guidance to SWAs in FY 2014, and continues to provide technical assistance and training to American Job Centers staff to ensure proper implementation of the guidance. Additionally, VETS will begin formal audits of American Job Centers in FY 2014 to assess compliance with Title 38, as required by the VOW Act.

Development and Training for DVOP Specialists and LVER Staff

Newly-appointed DVOP specialists and LVER staff must receive job-related training within 18 months of their appointment. This training is provided by the National Veterans’ Employment and Training Institute, which is administered by VETS. In FY 2013 100% of staff completed training, including 284 staff completing case management courses, 522 staff completing labor employment specialist courses, and 325 staff completing employment partnership promotion courses.

DVOP AND LVER STAFFING LEVELS

VETS awards JVSG grant funds by formula to each state, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands. The formula is based on the following factors:

1. The number of unemployed individuals in the general population in each state, compared with the total number of unemployed individuals in the general population across all states; and
2. The number of veterans in the civilian labor force in each state, compared with the total number of veterans in the civilian labor force across all states.

In accordance with the Jobs for Veterans Act, and policy guidance regarding the mix of DVOP Specialists and LVER staff, each state may establish an appropriate ratio of DVOP specialists and LVER staff to meet the needs of veterans in the state. This ratio is based upon local economic conditions and a state’s plan for meeting the employment service needs of the program’s target population. The table below provides FY 2013 funding and staffing levels for DVOP specialists and LVER staff¹⁰.

Table 1. DVOP Specialists and LVER Staff Funding

DVOP Specialists	FY 2012	FY 2013
DVOP Funding	\$86,413,384	\$89,616,600
Projected DVOP Staffing	1,186	1236
Actual DVOP Positions Supported	1,062	1099.50
Average Cost per Position	\$81,365	\$81,507
LVER Staff	FY 2012	FY 2013
LVER Funding	\$72,665,247	\$67,721,000
Projected LVER Staffing	1045	945
Actual LVER Positions Supported	900	822

¹⁰ As reported in the Veterans’ Employment and Training Operations and Program Activity Report (VOPAR) System, FY 2013 Staffing, Spending and Funding Balance Worksheet.

Average Cost per Position	\$80,739	\$82,346
---------------------------	----------	----------

Approximately three percent of the JVSG appropriation is available for transfer to the Agency's Federal Administration budget activity for administrative and support costs associated with operating the program.

JVSG Services for Participants

In PY 2012, 450,843 participants¹¹ were referred to JVSG grantees that provide services to the specific categories of veterans shown in the table below. Please note, however, that the categories in the table below include overlapping data because a veteran may be counted under more than one category (e.g., a veteran could be categorized as both female and as a recently-separated veteran). Veterans are identified under these categories during the initial intake process at American Job Centers.

Table 2. JVSG Participant Statistics

Population or Sub-Population	PY 2011	PY 2012
Veterans and other eligible persons served	474,063	450,843
Disabled veterans	79,979 (17%)	85,620 (17%)
Campaign badge veterans ¹²	178,198 (38%)	183,782 (37%)
Recently separated veterans	74,322 (16%)	87,132 (18%)
Female veterans	48,865 (10%)	54,158 (11%)
Transitioning service members ¹³	18,095 (4%)	12,863 (3%)

Demographics of Participants Who Received Staff-Assisted Services

While the table above provides data on all participants referred to JVSG, a subset of those participants received staff-assisted services. The paragraphs below provide a breakout of participants receiving staff assisted services in Program Years 2011 and 2012.

PY 2011 PARTICIPANTS RECEIVING STAFF-ASSISTED SERVICES

In PY 2011, DVOP specialists provided staff-assisted services to 250,830 transitioning service members, veterans and other eligible persons. Of this total, 47,793 (18 percent) were disabled veterans, 85,912 (33 percent) were campaign badge veterans, 8,382 (3 percent) were transitioning service members and 36,033 (14 percent) were recently separated veterans.

¹¹ This figure represents the unduplicated participant count of veterans and transitioning service members served by DVOP specialists and LVER staff, as reported in the Labor Exchange Reporting System, VETS-200C: Participant Services and Outcomes of DVOP/LVER, and by the ETA form 9133 for the States of Texas and Pennsylvania.

¹² A veteran who served on active duty in the armed forces during a war or in a campaign or expedition for which a campaign badge has been authorized.

¹³ This number reflects Transitioning Service Members who received employment services from JVSG staff, not those participating in the Transition Assistance Program's DOL Employment Workshop. Those workshops are now facilitated by contract staff. Though Transitioning Service Members were not included in the eligible population for JVSG services in Program Year 2011 and 2012, referral processes and continued high demand for services at American Job Centers across the country resulted in a portion of Transitioning Service Members receiving JVSG services.

PY 2012 PARTICIPANTS RECEIVING STAFF-ASSISTED SERVICES

In comparison, in PY 2012, DVOP specialists provided staff-assisted services to 283,688 transitioning service members, veterans and other eligible persons. Of this total, 56,503 (20 percent) were disabled veterans, 118,589 (42 percent) were campaign badge veterans, 6,539 (2 percent) were transitioning service members, and 54,166 (19 percent) were recently separated veterans.

Table 3. PY 2012 Employment Outcomes of Participants served by DVOP Specialists

Employment Outcome	Veterans/ Eligible Persons		Disabled Veterans	
	PY 2011	PY 2012	PY 2011	PY 2012
Number of Veterans who Entered Employment following Staff-Assisted Services	98,045	128,754	16,495	20,743
Entered Employment Rate	50%	54%	47%	49%
Employment Retention Rate	78%	80%	78%	79%

The following table provides the performance history for each of VETS' Common Measures, for both all veteran participants and veterans with a disability¹⁴.

Table 4 Common Measure Results, PY 2011-2012, Wagner-Peyser Employment Service and Jobs for Veterans State Grants

Measure	PY 2011 Result	PY 2012 Result
Percent of Veterans employed in the first quarter after exit (EER)	48.3%	50.2%
Percent of Veterans employed in the first quarter after exit still employed in 2nd & 3rd quarters after exit (ERR)	78.7%	79.6%
Average six month earnings of Veterans in the second and third quarter after exit (AE)	\$17,012	\$16,870
Percent of <i>disabled</i> Veterans employed in the first quarter after exit (EER)	45.2%	47.3%
Percent of <i>disabled</i> Veterans employed in the first quarter after exit still employed in 2nd & 3rd quarters after exit (ERR)	78.0%	78.4%

¹⁴ As reported in the Labor Exchange Reporting System, ETA-9002D and ETA forms 9132 and 9133 for the states of Texas and Pennsylvania.

Average six month earnings of <i>disabled</i> Veterans in the second and third quarter after exit (AE)	\$18,108	\$17,134
--	----------	----------

PY 2012 PERFORMANCE

As shown in the preceding table, employment entry and retention for both veterans and disabled veterans has improved from the previous year. This improvement is primarily a result of improving economic conditions. However, average earnings have declined for both groups.

WEIGHTED OUTCOMES

DVOP and LVER program measures also take into account the difficulty of serving veterans with particular barriers to employment by reporting on “weighted” outcomes. Table 6 depicts the weighted outcomes achieved as a result of intensive services provided by DVOP specialists and LVER staff during PY 2012, as compared with PY 2011. The weighted outcome measure was implemented following a recommendation from the Government Accountability Office (GAO) that DOL “implement a weighting system for the DVOP and LVER performance measures that takes into account the difficulty of serving veterans with particular barriers to employment.”¹⁵ Under this system, a veteran who receives intensive services through the JVSG program receives a value, or weight, of 1.25, as opposed to all other participants, who receive a weight of 1.0.

Veterans with significant barriers to employment are referred to DVOP specialists to receive intensive services. These veterans include disabled veterans¹⁶ and special disabled veterans¹⁷, as well as other categories of veterans prioritized by the Secretary of Labor. Minimally, a veteran who receives intensive services: 1) is provided a skills assessment and 2) is assisted by developing a written individual employment plan.

The results of the weighted entered employment rate measure indicate that veterans receiving intensive services fared better at entering employment than those who did not receive intensive services. VETS will continue to promote the use of intensive services for nearly all JVSG veteran participants.

Table 6. Weighted Measure Outcomes¹⁵

Weighted Veterans’ Measure	PY 2011	PY 2012
Number of Veterans who Received Services	378,087	353,556
Number of Veterans who Entered Employment (EE)	162,979	188,625

¹⁵ Government Accountability Office Report 07-594: Labor Could Improve Information on Reemployment Services, Outcomes, and Program Impact, May 2007.

¹⁶ A veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary; or, a person who was discharged or released from active duty because of a service-connected disability.

¹⁷ A disabled veteran who has received a disability rating of 30 percent or greater from the Department of Veterans Affairs.

Number of Veterans who received Intensive Services	101,026	144,230
Number of Veterans who EE after receiving Intensive Services	40,700	67,714
Un-Weighted Entered Employment Rate	50%	53%
Weighted Entered Employment Rate	53%	58%

IMPLEMENTING A UNIFORM NATIONAL THRESHOLD VETERANS' ENTERED EMPLOYMENT RATE

The Jobs for Veterans Act (JVA) amended 38 U.S.C. 4102A(c)(3)(B) to require that the Secretary of Labor establish, through regulations, a uniform national threshold Entered Employment Rate (UNTEER) for veterans, to evaluate states' performance in helping veterans meet their employment needs. The final rule (78 Fed. Reg. 15283) was published on March 11, 2013, with an effective date of May 10, 2013. In accordance with the final rule, the uniform threshold will first be applied to states' reported employment outcomes beginning in PY 2013 (or the period ending June 30, 2014).

The preamble to the final rule explains how the threshold will be used to determine if a low EER reflects deficiencies in a state's performance, or whether the low EER is attributable to other factors beyond the state's control. In cases where a state's EER reflects a deficiency in performance, the final rule sets forth procedures for the state to submit a corrective action plan for review and approval by DOL, as well as protocols for VETS field staff to provide technical assistance to the state agency to better help meet the employment needs of veterans.

INCENTIVE AWARD ANALYSIS

Under 38 U.S.C. 4102A and 4112, as amended by the JVA, VETS provides funds for performance incentive awards, to be administered by states, to recognize quality employment, training, and placement services. In particular, the statute reserves one percent of a state's total JVSG Program Year grant allocation to be used for the following:

- Encouraging the improvement and modernization of employment, training, and placement services for veterans; and
- Recognizing eligible employees and employment service offices for excellence in the provision of such services, or for having made demonstrable improvements in the provision of services to veterans.

Typically, states use these incentive funds to provide cash awards to individual recipients. However, a state may provide non-financial incentives in lieu of, or in combination with, cash awards, as outlined in its VETS-approved state Veterans' Services Plan.¹⁸ Further, states have the option to decline the allocation of incentive award funds. In FY 2013, 22 state agencies declined receipt of incentive award funds due to legislative restrictions, state policies, union agreements, or for other unspecified reasons.

¹⁸ State Veterans' Services Plans are developed by each state to describe the methods that will be used to provide specific services to veterans using prescribed funding levels.

In FY 2013, the accumulated, total set-aside by VETS for the incentive funds was \$1,596,000. Of this amount, \$982,000 was awarded to 32 state agencies (including agencies in the District of Columbia and the Virgin Islands).

Homeless Veterans' Reintegration Program (HVRP)

The Homeless Veterans' Reintegration Program (HVRP) provides employment and training services to help homeless veterans transition into meaningful employment and to develop effective methods to address the complex problems resulting in homelessness. HVRP is authorized under 38 U.S.C. 2021. This is the only nationwide, Federally-funded program focusing exclusively on the employment of veterans who are homeless.

HVRP funds are awarded to eligible entities through a competitive grant process outlined in an annual Solicitation for Grant Applications (SGA). Eligible entities in PY 2012 included state and local workforce investment boards; state and local public agencies; and private non-profit, for profit, and commercial entities. Grantees provide an array of services to homeless veterans through a holistic case management approach, which includes critical linkages to a variety of support services available in local communities. Successful grant applicants must specifically describe how their outreach to homeless veterans will build an effective level of collaboration with other entities, such as Grant and Per Diem (GPD) grantees, Housing and Urban Development and Veterans' Affairs Supportive Housing (HUD-VASH) grantees, and Health and Human Services (HHS) grantees.

Each HVRP participant receives customized employment and training services to address his or her specific barriers to employment. Services may include occupational, classroom, and on-the-job training, as well as job search, placement assistance, and post-placement follow-up services.

DVOP and LVER staffs also support HVRP grantees by providing critical resources to help grantees achieve job placement and retention goals through case management, direct employer contact, job development, and follow-up services.

In FY 2013, for the PY 2012 award cycle, Congress appropriated \$35.3 million to DOL for HVRP. Funds were awarded to 159 grantees. Specifically, 68 newly-competed grants were awarded, and 91 existing/current grantees were approved to receive second- or third-year funding. These include awards for two targeted programs designed to address the employment barriers of specific veteran populations:

- 21 grants, in 14 states and the District of Columbia, totaling over \$3.6 million, to support partnerships that ensure homeless female veterans and veterans with families have meaningful training and career opportunities; and
- 16 grants, in 13 states, totaling over \$3.8 million to support the Incarcerated Veterans' Transition Program.

In PY 2012, 17,480 homeless veterans were enrolled, of which 11,317 were placed in employment. See the following table for costs per participant, cost per placement, and average hourly wage at placement¹⁹.

Table 6. HVRP Participant Statistics, PY 2012

PY 2012 HVRP Program	Participants Enrolled	Average Cost per Participant	Average Cost Per Placement	Average Hourly Wage at Placement
Homeless Veterans' Reintegration Program	17,480	\$1,964	\$3,034	\$11.22
HVRP Subset: Homeless Female Veterans & Veterans with Families	1,433	\$2,424	\$3,656	\$12.24
HVRP Subset: Incarcerated Veterans' Transition Program	1,408	\$2,546	\$4,014	\$10.69

HOMELESS VETERANS' STAND DOWN GRANTS²⁰

In PY 2012, VETS utilized a portion of HVRP funds to support “Stand Down” events. These events, held in local communities, provide a variety of social services to homeless veterans. Stand Down events serve as a gateway into structured housing and reintegration programs. In particular, Stand Down organizers partner with local business and social services providers to offer the following critical services:

- Shower facilities/haircuts;
- Meals;
- Legal advice;
- Medical examinations and dental treatment;
- Hygiene care kits;
- Immunizations;
- Information on veterans' benefits;
- Information on training and employment opportunities;
- Information on support services, including child care; and
- Emotional support and camaraderie among other veterans.

VETS awarded \$666,110 during FY 2013 for 94 Stand Down events that provided direct services to homeless veterans.

¹⁹ As reported in the Veterans' Employment and Training Service Operations and Program Activity Report (VOPAR) System, HVRP Program Status Report.

²⁰ The maximum amount awarded to HVRP eligible entities to support a Stand Down event is \$7,000 for a one-day event and \$10,000 for a multi-day event.

Veterans' Workforce Investment Program (VWIP)

The Veterans' Workforce Investment Program (VWIP), as authorized under Section 168 of the Workforce Investment Act of 1998, provides enhanced support, through contracts or grants, to prepare eligible veterans for meaningful employment. Veterans eligible for VWIP services include the following:

- Veterans with service-connected disabilities (i.e., disabled veterans);
- Veterans who have significant barriers to employment;
- Veterans who served on active duty in the armed forces during a war or in a campaign/expedition for which a campaign badge has been authorized; and
- Veterans who were discharged four years or less prior to entering participation (which VWIP defines as recently-separated veterans).

VWIP participants receive the specific training required to re-enter the labor force. In addition, several VWIP grantees have designed programs specifically targeted to help minority, female, economically disadvantaged, homeless, and/or disabled veterans.

VWIP funds were awarded to eligible organizations through a competitive grant process. Selected grantees in PY 2012 included state and local workforce investment boards, state agencies, local public agencies, and private non-profit organizations, such as faith-based and community organizations.

During PY 2012, VWIP grants totaling nearly \$5.5 million provided training for 1,964 veterans, including 179 homeless veterans. A total of 1,052 veterans were placed in jobs, yielding a 53.6 percent placement rate²¹. VWIP funding for future grants was eliminated in FY 2013.

The Transition Assistance Program (TAP) - DOL Employment Workshop

The Transition Assistance Program (TAP) for separating and retiring service members and their spouses, provided under 10 U.S.C. 1144, is a cooperative effort between VETS, the Department of Defense (DoD), the Department of Education (ED), the Department of Homeland Security (DHS), and the Department of Veterans Affairs (VA). VETS administers the DOL Employment Workshop as a component of TAP, both domestically and at overseas installations, providing job preparation and employment services to assist transitioning service members in entering the civilian workforce. DOL provides Employment Workshops based on the demand of the Armed Services and the U.S. Coast Guard.

Since FY 2010, VETS has worked aggressively to improve the DOL Employment Workshop for exiting service members. Throughout FY 2012, the curriculum was updated to include more

²¹ As reported in the Veterans' Employment and Training Service Operations and Program Activity Report (VOPAR) System, VWIP Program Status Report.

current job search techniques and resources. The rollout of the curriculum was pilot-tested, and, as a result, revised to address the concerns raised during the pilot. The new curriculum was then phased-in, and, as of January 2013, all DOL Employment Workshops were using the new curriculum.

The DOL Employment Workshop is standardized so that all attending service members and their spouses receive the same high level of instruction. The redesigned course curriculum includes three days of classroom instruction that is more tightly focused on the mechanics of attaining and retaining employment, including:

- Military Skills Translation;
- Researching Labor Market Information;
- Resume Writing;
- Interviewing Skills; and
- Salary Negotiation

DOMESTIC WORKSHOP PERFORMANCE

As can be seen in the table below, DOL Employment Workshop activity increased between FY 2012 and FY 2013²².

Table 7. Domestic DOL Employment Workshops and Participants, FY 2012-2013

Category	FY 2012	FY 2013	Variance
Workshops	3,960	5,334	+1374 (+35%)
Participants	147,591	172,949	+25,358 (+17%)

OVERSEAS DOL EMPLOYMENT WORKSHOP PERFORMANCE

VETS currently delivers DOL Employment Workshops at sites in Bahrain, Belgium/Netherlands/Luxembourg (Benelux), Germany, Greece, Guam, Italy, Japan, Korea, Portugal, Turkey, Spain, and the United Kingdom.

The table below shows how the number of participants in the DOL Employment Workshop overseas increased between FY 2012 and FY 2013.

Table 8. Overseas TAP Workshops and Participants, FY 2012-2013

Category	FY 2012	FY 2013	Variance
Workshops	600	639	+39 (+0.7%)
Participants	12,591	14,088	+1,497 (+12%)

In coordination with DoD, VETS anticipated an increase in participation in the DOL Employment Workshop in FY 2013. This expected increase was due in part to the enactment of

²² As reported in the Veterans’ Employment and Training Service Operations and Program Activity Report (VOPAR) System, TAP National Roll-up Report.

the VOW to Hire Heroes Act of 2011 (Title II of P.L. 112-56), which made TAP participation mandatory for all separating and retiring active duty service members (with some exceptions), and to the drawdown of military operations abroad. As the drawdowns in Iraq and Afghanistan continue, VETS expects service member participation to remain high during FY 2014.

During FY 2013, VETS worked in conjunction with DoD, ED, DHS, the VA, and other Federal agencies to develop a new Memorandum of Understanding (MOU) to replace the existing agreement. This TAP MOU will be signed in FY 2014.

In January 2013, PL 112-260, the Dignified Burial and Other Veterans' Benefits Improvement Act of 2012, was signed into law. One provision of the law directs the Secretary of Labor to conduct a two-year pilot program to provide the TAP Employment Workshop to veterans and their spouses at locations other than military installations. In FY 2013, VETS completed the planning and coordination needed to launch the pilot in three states: Georgia, Washington, and West Virginia. VETS will conduct the pilot workshops in the first two quarters of FY 2014, and submit a report to Congress on its results.

Compliance and Investigations

VETS is responsible for administering three Federal compliance programs that provide employment protections for veterans, which are described below.

THE UNIFORMED SERVICES EMPLOYMENT & REEMPLOYMENT RIGHTS ACT OF 1994 (USERRA)

The Uniformed Services Employment and Reemployment Rights Act aims to: encourage non-career service in the uniformed services by eliminating or minimizing disadvantages to civilian careers and employment, which can result from such service; minimize the disruption to the lives of persons performing service in the uniformed services, as well as to their employers, their fellow employees, and their communities, by providing for the prompt reemployment of such persons upon their completion of such service; and to prohibit discrimination against persons because of their service in the uniformed services.

Veterans, under this Act, have three opportunities to resolve disputes concerning employment protection:

1. Informal Mediation - The claimant may request that DoD's Employer Support of the Guard and Reserve (ESGR) Ombudsman Services help resolve the issue through informal mediation;
2. Formal Complaint for Formal Investigation and Resolution - If the issue cannot be resolved through informal mediation, or if the claimant wishes to bypass informal mediation, he or she may file a complaint with VETS for formal investigation and resolution; and
3. Referral to Department of Justice (DOJ) or U.S. Office of Special Counsel (OSC) - If VETS is unable to resolve the complaint, the claimant may request that the case be referred to either DOJ (in the case of a private, state, or local government employer), or OSC (for Federal employees) for further review and possible representation by

DOJ in Federal district court or by OSC before the Merit Systems Protection Board. Claimants may also withdraw their complaint at any time to pursue enforcement at their own expense, either pro se or with the assistance of counsel.

VETS also provides a USERRA Advisor (www.dol.gov/elaws/userra.htm), which assists veterans in understanding employee eligibility and job entitlements, employer obligations, benefits and remedies under USERRA. This Advisor also assists employees in determining whether they appear to have valid complaints and provides the ability to electronically file USERRA complaints.

In FY 2013, VETS opened 1,144 USERRA cases. This figure does not include cases transferred to OSC under the terms of a statutorily-mandated demonstration project whereby VETS transfers roughly half of the Federal-sector USERRA cases to OSC for review and full investigation. Nor does it include 4 cases referred to OSC that contained additional allegations of prohibited personnel practices (PPP).²³ Further details of VETS' USERRA enforcement activities are provided in the Department's Annual USERRA report to Congress.

VETERANS' EMPLOYMENT OPPORTUNITIES ACT (VEOA)

Under 5 U.S.C. 3304(f), as added by VEOA, preference-eligible persons, and those persons with "derived" preference (e.g., spouses of disabled veterans), as well as veterans who have been separated from the armed forces under honorable conditions after three years or more of active military service, are allowed to apply for certain Federal merit promotion opportunities for which an agency accepts applications from individuals outside its own workforce. Under 5 U.S.C. 3330a-3330c, VEOA also provides that preference-eligible persons who allege their rights are violated under any statute or regulation relating to veterans' preference may file a claim with VETS.

VETS plays an important role in VEOA administration. In particular, VETS field staff investigate complaints received from preference- and other eligible persons who allege that their rights have been violated by a Federal agency during either the hiring process or a reduction-in-force.

Upon reaching a determination, VETS notifies the agency of the determination and advises actions to be taken to comply with the VEOA. If the agency complies, the case is closed as either settled or granted, based on agreement between the parties. The resolution would depend on the violation that occurred and may include payment of back wages and benefits.

²³ The memorandum of understanding (MOU) between the Office of Special Counsel (OSC) and VETS governs a Congressionally-mandated USERRA demonstration project, which continues the long-standing practice between the two agencies, whereby cases in which claimants allege a Federal agency committed one or more of the 12 prohibited personnel practices, in addition to violation of their USERRA rights, will also be transferred to OSC for full review and investigation. These cases are in addition to those that would normally be transferred to OSC under the terms of the demonstration project.

If the agency fails to comply, VETS would close the case and advise the claimant of VETS' inability to resolve the issue. In those circumstances, the claimant would be provided with his or her right to appeal the case to the Merit Systems Protection Board (MSPB) against the agency determined to have violated their VEOA rights. Finally, if the MSPB issues an adverse decision, the claimant may further appeal to the Court of Appeals for the Federal Circuit.

If VETS determines that a VEOA violation has taken place, or there is evidence of a violation, a copy of the complete case file, including the complaint and supporting documentation, is forwarded to the Office of Special Counsel, after the case is closed, as a potential prohibited personnel practice (PPP) case for review under a Memorandum of Understanding between OSC and VETS. OSC's role is to ascertain whether a possible PPP has taken place pursuant to 5 U.S.C. 2302(b)(11), which provides that a Federal employee who has authority over personnel decisions may not:

- (A) knowingly take, recommend, or approve any personnel action if the taking of such action would violate a veterans' preference requirement; or
- (B) knowingly fail to take, recommend, or approve any personnel action if the failure to take such action would violate a veterans' preference requirement.

OSC's review of the VEOA complaint, if found to be meritorious, does not affect VETS' investigation. OSC's review for PPPs is a separate matter, and OSC's review occurs after VETS' investigation and attempt to settle a case. Further, OSC's review has no impact on the claimant's right to appeal to the MSPB or to the Federal Circuit Court. Instead, OSC reviews cases to determine if PPPs took place that warrant disciplinary actions against the agency or its responsible personnel.

VETS maintains a Veterans' Preference Advisor that provides information and advice in an electronic format to employers and employees regarding Veterans' Preference issues. In particular, the Advisor helps veterans determine the type of preference and benefits to which they are entitled, explains the process for filing a complaint, and provides an electronic claim form. The Advisor can be found on the Department's "elaws" website at <http://www.dol.gov/elaws/vetspref.htm>. VETS also provides its investigators with a "Veterans' Preference Operations Manual," which, among other things, provides uniform guidance for processing complaints brought by preference-eligible veterans who allege a denial of their rights under the provisions of the VEOA.

The table below indicates the total number of Veterans' Preference cases investigated during FY 2013. Of the 509 complaints received in FY 2013 and the 38 cases carried over from FY 2012 VETS closed 504 cases. On average, cases were resolved in 27 days.

Of the 504 Veterans' Preference cases closed in FY 2013, 28 (5.6 percent) were found to have merit. Investigations were completed in 409 (81.2 percent) of the 504 cases. The remaining 95 cases were closed administratively, withdrawn by the claimant, or merit was not determined (due to the inability to complete the investigation and make a merit determination with 60 days of filing the claim). In these cases, the claimant may request that VETS cease investigative action after 60 days and appeal to MSPB directly on the 61st day after VETS' receipt of the claim. This request to cease investigative action must be made by the claimant in writing.

Table 9. FY 2013 Veterans' Preference Cases²⁴

Category or Subcategory	Number or Percentage of Cases
Total Cases	547
Cases Carried Forward from FY 2012	38
Cases Opened During FY 2013	509

FEDERAL CONTRACTOR REPORTING

The Vietnam Era Veterans' Readjustment Assistance Act of 1974 (VEVRAA), as amended, 38 U.S.C. 4212(d), requires that contractors and subcontractors awarded a qualifying Federal contract annually report on the total number of their employees who belong to certain categories

²⁴ As reported in the Veterans' Preference Information Management System.

of veterans, and the number of those employees who were newly hired during the reporting period. These reporting requirements are satisfied, as follows:

VETS 100 report

The VETS 100 report applies to government contracts entered into before December 1, 2003, in the amount of \$25,000 or more. The VETS 100 report provides data on the following categories of veterans in the contractor's workforce:

- Special disabled veterans (those with disability ratings of 30 percent or greater);
- Vietnam era veterans;
- Recently separated veterans (within one year from discharge from active duty); and
- Other protected veterans (veterans who served on active duty in the U.S. military during a war or campaign or expedition for which a campaign badge is awarded).

VETS 100A Report

The VETS 100A report applies to government contracts entered into or modified after December 1, 2003, in the amount of \$100,000 or more. Pursuant to 38 U.S.C. 4212(a) and (d), as amended by the Jobs for Veterans Act, contractors submitting a VETS 100A report provide data on veterans under their employ in the following categories:

- Disabled veterans;
- Other protected veterans (veterans who served on active duty in the U.S. military during a war or campaign or expedition for which a campaign badge is awarded);
- Veterans who, while serving on active duty in the Armed Forces, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985; and
- Recently separated veterans (within three years from discharge from active duty).

The VETS-100 and 100A reports must be filed each year by September 30. The following table provides a summary of the reports filed during FY 2013.

Table 11. Annual Federal Contractor Reporting as of September 2013²⁵

Category	2013 VETS-100	2013 VETS-100A
Total Federal Contractors Filing	3,938	14,540
Total Submitted Reports	29,320	277,081

VIETNAM ERA VETERANS’ READJUSTMENT ASSISTANCE ACT OF 1974 (VEVRAA)

DOL’s Office of Federal Contract Compliance Programs (OFCCP) administers and enforces 38 U.S.C. 4212(b), the provision under VEVRAA that authorizes a protected veteran to file a complaint with the Secretary of Labor if he or she believes a contractor has not complied with its obligation under 38 U.S.C. 4212(a) to take affirmative action to employ and advance in employment protected veterans. In addition to the annual reporting on veterans’ employment previously discussed, VEVRAA requires the Secretary of Labor to include, as part of this annual report, the number of complaints filed pursuant to 38 U.S.C. 4212(b). These complaints alleged a range of violations of VEVRAA, including discrimination against an employee or applicant because of his or her protected veteran status and failure to recruit veterans or to take other affirmative action steps required by OFCCP’s VEVRAA regulations. In FY 2013, OFCCP processed 53 complaints filed under VEVRAA, accounting for 6.7 percent of the 790 total

²⁵Federal contractors are required to submit reports for all of their hiring locations; hence the number of total reports exceeds the number of total contractors that file. In addition, Federal contractors with hiring locations employing fewer than 50 persons can file a “multiple establishment consolidated report”; hence the number of total multiple establishment consolidated in the total multiple establishment hiring location reports.

complaints processed by the Agency during the year. In addition, OFCCP conducted 4,110 compliance evaluations, of which 810, or 19.7 percent, resulted in conciliation agreements remedying violations of VEVRAA in the areas of recruitment and other affirmative action requirements.

Interagency Collaboration

THE WOMEN'S BUREAU

The Women's Bureau and VETS collaborate on a variety of projects related to women veterans. The agencies work together to empower women veterans to successfully compete for jobs in the civilian labor force.

THE EMPLOYMENT AND TRAINING ADMINISTRATION (ETA)

As mentioned Section I: The Workforce Investment System, VETS collaborates with DOL's Employment and Training Administration to administer workforce investment programs, primarily at American Job Centers. Primarily, these programs include, but are not limited to, the following:

WIA Adult, Youth, and Dislocated Worker Programs

The WIA Adult, Youth, and Dislocated Worker Program, authorized under Title I of the Workforce Investment Act of 1998, is designed to provide quality employment and job training services to assist eligible individuals to find and obtain meaningful employment, and to help employers find the skilled workers they need to compete and succeed in the 21st century economy.

Trade Adjustment Assistance (TAA)

TAA or the Trade Act Program helps trade-affected workers who have lost or may lose their jobs as a result of foreign trade. Individuals in worker groups certified by the Secretary of Labor as being trade-affected may be eligible for services, training, income support and other allowances to assist them in obtaining new jobs and the skills, credentials, resources, and support they may need to become reemployed.

National Emergency Grant program (NEG)

NEGs temporarily expand the service capacity of WIA's Dislocated Worker training and employment programs at the state and local levels by providing immediate funding assistance in response to large, unexpected economic events that cause significant job losses. NEGs generally provide resources directly to states and local workforce investment boards so they can quickly assist laid-off workers through training to increase occupational skills, leading to faster reemployment.

Senior Community Service Employment Program (SCSEP)

This program enhances employment opportunities for unemployed older Americans. The program promotes the employment of seniors as a valuable resource for entities seeking trained, qualified, and reliable employees in a 21st century economy. SCSEP is committed to providing high-quality job training and employment assistance to maximize employment opportunities for program participants.

Indian and Native American Program

This program provides unemployed and under-skilled Native American, Alaskan Native, and Native Hawaiian adults with intensive training and support services. With this assistance, members of these indigenous communities are better equipped to find and take advantage of a broad array of employment opportunities.

National Farmworker Jobs Program

This program provides participants with training and supportive services to increase migrant and season farmworkers' skills and help them attain greater economic stability.

Registered Apprenticeship

The Registered Apprenticeship system is a unique, flexible training system that combines job related technical instruction with structured on-the-job learning experiences. The Registered Apprenticeship system provides the opportunity for workers seeking high-skilled, high-paying jobs and for employers seeking to build a qualified workforce.

Veterans Homeless Prevention Demonstration (VHPD)

The purpose of the VHPD is to explore ways for the Federal Government to offer early intervention homelessness prevention, primarily to veterans returning from wars in Iraq and Afghanistan. This program is jointly administered by the U.S. Department of Veterans Affairs (VA), Department of Housing and Urban Development (HUD), and Labor (DOL VETS). This collaboration provides expertise and resources in the three critical areas of housing, benefits, and training/employment. The selected sites for this demonstration are Camp Pendleton (San Diego California), Fort Hood (Killen Texas), Fort Drum (Watertown, New York), Joint Base Lewis-McChord (Tacoma Washington), and MacDill Air Force Base (Tampa, Florida).

Without specific targeted funding, VETS contributed the following; (1) Assisting grantees to help veterans access mainstream education and job training programs; (2) Assisting veterans with a variety of employment-related programs, Homeless Veterans Reintegration Program (HVRP), Jobs for Veterans State Grant Program, Disabled Veterans Outreach Specialist, and Local Veterans Employment Representative assistance, services at American Job Centers, and assistance under the Uniformed Services Employment and Reemployment Rights Act.

Veterans' Participation Rates for PY 2012

Veterans made up 7.7 percent of the civilian labor force, ages 18 and over.²⁶ As displayed in the following chart, data for PY 2012 indicate that ETA's adult employment and training programs served nearly 1.4 million veterans among over 18 million participants, which results in a participation rate for veterans of 7.5 percent, a decrease of 0.1 percent from PY 2011.

²⁶ For 2013 (See not above regarding this footnote), based on BLS Current Population Survey (Not Seasonally Adjusted) 10,975,000 veterans in civilian labor force, ages 18 and over and 142,391,000 non-veterans, ages 18 and over (10,975,000/142,391,000 equals a 7.7 percent rate of representation for veterans in 2013).

Among ETA programs, the highest veterans' participation rates were recorded by the Senior Community Service Employment Program (12.5 percent) and the National Emergency Grant program (9.1 percent). These, as well as four additional programs, the WIA Adult, WIA Dislocated Worker, Wagner Peyser and the TAA program, had participation rates exceeding the 7.2 percent rate of representation for veterans in the civilian labor force, ages 18 and over. The high rates of participation in WIA Dislocated Worker and TAA is encouraging because they offer a wider range of services, such as in-depth assessments, classroom training, and employer-specific on-the-job training. As a result, through these programs, veterans are better prepared to enter the civilian workforce.

The veterans' participation rate in the two other DOL formula programs was also above the representation rate for veterans in the civilian labor force: the participation rate for the WIA Adult program was 7.8 percent (0.6 percent below the corresponding labor force participation rate), while the participation rate for the Wagner-Peyser Employment Service was 7.4 percent (0.2 percent above the labor force rate). It is important to note that the Employment Service is a "universal access" program; there are no eligibility requirements, so anyone may receive services. Since many employment service tools and interventions are now offered on-line in many states, and those tools allow on-line participants to 'self-identify' as veterans, there might well be some veterans who choose not to identify as veterans. Accordingly, the actual rate of participation for veterans using the Employment Service might be higher than what the official data shows, and this also could be the case for any program that permits self-identification of veteran status.

With regard to the WIA Dislocated Worker program in PY 2012, 16.3 percent of veteran exiters received training compared to 14 percent of all jobseekers. This shows that veterans are accessing training services at a higher rate than non-veterans.

Table 12. PY 2012 Participation in DOL/ETA Programs

PY 2012 DOL/ETA ADULT PROGRAMS:	Number of Veterans Participating or Exiting ²⁷	Number of Individual Participants/ Exiters ²⁸	Veterans' Participation Rate in DOL Programs
Wagner-Peyser Employment Service	1,369,207	18,383,917	7.5%
WIA Adults	86,879	1,111,555	7.8%
WIA Dislocated Workers	52,580	696,144	7.6%
WIA Youth	129	112,386	0.3%

²⁷ The WIA Adult and Dislocated Workers Programs, the Indian and Native American Program, the National Emergency Grants, and the National Farmworker Jobs Program track exiters.

²⁸ The term "exiters" means individuals who participated and then exited the program.

National Emergency Grants	2,399	26,221	9.1%
Registered Apprenticeship	28,900	375,425	7.7%
Senior Community Services Employment Program – Ages 55+ (Veterans and eligible spouses)	8,470	67,551	12.5%
Trade Act Program	6,178	82,371	7.5%
Indian and Native American Program	175	12,893	1.4%
National Farmworker Jobs Program	179	13,972	1.3%
Total²⁹	1,555,096	20,507,010	7.6%

Sources: Program data was derived from ETA reporting systems, which track participation levels and services offered to participants. These various systems include: WIASRD (which excludes self-service exiters); Labor Exchange Reporting System; SCSEP Performance and Results Quarterly; Trade Act Performance Report; and BearTracks. Most programs operate on a Program Year basis with the exception of the Trade program which operates on a Fiscal Year basis. Individuals were counted only once per Program Year per program. The data for PY 2012 programs is for the period of July 1, 2012 - June 30, 2013.

VOCATIONAL REHABILITATION AND EMPLOYMENT (VR&E) ASSISTANCE

In FY 2013, VETS continued to strengthen its partnership with the VA, in particular, by connecting DVOP specialists with disabled veterans who participate in the VR&E program. This program’s primary function is to help veterans who have service-connected disabilities become employed, maintain employment, or achieve independence in daily living. The goal of VETS partnership with VR&E is successful job placement and transition to employment for disabled veterans, without duplication, fragmentation, or delay in the services provided.

VR&E Participants and Outcomes

During FY 2013, the VA referred 4,877 veterans for DOL-funded employment services.³⁰ Of those referred, 1,135 (23.3 percent) were referred for assistance with Labor Market Information, which is information that includes employment opportunities within a geographical area and the skill sets required to enter those fields, prior to being enrolled in a training program by the VA. The remaining 3,742 (76.7 percent) were job-ready veterans seeking employment. In FY 2013, 511 (10.5 percent) of the job-ready veterans’ participation was either interrupted for extended illness or participants reenrolled into school for additional training. An additional 2,145 (44 percent) job-ready veterans were listed as having exited from the program, either because they entered employment or they discontinued their participation for other reasons. Of those veterans

²⁹ Some programs and states co-enroll participants to ensure integrated service delivery to job-seekers. Accordingly, the “total” in this table represents the sum of participants in all of the programs. Due to the high levels of co-enrollment the total numbers served in Wagner-Peyser is a recommended indication of the total individuals served in the workforce system.

³⁰ This data only reflects Veterans referred to DOL for employment services and does not represent all VR&E participants.

who exited, 1,470 (68.5 percent) entered employment. The average hourly wage of the veterans who entered employment was \$17.66. Table 14 below provides data for VA/DOL VRA&E Joint Activities and Outcomes.

Table 13. FY 2013 VR&E Statistics³¹

Category	Outcomes (number of participants or wages)
Veterans Referred from VR&E	4,877
Carried In from previous year's participation	3,635
Operation Enduring Freedom/Iraqi Freedom Veterans	1,410
Real Lifelines (RLL) Participants	1
Coming Home To Work (CHTW) Participants	22
Referred Veterans Registered	6,850
Referred Veterans Not Registered	1,662
Interrupted/Operation Iraqi Freedom (OIF)	260
Discontinued	675
In School	251
Provided Labor Market Information	1,135
Closed, Other	555
Registered Veterans Available for Work	3,974
Entered Suitable Employment	1,470
Average Entry Hourly Wage	\$17.66
Rehabilitated	1,562

VETERANS RETRAINING ASSISTANCE PROGRAM (VRAP)

Section 211 of the VOW Act established the Veterans Retraining Assistance Program (VRAP) in the VA, which provides up to 12 months of full-time training assistance in high-demand occupations for up to 99,000 eligible unemployed veterans, aged 35-60. DOL has been assisting the VA with the administration of VRAP, by, among other things: conducting outreach to veterans; developing technical guidance for the workforce system; identifying high-demand occupations; and collecting self-attested eligibility data based on age, employment status, and previous participation in other job training programs. In addition, the Department supports veterans before, during, and after their participation in VRAP by providing employment services (such as resume development, job referrals, and case management) through the national network of approximately 2,500 American Job Centers, as well as through an extensive suite of online tools.

At the end of FY 2013, the Department launched a Veterans' Resource Online Page for workforce development staff, which can be found at <http://veterans.workforce3one.org>. The

³¹ As reported in the Veterans' Employment and Training Service Operations and Program Activity Report (VOPAR) System, National VR&E Quarter Data Report.

page includes VRAP links, videos, and tutorials which will be updated regularly based on input from field offices.

Through FY 2013, over 142,000 veterans had applied for VRAP, over 123,000 were certified as eligible, and nearly 68,000 had been trained or enrolled in the program.

Online and Electronic Tools

As mentioned earlier in this Report, VETS has developed the USERRA and Veterans' Preference elaws Advisors to assist veterans and transitioning service members in understanding their rights, responsibilities and benefits under both of these laws. These Advisors mimic the interaction a person might have with an employment law expert and provide assistance with filing complaints under each of these laws.

VETS has also develop two additional elaws Advisors:

Veterans' Employment and Career Transition Advisor (www.dol.gov/elaws/realifelines.htm)

This Advisor provides valuable information and access to contact information for one-on-one employment assistance and online resources to assist transitioning services members and veterans in their reintegration into the civilian workforce.

e-VETS Resource Advisor (www.dol.gov/elaws/evets.htm) – This Advisor assists veterans, transitioning service members and all those who support them, to quickly and easily navigate information and resources on a range of topics including: benefits and compensation; education and training; employment; family and caregiver support; health; homeless assistance; transportation and travel; and state specific information and resources. This Advisor integrates with the National Resource Directory, a web-based directory of more than 11,000 national, state and local services for veterans, service members and their families and caregivers.

In addition to these VETS' electronic tools, the American Job Centers (AJC) provide critical support to help veterans succeed in today's competitive workforce. In PY 2012, for example, nearly 1.4 million³² of the over 18 million AJC customers were veterans. Building on this success, DOL continues to make concerted efforts to increase veterans' awareness of, access to, and use of the American Job Center service delivery system, including the Department's extensive suite of on-line electronic tools. The Department also continues to work with VA and DoD on a veteran-focused website to provide one-stop access to a hiring and benefits guide for veterans and employers seeking to hire veterans.

These tools help businesses, job seekers, students, and workforce professionals find employment and provide additional resources through the Career One Stop suite of websites (www.careeronestop.org) and the Occupational Information Network (O*NET) website (www.onetonline.org), which support the following:

³² Includes all participants in the Labor Exchange; because of high levels of co-enrollment it is not appropriate to sum the programs' enrollments.

- **My Next Move for Veterans** (www.MyNextMove.org/vets) – This is a resource that helps veterans transition from military service to the civilian workplace. Through a simple and quick search engine, veterans enter their prior military experience (branch of service and military occupation code or title) and link to the information they need to explore civilian careers and related training. In addition, My Next Move for Veterans contains a link to a career interest inventory the O*NET Interest Profiler.
- **mySkills myFuture** (www.myskillsmyfuture.org) – This resource helps laid-off workers and others seeking career changes, such as transitioning service members, find new occupations to explore based on transferable skills they have gained in past jobs.
- **The Reemployment Portal** (www.careeronestop.org/ReEmployment) – This resource is designed to assist workers following a job loss, and to connect laid-off workers to needed resources for training, reemployment, and career planning. In addition, the portal provides information on where they can receive financial and emotional assistance during the process of job transition. Specifically, the site serves as a single source for information on jobs, career training, and unemployment benefits, as well as information about assistance with regard to necessities such as food, housing, health care, utility payments and tax help. The resources will prove useful to everyone from recently laid-off workers, transitioning service members, and unemployment insurance claimants to individuals who have exhausted their unemployment benefits and those seeking to change careers.
- **Veterans Reemployment Portal** (www.CareerOneStop.org/Vets) – This resource is designed to provide veterans with employment, training, career planning, and mental health counseling after their military service. The site links veterans to local resources, and provides a military-to-civilian job search based on military job title or military occupational code.
- **America’s Career Info Net** (www.careerinfonet.org) – This site offers access to a wide array of current and accurate career and labor market information.
- **America’s Service Locator** (www.servicelocator.org) – This tool directs citizens to available workforce services and location information at the Federal, state and local levels.
- **O*NET OnLine** (<http://online.onetcenter.org>) – This site provides access to career information, including detailed occupational requirements and characteristics. It can be accessed readily by selecting a tab, “Military Crosswalk,” and entering either a Military Occupational Classification code or title that will link the user to related civilian occupations and available O*NET employment data.
- **Military to Civilian Occupation Translator** (www.careerinfonet.org/moc) – This site provides easy access to detailed information for transitioning workers to help them identify occupations that match their work-related interests. Users can search by keyword and find military occupational specialties, which can then be matched with jobs in the civilian workforce.
- **America’s Heroes at Work** (<http://www.americasheroesatwork.gov/>) This technical assistance service focuses on the employment challenges of returning service members living with Traumatic Brain Injury (TBI) and/or Post-Traumatic Stress Disorder (PTSD). The project equips employers and the workforce development system with the tools they need to help returning service members affected by TBI and/or PTSD succeed in the workplace.

Through this partnership, hiring managers, human resources professionals, and co-workers are educated through an online training resource on the ways in which TBI and PTSD impact employment, and how stable employment can assist in recovery.

- **Registered Apprenticeship for Veterans.** <http://www.doleta.gov/oa/veterans.cfm>. This unique website provides information and links to for veterans seeking opportunities in Registered Apprenticeship. It also provides information about how employers can hire veterans in apprenticeship and provides them with step-by-step information on getting certified to provide GI Bill benefits in a Registered Apprenticeship.
